Normative Politics And The Community Of Nations:

Normative Politics and the Community of Nations Haskell Fain,1987   Social Trust and Human Communities Trudy Govier,1997 Govier offers a general account of trust in a variety of social contexts and explores the negative effects of distrust on society For example she examines the role of trust in relationships between doctors and patients and between politicians and constituents With well chosen examples ranging from the Oka crisis to Meech Lake Govier points out that distrust in politics has been especially prevalent and while it may be well founded can have pernicious effects Social Trust and Human Communities will be of great interest to students and scholars in the areas of applied ethics social theory and politics   Communitarian International Relations Emanuel Adler,2005 Emanuel Adler is one of the leading IR theorists of his generation This volume brings together a collection of his articles including four new and previously unpublished chapters   **Citizenship and State Succession** European Commission for Democracy through Law,1998-01-01 On cover title page European Commission for Democracy through Law   **Full Responsibility** Steven G. Smith,2022-09-01 Starting with an appreciation of the practical realizations that move us to assume responsibility Full Responsibility develops an ontologically grounded model of different forms of responsibility and the challenges and fulfillments found in each Special attention is given to pragmatic and political responsibility highlighting considerations for right action that are not accurately recognized by universalizing ethics Issues in abortion decisions providing for responsible work and immigration and refugee policy are examined in the complex frame of political responsibility Moving past the standoff between political moralism and political realism Steven G Smith offers an account of political responsibility as an unstable combination of all modes of responsibility The book concludes by reviewing different approaches to the impossible but compelling ideal of full responsibility The distinctive natures of ethical historical and religious forms of responsibility are discussed in appendices

An Ethic of Responsibility in International Relations Daniel Warner,1991 Questioning many of the traditional assumptions found in discussions of ethics in international relations Warner introduces a new way of thinking about moral responsibility and invites reflection on the nature of communities and states   **Nationalism and Internationalism in the Post-Cold War Era** Kjell Goldmann,Ulf Hannerz,Charles Westin,2000 The tension between nationalism and internationalism has been a major feature of world politics since the end of the Cold War Based on a Nobel symposium this collection brings together an international selection of acclaimed authors from a wide variety of academic disciplines The book combines focused case studies and more theoretically based material to examine critically the post Cold War political landscape Subjects covered include changing interpretation of the nation state and nationalism the growing prominence of transnational organisations technological changes in information communication and transport multiculturalism and citizenship ethnicity and religious identity in African Indian Bosnian and Polish nationalism the growing global significance of Islam   *International Organization* John J. Kirton,2017-05-15 For well over a century international organizations have been

central to the study and practice of international relations and global governance But how much and how do they help hinder or otherwise alter the behaviour of the actors who utilize them and provide public goals for the global community as a whole By assembling the leading works that have defined the scholarly field of international organization from realist liberal institutionalists constructivists and political economy traditions this work examines the many organizations which have formed in ever expanding numbers and fields over the years the degree to which they have succeeded and their future potential It looks at the changing international arena particularly with the expansion of civil society and how that affects the role of such organizations Has a formula for an effective and successful international organization developed or will one have to wait for the next generation of organizations institutions and regimes **Reckoning with Empire: Self-Determination in International Law** Miriam Bak Mckenna,2022-11-28 The book adopts a new approach to self determination s international legal history tracing the ways in which various actors have sought to reinvent self determination in different juridical political and economic iterations to create the conditions for global transformation The value of the book s approach lies not only in a more nuanced understanding of self determination s legal history but in excavating the multiple ways in which actors particularly those from the Global South have challenged the existing normative and legal structures which rendered them unequal under the European system of international law Rethinking this process touches on issues that are relevant not only to debates about the enduring legacy of imperialism in our present but also to contemporary discussions of the position self determination has come to occupy in international law **Democracy, Nationalism and Multiculturalism** Ramón Máiz,Ferrán Requejo,2004-06-11 This book provides an up to date review of subnational and multicultural issues in Western multinational states Constitutional Law and Politics of Secession Antoni Abat i Ninet,2023-07-31 This collection presents an analysis of the concept of secession and its constitutional accommodation alongside an assessment of the effects of secession in constitutional and international law The work proposes a new approach and insights into the existing literature that fill a gap from multidisciplinary and transdisciplinary perspectives The book approaches the topics of secession constitutionalism and their relationship from both theoretical and empirical perspectives including the analysis of particular secessionist examples such as Catalonia the Basque Country Tigray the Palestinian minority in Israel Bosnia and Herzegovina and the Mapuche Nation from a comparative constitutional perspective Elucidating these issues from different methodological and conceptual perspectives produces novelties in the scientific and constitutional debate The interplay between constitutions constitutional law and secession is indeed explored from philosophical socio legal but also from strict constitutional law outlooks Written by constitutional and public international law experts the book will be of interest to students academics and researchers working in the areas of constitutional law legal theory theory of the state philosophy of law and political science **The Sins of the Nation and the Ritual of Apologies** Danielle Celermajer,2009-04-27 This book examines the apology s extraordinary political emergence and significance to ideas

of collective responsibility ritual and contemporary politics   **Global Justice and Territory** Cara Nine,2012-05-31 Historical injustice and global inequality are basic problems embedded in territorial rights In Global Justice and Territory Cara Nine advances a general theory of territorial rights adapting a theoretical framework from natural law theory to ground all territorial claims   <u>Globalizing Care</u> Fiona Robinson,2018-10-08 This book broadens the scope of thinking about ethics in global social relations criticizing the leading traditions in international ethics and exploring the ways in which some strands of feminist moral philosophy may offer an alternative perspective to view ethics in international relations   **Handbook of Political Citizenship and Social Movements** Hein-Anton van der Heijden,2014-10-31 This Handbook uniquely collates the results of several decades of academic research in these two important fields The expert contributions successively address the different forms of political citizenship and current approaches and recent development   *Non-Territorial Autonomy and Decentralization* Tove H. Malloy,Levente Salat,2020-10-15 This volume describes and analyzes alternative and emerging models of non territorial autonomy NTA particularly in relation to decentralization The authors push the NTA debate in new directions by offering a re conceptualization based on ethno cultural bottom up decentralized action that redefines autonomy into its true sense of autonomous action Through description critical analysis and evaluation of several case studies this book assesses the potential for new paradigms within decentralized systems The authors explore two approaches to political decentralization which add to the theoretical debate on NTA network governance which focuses on new dynamics in policy processes and normative pluralism which focuses on accommodating the distinctness of the groups through the subsidiarity principle with regard to their own affairs The book explores the potential ramifications of ethno cultural NTA institutions acting within the wider framework of state institutions and assesses the functions of these institutions as another dimension of decentralization and thus another layer of democracy With contemporary examples from Europe the Middle East Asia and South Africa as well as theoretical aspects of the conceptualization of autonomy this book offers a truly global perspective It will be of great interest to policy makers in countries experiencing adverse developments due to the pressure on public management as well as advanced students and scholars questioning the ability of the Westphalian system to address cultural diversity   **Birth of a Nation'hood** Toni Morrison,2010-08-25 Co edited and introduced by Toni Morrison winner of the Nobel Prize in Literature Birth of a Nation hood elucidates as never before the grim miasma of the O J Simpson case which has elicited gargantuan fascination As they pertain to the scandal the issues of race sex violence money and the media are refracted through twelve powerful essays that have been written especially for this book by distinguished intellectuals black and white male and female Together these keen analyses of a defining American moment cast a chilling gaze on the script and spectacle of the insidious tensions that rend our society even as they ponder the proper historical cultural political legal psychological and linguistic ramifications of the affair With contributions by Toni Morrison George Lipsitz A Leon Higginbotham Jr with Aderson Bellegarde Francois and

Linda Y Yueh Nikol G Alexander and Drucilla Cornell Kimberl Williams Crenshaw Ishmael Reed Leola Johnson and David Roediger Andrew Ross Patricia J Williams Ann duCille Armond White Claudia Brodsky Lacour **The Blackwell Companion to Political Sociology** Kate Nash,Alan Scott,2008-04-30 The Blackwell Companion to Political Sociology brings together thirty eight original essays covering the wide inter disciplinary field of political sociology Represents the most comprehensive overview available in the field of political sociology Covers traditional questions as well as emerging topics including recent debates on gender citizenship and political identity Includes detailed editorial introduction abstracts further reading lists and a consolidated bibliography **Governing Borders and Security** Catarina Kinnvall,Ted Svensson,2014-09-19 This book explores and maps the relationship between borders security and global governance Theoretically the book seeks to establish to what degree and in what ways traditional notions of borders security and global governance are being eroded undermined and contested in the context of a globalising world Borders are increasingly being re conceptualised to account for connectivity as well as divisions at the same time as focus is shifting from permanence to permeability The ambivalence ascribed to bordering processes is at heart a security concern borders are not only entwined with state formation but are also attempts at governing securities identities and histories Proceeding from a critical rendering of statist conceptualisations of borders security and governance the book not only emphasises the politics of borders mobility and re locations but also provides a shared groundwork for interrogating the spatial conditions for bordering and border work as manifestations of a continuously deferred becoming rather than being A principal contribution of the volume is its scrutiny of how borders are enacted and perceived in and through the everyday and of how such production and construal can make sense as acts of resistance to various forms of governing Such a focus reveals the necessity of investigating how governing from afar affects the possibilities and tendencies to securitise as well as desecuritise within as well as beyond elite settings This book will be of much interest to students of border studies human geography governmentality global governance and IR critical security studies *On the History of Political Philosophy* W Julian Korab-Karpowicz,2015-07-14 Intended for use in courses on political philosophy or the history of political philosophy On the History of Political Philosophy provides a critical account of Western political philosophy from classical Greece to modern times Demonstrating the continued relevance of historical ideas to today s problems the author traces ongoing discussions about justice power and human nature by examining the ideas of key political theorists
