and Morocco Gregory White, 2001-07-26 This book examines the profound impact of European integration on two North African countries Tunisia and Morocco Confronting the theoretical literatures on the entanglements of the domestic and international realms and the intricate role played by the middle income state in the international arena White provides the first detailed comparison of Tunisia and Morocco's post independence political economies especially in the context of the Euro Mediterranean Partnerships signed with the European Union in the late 1990s North African states must act on the one hand as entrepreneurs seeking to encourage trade and attract foreign investment within the domestic economy in the process of crafting foreign economic policy with the European Union On the other hand such states are constrained by domestic pressures such as imperatives to secure job creation and maintain internal security Countries on the periphery are therefore faced with two distinct questions first how does a middle income state balance its conflicting roles and manage its relations with a regional power and second how does the relationship with the outside world affect key domestic actors Answering these questions is one of the primary challenges facing Tunisia and Morocco in the new decade Economic Development and Political Action in the Arab World M.A. Mohamed Salih, 2014-03-05 Analysis of North African revolt against authoritarianism known as the Arab Spring embraced reductionist explanations such as the social media youth unemployment and citizens agitations to regain dignity in societies humiliated by oppressive regimes This book illustrates that reductionist approaches can only elucidate some symptoms of a social problem while leaving unexplained the economic and political structures which contributed to it One outcome of quiescence resource based ethnic and sectarian conflicts and faulty development paradigm is deepened inequality and a wedge between winners and losers or affluence wealth and power vis vis poverty and hunger among humiliated jobless and hope less masses The book blends theories of development and transition to explain the complex factors which contributed to North Africans revolt against authoritarianism and its long term consequences for political development in the Arab World This timely book is of great interest to researchers and students in Development Studies Economics and Middle Eastern Studies as well as policy makers and democracy human rights and social justice activists in the Arab world **Contemporary North Africa** Halim Barakat, 2015-12-22 This book by a group of international scholars both Arab and Western was first published in 1985 and considers the state of contemporary North Africa and its position both in the Arab world and within wider international affairs It examines the cultural and historical contexts which have shaped political and social conditions within the region It also considers the nature of intra regional conflict which has long been a feature of the North African political scene The sociological impact of economic development within the region is treated at length as are the changing positions of both the traditional elites and new groups such as women workers **The History of Northern Africa** Amy McKenna Senior Editor, Geography and History, 2011-01-15 Examines the history of northern Africa including an overview of each of the countries that comprise that area of the continent Economic and Political change in Tunisia E. Murphy, 1999-03-08 This book examines the processes

of economic and political reform in Tunisia placing the current policies of Zine el Abidine Ben Ali within their historical context The book develops a theoretical understanding of the relationship between economic liberalisation and political change in the Arab world developing the concept of the disarticulation of the corporatist state and concluding that despite efforts at democratization an authoritarian political system is a more likely successor in the era of economic transformation

Minority Rights, Feminism and International Law Silvia Gagliardi, 2020-05-26 Investigating minority and indigenous women's rights in Muslim majority states this book critically examines the human rights regime within international law Based on extensive and diverse ethnographic research on Amazigh women in Morocco the book unpacks and challenges generally accepted notions of rights and equality Significantly and controversially the book challenges the supposedly emancipatory power vested in the human rights project arguing that rights based discourses are sites of contestation for different groups that use them to assert their agency in society More specifically it shows how the very conditions that make minority and indigenous women instrumental to the preservation of their culture may condemn them to a position of subalternity In response and engaging the notion and meaning of Islamic feminism the book proposes that feminism should be interpreted and contextualised locally in order to be effective and inclusive and so in order for the human rights project to fully realise its potential to empower the marginalised and make space for their voices to be heard Providing a detailed empirically based analysis of rights in action this book will be of relevance to scholars students and practitioners in human rights policy and practice in international law minorities and indigenous peoples rights gender studies and Middle Eastern and North African Studies

Tunisia Kenneth J. Perkins, 2025-10-30 First published in 1986 Tunisia Crossroads of the Islamic and European Worlds presents a comprehensive overview of Tunisian history along with its political and governmental structures and the role of Habib Bourguiba and other nationalist leaders in moulding those institutions and in controlling them since independence Tunisia's location at the middle of Africa's Mediterranean coast and at the edge of the Sahara has made the exposure of its people to the cultures of the Middle East Europe and Africa inevitable Indeed Tunisia has often been a conduit for the passage of ideas from one of these regions to another Of all the influences that have helped shape modern Tunisian society however two stand out the country's enduring commitment to Islam and its extensive contacts with Europe culminating in three quarters of a century of French rule from 1881 to 1956 The book focuses on the process of extensive social and economic change since 1956 that has dramatically altered Tunisian society and affected the lives of all Tunisians It concludes with the study of Tunisia's foreign policy stressing the country's status as a small state surrounded by more powerful less moderate nations Tunisia's handling of such regional issues as the Arab Israeli problem and the upsurge of Islamic fundamentalism is

considered as are its relations with the superpowers and its European and African neighbours With a new preface to the reissue this book is an important historical reference work for scholars and researchers of African Studies and African history

Historical Dictionary of Tunisia Kenneth J. Perkins, 2016-10-12 The demographically modest but strategically significant country of Tunisia has experienced profound and revolutionary change in the almost two decades since the publication of the previous edition of this volume 1997 Most dramatically a populist uprising in 2011 ousted the entrenched dictatorship whose two heads had successively presided over the country since independence from France in 1956 As Tunisians celebrated this achievement they inspired similar movements elsewhere in the Middle East and North Africa giving rise to an Arab Spring that held out hope for the introduction of transformational innovations in democratic concepts and institutions across the region Sadly however powerful forces of the status quo thwarted these efforts in country after country But in Tunisia itself a more hopeful scenario unfolded In the fall of 2011 elections to a constituent assembly that international observers characterized as free and fair gave the major Islamic party a plurality of the votes and set Tunisia on a course of participatory democracy This third edition of Historical Dictionary of Tunisia contains a chronology an introduction an appendix and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Tunisia

Algeria and the Cold War Mohammed Lakhdar Ghetta, 2017-11-24 Throughout the Cold War Africa was a theatre for superpower rivalry That the U S and the Soviet Union used countries in Sub Saharan Africa to their own advantage is well known Sub Saharan countries also exploited Cold War hostilities in turn But what role did countries in North Africa play This book offers an international history of U S Algerian relations at the height of the Cold War The Algerian president Houari Boumediene actively adjusted Algeria s foreign policy to promote the country s national development pursuing its own commitment to non alignment and Third World leadership Algeria s foreign policy was directly opposed to that of the U S on major issues such as the Arab Israeli conflict and Western Sahara conflict and the Algerian government was avowedly socialist Yet as this book outlines Algeria was able to negotiate a position for itself between the U S and the Soviet bloc winning support from both and becoming a key actor in international affairs Based on materials from recently opened archives this book sheds new light on the importance of Boumediene s era in Algeria and will be an essential resource for historians and political scientists alike

Revolution and Dictatorship Steven Levitsky, Lucan Way, 2024-10-29 Why the world s most resilient dictatorships are products of violent revolution *Revolution and Dictatorship* explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense

counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe *Revolution and Dictatorship* shows why governments that emerge from violent conflict endure *Oil Wealth and the Poverty of Politics* Miriam R. Lowi, 2009-11-12 This book explains why Algeria's post colonial domestic political economy unravelled and how the regime eventually managed to regain power and hegemony *Human Resource Management in Developing Countries* Pawan S. Budhwar, Yaw A. Debrah, 2013-03-07 Focusing on thirteen developing countries across Asia Africa and the Middle East this book explores the contextual functions of HR in these countries In addition it analyses general issues of HRM in cross national settings

Encyclopedia of African History 3-Volume Set KEVIN SHILLINGTON., 2005 *The Battlefield* Hugh Roberts, 2017-03-14 The violence that has ravaged Algeria has often defied explanation Regularly invoked in debates about political Islam transitions to democracy globalization and the right of humanitarian interference Algeria's tragedy has been reduced to a clash of stereotypes Islamists vs a secular state terrorists vs innocent civilians or generals vs a defenseless society The prevalence of such simplistic representations has disabled public opinion inside as well as outside the country and contributed to the intractability of the conflict This collection of essays offers a radical corrective to Western misconceptions Rejecting the usual tautological approaches of inherent predetermined conflict Hugh Roberts explores the outlook and evolution of the various internal forces as they emerged the Islamists the Berberists the factions within the army and the regime in general and he looks at external interests and actors He explains their strategies and the maneuvers in which they have engaged The resulting analyses illuminate the startling dynamics of the conflict and the real issues at stake and identify the implications not only for Algeria but also for this crucial region Informed by a deep knowledge of Algeria and Algerian history these accessible essays guide the reader through the extraordinary politics of the drama in all its complexity

The Making of Modern Libya Ali Abdullatif Ahmida, 2011-03-23 The Making of Modern Libya is a thorough examination of the social cultural and historical background of modern Libya Ali Abdullatif Ahmida examines the reaction of the ordinary Libyan people to colonialism and nationalism from the early nineteenth century through the end of anticolonial resistance to the rise of the modern Libyan state in 1951 Weaving together insights drawn from Arabic French English and Italian sources he challenges Eurocentric theories of social change that ignore the internal dynamics of native social history Among other

things he shows that Sufi Islam tribal military organization and oral traditions were crucial in the fight against colonialism. The political and cultural legacy of the resistance has been powerful, strengthening Libyan nationalism and leading to the revival of strong attachments to Islam. The memory of this period has not yet faded and appreciation of this background is essential to understanding modern Libya. This new edition also investigates Libya's postcolonial nationalist policies, bringing the argument up to the present.
