## **North African Environment At Risk:**

**The North African Environment At Risk** Will D Swearingen, Abdellatif Bencherifa, 2019-07-11 Deforestation soil erosion desertification air and water pollution loss of wildlife habitat and declining biodiversity are interrelated manifestations of a growing environmental crisis in North Africa that has received relatively little attention from government policymakers and is poorly understood by North African peoples the international development community and scholars In this book a multidisciplinary group of scholars explores the broad range of human activities causing the deterioration of North Africa's fragile environment including population pressure and poverty rapid urbanization intense competition for land and water and mismanagement of natural resources The contributors examine in particular the conflict between economic development and environmental sustainability They analyze the historical roots of current environmental problems the underlying socioeconomic causes potential solutions and differences in environmental policies among various countries This is an insightful portrait of a developing region attempting to reconcile traditional methods of land use with growing demands for resources the exigencies of economic development and the limitations of its natural resource base **North African environment at risk** Abdellatif Bencherifa, 1996

**Climate Change Law and Policy in the Middle East and North Africa Region** Damilola S. Olawuyi, 2021-07-28 Climate Change Law and Policy in the Middle East and North Africa Region provides an in depth and authoritative examination of the guiding principles of climate change law and policy in the MENA region This volume introduces readers to the latest developments in the regulation of climate change across the region including the applicable legislation institutions and key legal innovations in climate change financing infrastructure development and education It outlines participatory and bottom up legal strategies focusing on transparency accountability gender justice and other human rights safeguards needed to achieve greater coherence and coordination in the design approval financing and implementation of climate response projects across the region With contributions from a range of experts in the field the collection reflects on how MENA countries can advance existing national strategies around climate change green economy and low carbon futures through clear and comprehensive legislation Taking an international and comparative approach this book will be of great interest to students scholars and practitioners who work in the areas of climate change environmental law and policy and sustainable development particularly in relation to the MENA region

**Climate Change in the Middle East and North Africa** William R. Thompson, Leila Zakhirova, 2021-07-04 Environmental factors in the Middle East and North Africa MENA have played a crucial role in the historical and social development of the region The book delves into a broad set of historical literature from the past 15 000 years that neglected to consider environmental factors to their full effect Beyond the broad historic analysis the chapters derive conclusions for today's debate on whether climate change leads to more social conflict and violence Introducing a theoretical framework focused on adaptive cycling this book probes and refines the role of climate in ancient and modern political economic systems

in the MENA region It also underscores just how bad the 21st century environment may become thanks to global warming While the MENA region may not survive the latest onslaught of deteriorating climate there is also some interest in how a region that once led the world in introducing all sorts of innovations thousands of years ago has evolved into a contemporary setting characterized by traditional conservatism poverty and incessant strife Emphasizing regional dynamics the book s central question deals with the role of climate change in the rise and decline of the MENA region The book will be a key resource to students and readers interested in global warming including academics and policymakers

**Environmental Health Perspectives** ,1995 **Managing the Risks of Extreme Events and Disasters to Advance Climate Change Adaptation** Intergovernmental Panel on Climate Change,2012-05-28 Extreme weather and climate events interacting with exposed and vulnerable human and natural systems can lead to disasters This Special Report explores the social as well as physical dimensions of weather and climate related disasters considering opportunities for managing risks at local to international scales SREX was approved and accepted by the Intergovernmental Panel on Climate Change IPCC on 18 November 2011 in Kampala Uganda *Climate Change, Security Risks and Conflict Reduction in Africa* Charlene Cabot,2016-11-04 Millions of people are already affected by weather related shocks every year in West Africa and climate change is highly likely to increase these threats In the wake of climate change rising temperatures increasingly irregular rainfall and more frequent natural hazards will endanger the ways of life of vulnerable population groups in this region and destabilize their human security A surge in violence and conflicts could take place One of the conflict constellations could be between farmers and herders These groups are highly vulnerable to climate change due to their dependence on natural resources Millions of people are already affected by weather related shocks every year in West Africa and climate change is highly likely to increase these threats In the wake of climate change rising temperatures increasingly irregular rainfall and more frequent natural hazards will endanger the ways of life of vulnerable population groups in this region and destabilize their human security A surge in violence and conflicts could take place One of the conflict constellations could be between farmers and herders These groups are highly vulnerable to climate change due to their dependence on natural resources for their subsistence Furthermore they are historically prone to enter into conflict over issues of access to natural resources However social economic and political circumstances fundamentally influence environmental conflicts There might thus be opportunities to face the societal challenges of climate change in a peaceful way and the political and institutional framework could play an important role in reducing conflict and violence In order to explore such a path this study analyses the potential of political factors policies and institutions for the reduction of climate change induced or aggravated conflicts between farmers and herders After a theoretical demonstration a case study of agro pastoral conflicts in Burkina Faso Cote d Ivoire and Ghana is conducted their subsistence Furthermore they are historically prone to enter into conflict over issues of access to natural resources However social economic and political circumstances fundamentally influence environmental conflicts

There might thus be opportunities to face the societal challenges of climate change in a peaceful way and the political and institutional framework could play an important role in reducing conflict and violence. In order to explore such a path this study analyses the potential of political factors, policies and institutions for the reduction of climate change induced or aggravated conflicts between farmers and herders. After a theoretical demonstration a case study of agro-pastoral conflicts in Burkina Faso, Côte d'Ivoire and Ghana is conducted.

*Assessments of Regional and Global Environmental Risks* Alexander E. Farrell, Jill Professor Jäger, 2010-09-30. As environmental challenges grow larger in scale and implications it is increasingly important to apply the best scientific knowledge in the decisionmaking process. Editors Farrell and Jäger present environmental assessments as the bridge between the expert knowledge of scientists and engineers on the one hand and decisionmakers on the other. When done well assessments have a positive impact on public policy, the strategic decisions of private firms and ultimately the quality of life for many people. This book is the result of an international interdisciplinary research project to analyze past environmental assessments and understand how their design influenced their effectiveness in bringing scientific evidence and insight into the decisionmaking process. The case studies in the book feature a wide range of regional and global risks including ozone depletion, transboundary air pollution and climate change.

*Assessments of Regional and Global Environmental Risks* offers several important contributions. It provides a clear account of the choices faced in the design of environmental assessments and a clear description of the lessons learned from past assessments. It illustrates why assessments are social processes, not simply reports. And while they identify no universal one-size-fits-all design, the authors find that to be effective environmental assessments must be viewed by those who produce and use them as being salient, credible in their scientific support and legitimate or fair in design and execution.

**Climate Change and Food Security in West Asia and North Africa** Mannava V.K. Sivakumar, Rattan Lal, Ramasamy Selvaraju, Ibrahim Hamdan, 2013-07-30. The countries of West Asia and North Africa (WANA) have long had the challenge of providing sustainable livelihoods for their populations in the fragile ecosystems of semi-arid and arid areas. Climate change is already a reality in WANA and it places additional constraints on the already fragile ecosystems of dry areas and limited natural resources in WANA. A comprehensive and integrated approach to planning and implementing the climate change adaptation strategies across the wide range of agro-ecosystems in different countries in WANA could help both the planners and the local communities to deal effectively with the projected impacts and also contribute to overall sustainability of agricultural production systems. This book addresses the important issue of climate change and food security in West Asia and North Africa and presents the appropriate strategies which could help in the development of new policies to better adapt agriculture production systems and enhance food security in WANA.

*Environmental Risk Mitigation* Barbara Weiss, Michiyo Obi, 2016-10-18. This book presents an extensive review of the context and an analysis of the market for clean energy technologies with batteries as the primary case study. The focus of this book is on clean energy technology and in

particular on renewable energy and portable mobile and stationary battery and energy supply The authors examine how effectively countries with large and advanced economies are building and coaxing the markets needed to effectively mitigate environmental risk The analysis takes a country level perspective of some of the largest and most technologically advanced economies in the world including China France Germany Japan Korea the United Kingdom and the United States The authors explore the measures being taken to foster markets that effectively reduce environmental risk increase its resilience and even its recovery In the concluding chapter the authors suggest that while the market for environmental risk mitigation remains nascent the possibility for its rapid development is high A number of market coaxing mechanisms to promote its more rapid development are proposed The book will be of interest to researchers policy makers business strategists and academics in the fields of political science and business management

**Strategies to Cope with Risks of Uncertain Water Supply in Spate Irrigation Systems** Eiman Fadul Bashir,2020-02-07 Flood based irrigation in particular spate irrigation relies on variable flood scenarios occurring every year Management of spate flood for spate irrigation must cope with the variability and uncertainty of water supply Coping with water supply risks is often the only way to harness the opportunities for a productive use of water in arid environment Integrating and strengthening community responses into irrigation policies and improvement plans could ensure sustainable and productive spate irrigated systems that can achieve food security for the poor population This research analyses and evaluates risks and coping strategies developed by farming communities in the Gash spate irrigation system in Sudan Eastern Africa The research has synthesized different coping strategies developed by farmers water user associations and water managers to cope with low high and untimely flood risks The research provide different frameworks that can assist with the identification of risk sources pathways and propagation as well as evaluation of locally developed strategies at field secondary and intake systems The findings of this study contribute to scarce knowledge on spate irrigation system and provide scientifically sound and evidence based insights to aid informed policy and decision making to improve productivity and sustainability of the spate irrigation systems

**Climate Litigation and Justice in Africa** Kim Bouwer,Uzuazo Etemire,Tracy-Lynn Field,Ademola Oluborode Jegede,2024-01-25 EPDF and EPUB available Open Access under CC BY NC ND licence In recent years climate litigation has become an important subject of global scholarly and policy interest However developments within the Global South particularly in Africa have been largely neglected This volume brings together an international team of contributors to provide a much needed examination of climate litigation in Africa The book outlines how climate litigation in Africa is distinct as well as pinpointing where it connects with the global conversation Chapters engage with crucial themes such as human rights approaches to climate governance corporate liability and the role of gender in climate litigation Spanning a range of approaches and jurisdictions the book challenges universal concepts around climate and the role of activism including litigation in seeking to advance climate governance

*Climate Change Adaptation and International Development* Ryo Fujikura,Masato

Kawanishi,2012-07-26 Climate change impacts upon the world's poorest most heavily. It is therefore essential that international development initiatives focus on improving the ability of developing countries to adapt to the effects of climate change. This book, a product of research by the JICA RI Research Institute of the Japan International Cooperation Agency, examines climate change adaptation from the perspective of development cooperation in order to provide useful lessons for those engaged in research, policy and practice in this vital area. In this book, the editors have brought together a wide range of case studies from across Africa and Asia covering urban and rural areas and different sectors including water, agriculture and disaster management in order to examine the following: o high resolution climate change projection in Asia and how this can be used in planning appropriate adaptation responses o in depth case studies of climate change projections, social, economic and environmental impact and vulnerability assessment and adaptation in rural Thailand and urban Philippines o cases across Africa for which climate data is less readily available and alternative approaches need to be adopted o the current situation amongst international donors o emerging issues caused by climate change. In the introductory section, the editors draw together the full implications from the case studies to discuss how international communities can support adaptation in developing countries and to give an assessment of bilateral projects. They reflect on the lessons learned and offer

recommendations for future research and international development cooperation. **The Middle East** Arda Özkan, Pinar Yürür, 2024-08-06. *The Middle East Crises: Conflicts and Wars* aims to evaluate the Middle East through international politics with diverse theoretical frameworks. Chapters have been written by many contributors who explore the Middle East from multiperspectives. The scope of this book is very comprehensive and many relevant issue areas are examined. In addition to focusing on the different perspectives of international relations, current problems are considered especially in the axis of classic, modern and post-modern security studies. The main issues of Syria, Lebanon, Qatar, Saudi Arabia, Iran, Iraq, the UAE, Jordan, Palestine, Kuwait, Oman, Yemen, Bahrain, Israel and Turkey are included. Maritime disputes, the Arab Spring, energy transfer, migration, the EU, hydro-politics, Green Sukuk, green Islamic bond, youth policies and strategic investments in the Middle East are a number of the topics examined. [International Handbook of Population and Environment](#) Lori M.

Hunter, Clark Gray, Jacques Véron, 2022-02-07. This handbook presents a timely and comprehensive overview of theory, data, methods and research findings that connect human population dynamics and environmental context. It presents regional summaries of empirical findings on migration and environmental connections and summarizes environmental impacts of migration such as urbanization and deforestation. It also offers background on the health implications of environmental conditions such as climate change, natural disasters, scarcity of natural resources as well as on resource scarcity and fertility, gender considerations in population and environment and the connections between population size, growth, composition and carbon emissions. This handbook helps readers to better understand the complexities within population-environment connections in addition to some of the opportunities and challenges within environmental demography. As such, this collection

is an invaluable resource for students researchers and policy analysts in the areas of demography migration fertility health and mortality as well as environmental global and development studies

**Coping with Global Environmental Change, Disasters and Security** Hans Günter Brauch, Úrsula Oswald Spring, Czeslaw Mesjasz, John Grin, Patricia Kameri-Mbote, Béchir Chourou, Pál Dunay, Joern Birkmann, 2011-02-03 Coping with Global Environmental Change Disasters and Security Threats Challenges Vulnerabilities and Risks reviews conceptual debates and case studies focusing on disasters and security threats challenges vulnerabilities and risks in Europe the Mediterranean and other regions It discusses social science concepts of vulnerability and risks global regional and national security challenges global warming floods desertification and drought as environmental security challenges water and food security challenges and vulnerabilities vulnerability mapping of environmental security challenges and risks contributions of remote sensing to the recognition of security risks mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions

**Hydroclimatic Extremes in the Middle East and North Africa** Ahmed Mohammed Hussain El Kenawy, El Sayed Mohamed Robaa, Mohammed Magdy Mustafa Torab, Mohamed Hereher, 2024-05-29 Hydroclimatic Extremes in the Middle East and North Africa Assessment Attribution and Socioeconomic Impacts focuses on assessing the current situation of hydroclimatic extremes in the MENA region with particular emphasis on dry and wet extreme events The results of the rapidly changing atmospheric and oceanic situations of these extremes will be addressed presenting examples for the environmental socioeconomic and cultural impacts of these events in the region and evaluating the current ability to monitor and adapt to such events as well as exploring the potential use of advanced geospatial techniques in improving current understanding of these extreme events The book utilizes a multidisciplinary approach with various state of the art methods approaches and analytical techniques in environmental meteorological and hydrological sciences providing case studies from the Middle East and North Africa It will provide a solid basis for scientists to assess the validation of several research methods in the region and may be applicable to other regions as climate change continues to cause increasing aridity worldwide The case studies presented will reflect the multifaceted character of hydrometeorological extremes in the region with representative examples for the environmental socioeconomic and cultural impacts of climate change Therefore this book is a valuable source for climatologists meteorologists hydrologists geographers and water resources scientists Thoroughly details the effects of climate variability in the Middle East and North Africa a hotspot region of climate change vulnerability Examines changes in hydroclimatic extremes at different spatial scales ranging from local assessments to investigations that cover the entire region Provides a comprehensive assessment of hydrometeorological feedback to current and future climate change in the MENA region Fills the current gap in the literature concerning the response of arid and semiarid regions to climate change with particular emphasis on the MENA region

### **North African Environment At Risk Introduction**

North African Environment At Risk Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. North African Environment At Risk Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. North African Environment At Risk : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for North African Environment At Risk : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks North African Environment At Risk Offers a diverse range of free eBooks across various genres. North African Environment At Risk Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. North African Environment At Risk Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific North African Environment At Risk, especially related to North African Environment At Risk, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to North African Environment At Risk, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some North African Environment At Risk books or magazines might include. Look for these in online stores or libraries. Remember that while North African Environment At Risk, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow North African Environment At Risk eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the North African Environment At Risk full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of North African Environment At Risk eBooks, including some popular titles.

## FAQs About North African Environment At Risk Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. North African Environment At Risk is one of the best book in our library for free trial. We provide copy of North African Environment At Risk in digital format, so the resources that you find are reliable. There are also many Ebooks of related with North African Environment At Risk. Where to download North African Environment At Risk online for free? Are you looking for North African Environment At Risk PDF? This is definitely going to save you time and cash in something you should think about.
