Halfon, 1998 Virginia Held best known for her landmark book *Rights and Goods* has made an indelible mark on the fields of ethics feminist philosophy and social and political thought Her impact on a generation of feminist thinkers is unrivaled and she has been at the forefront of discussions about the way in which an ethic of care can affect social and political matters These new essays by leading contemporary philosophers range over all of these areas While each stands alone the essays together demonstrate the lasting value of Held's work to the field Includes an afterword by Held

Thomas Aquinas John Hittinger, 2015-10-05 Pope John Paul II bestowed upon St Thomas Aquinas the accolade of Doctor Humanitatis or Doctor of Humanity because he was ready to affirm the good or value of culture wherever it is to be found Thomas is a teacher for our time because of his assertions on the dignity of the human person and the use of his reason *Inter Munera Academicarum* 1999 This collection of papers explores the various philosophical and theological aspects of the thought of both Thomas Aquinas and John Paul II pertaining to this theme of teacher of humanity The topics discussed here include the political praxis of Karol Wojtyla Gadamer on common sense prudence and subsidiarity embodied cognition the knowledge of God the commandment of love Pope Francis on the Beatitudes the new evangelization Thomism and modern cosmology and the challenges of transhumanism and gender ideology The papers were presented at a conference held in Houston Texas USA in 2013 cosponsored by the Center for Thomistic Studies the John Paul II Forum and the Pontifical Academy of St Thomas Aquinas This work will help to realize in its small way the hopes of Saint John Paul II concerning St Thomas Aquinas It is to be hoped that now and in the future there will be those who continue to cultivate this great philosophical and theological tradition of Aquinas for the good of both the Church and humanity *Fides et ratio* 74 Additionally it will undoubtedly be of interest to all participants in the cultivation of the thought of Thomas Aquinas John Paul II and the dialogue between Thomism and the modern world

role in addressing worldwide vulnerabilities Catholics, Conflicts and Choices Angela Coco, 2014-09-12 Many Catholics today are disenchanted with the Church's continuing distrust of women and laity. But despite this widespread dissatisfaction traditional power relations have hardly changed over the last century. Catholics Conflicts and Choices presents detailed interviews with lay people, priests, Sisters and Christian Brothers, each discussing their personal struggles with church teachings and practices. The conversations are selected to illustrate different experiences of power relations, particularly different aspects of gender dynamics within the organisational structures of the Church. The interviews are examined within a framework of feminist sociological and psychological theory. Catholics Conflicts and Choices reveals how, despite a long history of challenging official notions of authority and obedience and assumptions about intimate relationships, there is little potential for change if the established power relations of the Church are not confronted **Being Social** Kimberley

Brownlee, David Jenkins, Adam Neal, 2022 This pioneering collection of original essays aims to remedy the neglect of social needs and rights in human rights theory and practice by exploring the social dimensions of the human rights minimum.

The Tumbleweed Society Allison J. Pugh, 2015-04-01 In The Tumbleweed Society Allison Pugh offers a moving exploration of sacrifice, betrayal, defiance and resignation as people cope in a society where relationships and jobs seem to change constantly. Based on eighty in-depth interviews with parents who have varied experiences of job insecurity and socio-economic status, Pugh finds most seem to accept job insecurity as inevitable but still try to bar that insecurity from infiltrating their home lives. Rigid expectations for enduring connections and uncompromising loyalty in their intimate relationships, however, can put intolerable strain on them, often sparking instability in the very social ties they yearn to protect. By shining a light on how we prepare ourselves and our children for an uncertain environment, Pugh gives us a detailed portrait of how we compel ourselves to adapt emotionally to a churning economy and what commitment and obligation mean in an insecure age.

Embodied Care Maurice Hamington, 2010-10-01 Until now ethicists have said little about the body, limiting their comments on it to remarks made in passing or at best devoting a chapter to the subject. Embodied Care is the first work to argue for the body's centrality to care ethics, doing so by analyzing our corporeality at the phenomenological level. It develops the idea that our bodies are central to our morality, paying particular attention to the ways we come to care for one another. Hamington argues that human bodies are built to care, as a result, embodiment must be recognized as a central factor in moral consideration. He takes the reader on an exciting journey from modern care ethics to Merleau-Ponty's philosophy of the body and then to Jane Addams's social activism and philosophy. The ideas in Embodied Care do not lead to yet another competing theory of morality; rather, they progress through theory and case studies to suggest that no theory of morality can be complete without a full consideration of the body Care and Support Rights After Neoliberalism Yvette

Maker, 2022-04-28 This book offers principles for designing care and support policy to address two persistent sources of tension in the field. The first is the tension between supporting women's unpaid caring and supporting their paid work.

participation The second is the tension between carers claims for support based on the burden of caring and disability rights claims for support for choice and independence for people with disabilities Policies tend to favor one activity and one constituency over the other Consequently individuals access to resources and choices about how they live are constrained Using a citizenship rights framework with insights from human rights law the principles provide guidance for designing policy and legislation that avoids either or approaches and addresses the interests of multiple constituencies Analyses of Australian and English policies demonstrate the value of the principles for developing policy that reduces inequality responds to failures of neoliberalism and expands choice for all *Socializing Care* Maurice Hamington, Dorothy C. Miller, 2006-01-10 Criticism is often levied that care ethics is too narrow in scope and fails to extend to issues of social justice Socializing Care attempts to dispel that criticism Contributors to the volume demonstrate how the ethics of care factors into a variety of social policies and institutions and can indeed be useful in thinking about a number of different social problems Divided into two sections the first looks at care as a model for an evaluative framework that rethinks social institutions liberal society and citizenship at a basic conceptual level The second explores care values in the context of specific social practices like live kidney donations or settings like long term care as a framework that should guide thinking Ultimately this collection demonstrates how society would benefit from a more serious engagement with care ethics

Caring Responsibilities in European Law and Policy Eugenia Caracciolo di Torella, Annick Masselot, 2020-02-28 This book explores the emerging engagement of EU law with care and carers The book argues that the regulation of care by the EU is crucial because it enables the development of a broad range of policies It contributes to the sustainability of society and ultimately it enables individuals to flourish Yet to date the EU approach to regulating the caring relationship remains piecemeal and lacks the underpinning of a cohesive strategy Against this backdrop this book argues that the EU can and must take leadership in this area by setting principles and standards in accordance with the values of the treaty in particular gender equality human dignity solidarity and well being The book further makes a case for a stronger protection for carers who should not only be protected against discrimination but should also be supported valued and put in a position to make choices and lead full lives In order to achieve this a proactive approach to rebalancing the relationship between paid and unpaid work is necessary Ultimately the book puts forward a series of legal and policy recommendations for a holistic approach to care in the EU
