History of the Language Sciences / Geschichte der Sprachwissenschaften / Histoire des sciences du langage. 1. Teilband  
Sylvain Auroux, E.F.K. Koerner, Hans-Josef Niederehe, Kees Versteegh, 2008-07-14 No detailed description available for HIST  
LANGUAGE SCIENCES KOERNER 1 TLBD HSK 18 1 E BOOK      The History of Linguistics in the Low Countries Jan  
Noordegraaf, Kees Versteegh, E.F.K. Koerner, 1992-11-05 The importance of the Low Countries as a centre for the study of  
foreign languages is well known The mutual relationship between the Dutch grammatical tradition and the Western  
European context has however been largely neglected In this collection of papers on the history of linguistics in the Low  
Countries the editors have made an effort to present the Dutch tradition in connection with that of the neighbouring  
countries Three articles by Claes Dibbets and Klifman deal with the earliest stages of the development of a grammar for the  
Dutch vernacular Several important European figures worked in the Low Countries their contribution to linguistics is  
discussed in articles on Vossius Rademaker Spinoza Klijnsmit and one of the most original phoneticians of European  
linguistics Montanus Hulsker Vivian Salmon s article is a survey on the relations between English and Dutch linguistics in the  
field of foreign language teaching In the 19th century Dutch linguistics had a special relationship with German general and  
historical linguistics four articles deal with this period Jongeneelen van Driel le Loux Schuringa Noordegraaf Finally there  
are three articles by Kaldewij Hagen and van Els Knops on the development of three branches of linguistics in the 20th  
century structuralism dialectology and applied linguistics This volume should be of interest for all specialists in the history of  
linguistics in Europe who are interested in the interdependence of the various traditions      **Norms and Usage in**  
**Language History, 1600-1900** Gijsbert Rutten, Rik Vosters, Wim Vandenbussche, 2014-11-18 Historical sociolinguistics has  
successfully challenged the traditional focus on standardization in linguistic historiography Extensive research on newly  
uncovered textual resources has shown the widespread variation in the written language of the past that was previously  
hidden or neglected The time has come to integrate both perspectives and to reassess the importance of language norms  
standardization and prescription on the basis of sound empirical studies of large corpora of texts The chapters in this volume  
discuss the interplay of language norms and language use in the history of Dutch English French and German between 1600  
and 1900 Written by leading experts in the field each chapter focuses on one language and one century A substantial  
introductory chapter puts the twelve research chapters into a comparative perspective The book is of interest to a wide  
readership ranging from scholars of historical linguistics sociolinguistics sociology and social history to advanced graduate  
and postgraduate students in courses on language variation and change      **History and Historiography of Linguistics**  
Hans-Josef Niederehe, E. F. K. Koerner, 1990 These two volume present papers from the Fourth International Conference on  
the History of the Language Sciences ICHoLS IV held at the University of Trier Germany in August 1987 Volume 1 contains  
the following sections I Generalia II Antiquity III Arabic Linguistics IV Middle Ages V Renaissance VI 17th Century Volume 2

continues with VII 18th Century VIII 19th Century IX 20th Century and provides Author and Subject Indexes **The auxiliary do in eighteenth-century English** Ingrid Tieken-Boon van Ostade, 2016-11-21 No detailed description available for The auxiliary do in eighteenth-century English *Geschiedenis van de Nederlandse syntaxis* Joop van der Horst, Jan van der Horst, 2008 Geschichte Der Sprachwissenschaften Sylvain Aurox, 2000 **The Emergence of the Modern**

**Language Sciences** Sheila Embleton, John E. Joseph, Hans-Josef Niederehe, 1999-10-15 Although it is widely thought that structural linguistics began abruptly with the publication of Saussure's revolutionary Course in General Linguistics the work of E F K Koerner has demonstrated that Saussure for all his originality remained true to the basic tenets of his 19th-century predecessors In this volume the development of modern linguistics before during and after Saussure is traced in 20 studies honouring the scholar who has done more than anyone else to professionalize linguistic historiography during the last quarter-century Among the wide range of topics covered are grammar and philosophy in the age of comparativism the relation of Saussure's anagram studies to his theory of the linguistic sign nationalist overtones in German linguistics from 1914 to 1945 and the true story with newly discovered documentation of why Chomsky's Logical Structure of Linguistic Theory didn't get published during the 1950s or 60s In addition to an introductory overview of Koerner's career and a complete listing of his publications the volume includes previously unpublished materials from Saussure's notebooks

History of Linguistics 2005 Douglas A. Kibbee, 2007-11-28 As each period in the history of the language sciences has chosen to focus on different key questions the study of that history promises to open our eyes to the variety of interesting questions that can be asked and answered taking off the blinders of contemporary preoccupations September 15 2005 linguists from twenty-five countries gathered at the University of Illinois at Urbana-Champaign to share their passion for the history of their discipline This volume is a distillation of many fine contributions from that conference shedding light on the many different approaches to the study of language *Nicolaas van Wijk (1880-1941)* Jan Paul Hinrichs, 2006-01-01 Nicolaas van Wijk 1880-1941 was the founder of Slavic studies in the Netherlands and one of the greatest Slavists in general This book describes for the first time how a scholar of the Dutch language whose etymological dictionary of the Dutch language is still considered the best of its kind was appointed in 1913 to the newly created Chair in Slavic languages at Leiden University and built up a tremendous reputation for himself in Eastern Europe Van Wijk's relations with his famous teacher the linguist C C Uhlenbeck are followed attentively as is his postgraduate apprenticeship in Leipzig 1902-1903 where he followed August Leskien's lectures in Slavic studies Attention is also paid to the various aspects of Van Wijk's enormous oeuvre covering the whole field of Slavic studies and of phonology of which he was one of the pioneers Van Wijk did not however follow the lines approved for the social conduct of a Leiden professor and was at one time suspected by the police of communist activities His commitment to materially helping all he could from an Eastern Europe torn apart by the First World War and its aftermath was exceptional His fascination with all things Russian is a background theme that played throughout

his life and even at his death son of a Dutch Reformed minister the bachelor Van Wijk was buried in a grave surmounted by a Russian Orthodox cross beside his Russian foster son who died young This book is of interest to Slavists linguists and cultural historians *The Emergence of the Modern Language Sciences: Historiographical perspectives* Sheila M. Embleton, John Earl Joseph, Hans-Josef Niederehe, 1999 Although it is widely thought that structural linguistics began abruptly with the publication of Saussure's revolutionary *Course in General Linguistics* the work of E F K Koerner has demonstrated that Saussure for all his originality remained true to the basic tenets of his 19th century predecessors In this volume the development of modern linguistics before during and after Saussure is traced in 20 studies honouring the scholar who has done more than anyone else to professionalize linguistic historiography during the last quarter century Among the wide range of topics covered are grammar and philosophy in the age of comparativism the relation of Saussure's anagram studies to his theory of the linguistic sign nationalist overtones in German linguistics from 1914 to 1945 and the true story with newly discovered documentation of why Chomsky's *Logical Structure of Linguistic Theory* didn't get published during the 1950s or 60s In addition to an introductory overview of Koerner's career and a complete listing of his publications the volume includes previously unpublished materials from Saussure's notebooks *Het Nederlands vroeger en nu* Guy Janssens, Ann Marynissen, 2005 Handboek over het ontstaan en de ontwikkeling van het Nederlands voor extramurale studenten en docenten Nederlands *The historiography of grammatical concepts* Els Elffers-van Ketel, 2024-08-26 *Diversions of Galway* Anders Ahlqvist, 1992-01-01 This volume contains a selection of papers from the Fifth International Conference on the History of the Language Sciences dealing with subjects ranging from the classical period till the 20th century *La linguistique entre mythe et histoire* Daniel Droixhe, Chantal Grell, 1993 **Norm, geest en geschiedenis** J. Noordegraaf, 1985 *Sundanese Print Culture and Modernity in Nineteenth-century West Java* Mikihiro Moriyama, 2005 Sundanese books have been printed since 1850 up to the present This article tries to draw a configuration of printing books in Sundanese for about 100 years in the Dutch colonial and Japanese occupation period Printing and publishing books in Sundanese was initiated by the Dutch colonial government for the sake of management of their colony This article discusses three aspects in print culture in Sundanese 1 the role of government printing house and private publishers 2 the cultural relationship between manuscript and printed books and 3 the changes after the emergence of printed books Print culture in the Sundanese speaking community was born and has developed Its facets have changed from time to time We notice more than 2200 Sundanese books were published up to the second decade of the 21st century when the technological innovation has proceeded in an enormous pace However the importance of Sundanese publication has not diminished in terms of nurturing educated citizens in this digital oriented society and supporting cultural identity **Der vaderen boek** Wim van Anrooij, Dini Hogenelst, Geert Warnar, 2003 Der vaderen boek gaat over de beoefening van de Middelnederlandse letterkunde en met name over de geschiedenis ervan In zeventien bijdragen schetsen moderne specialisten in dit vak leven en werk van

een aantal van hun voorgangers Wie de galerij van deze chronologisch geordende geschreven portretten van vak vaders langsluipend ziet een beeld opdoemen van het ontstaan de opkomst en de voortschrijdende professionalisering van de medioneerlandistiek De vakbeoefening begint met het verzamelen van oude handschriften met Middelnederlandse teksten De teksten vindt men aanvankelijk vooral de moeite waard vanwege hun historische en taalkundige betekenis Maar in de loop van de negentiende eeuw begint men oog te krijgen voor de literaire waarde en de charme ervan Om de teksten goed te kunnen bestuderen worden omvangrijke projecten aangevat zoals het Middelnederlandsch woordenboek maar ook worden in deze periode belangrijke tekstedities gepubliceerd Met deze werkinstrumenten binnen handbereik komt de tekststudie goed op gang om in de twintigste eeuw al snel uit te waaieren in een steeds rijker spectrum van specialisaties en benaderingswijzen van volkskunde tot analytische bibliografie van retorica tot receptie esthetica uitmondend in de cultuurhistorische benadering van de Middelnederlandse letterkunde

**Language Planning as Nation Building** Gijsbert Rutten, 2019-02-21 The decades around 1800 constitute the seminal period of European nationalism The linguistic corollary of this was the rise of standard language ideology from Finland to Spain and from Iceland to the Habsburg Empire Amidst these international events the case of Dutch in the Netherlands offers a unique example After the rise of the ideology from the 1750s onwards the new discourse of one language one nation was swiftly transformed into concrete top down policies aimed at the dissemination of the newly devised standard language across the entire population of the newly established Dutch nation state Thus the Dutch case offers an exciting perspective on the concomitant rise of cultural nationalism national language planning and standard language ideology This study offers a comprehensive yet detailed analysis of these phenomena by focussing on the ideology underpinning the new language policy the institutionalisation of this ideology in metalinguistic discourse the implementation of the policy in education and the effects of the policy on actual language use

**Language Prescription** Don Chapman, Jacob D. Rawlins, 2020-09-21 This book is a detailed examination of social connections to language evaluation with a specific focus on the values associated with both prescriptivism and descriptivism The chapters written by authors from many different linguistic and national backgrounds use a variety of approaches and methods to discuss values in linguistic prescriptivism In particular the chapters break down the traditional binary approaches that characterize prescriptive discourse to create a view of the complex phenomena associated with prescriptivism and the values of those who practice it Most importantly this volume continues serious academic conversations about prescriptivism and lays the foundation for continued exploration
