Vale,2015-01-01 Siwa is a remote oasis deep in the heart of the Egyptian desert near the border with Libya Until an asphalt road was built to the Mediterranean coast in the 1980s its only links to the outside world were by arduous camel tracks As a result of this isolation Siwa developed a unique culture manifested in its crafts of basketry pottery and embroidery and in its styles of costume and silverwork The most visible and celebrated example of this was the silver jewelery that was worn by women in abundance at weddings and other ceremonies Based on conversations with women and men in the oasis and with reference to old texts this book describes the jewelery and costume at this highpoint of Siwan culture against the backdrop of its date gardens and springs social life and dramatic history It places the women s jewelery costume and embroidery into social perspective and describes how they were used in ceremonies and everyday life and how they were related to their beliefs and attitudes to the world The book also describes how in the second half of the twentieth century the arrival of the road and of television brought drastic change and the oasis was exposed to the styles and fashions of the outside world and how the traditional silver ornaments were gradually replaced by gold A New Deal for Navajo Weaving Jennifer McLerran,2022-05-10 A New Deal for Navajo Weaving provides a detailed history of early to mid twentieth century Din weaving projects by non Natives who sought to improve the quality and marketability of Navajo weaving but in so doing failed to understand the cultural significance of weaving and its role in the lives of Din women By the 1920s the durability and market value of Din weavings had declined dramatically Indian welfare advocates established projects aimed at improving the materials and techniques Private efforts served as models for federal programs instituted by New Deal administrators Historian Jennifer McLerran details how federal officials developed programs such as the Southwest Range and Sheep Breeding Laboratory at Fort Wingate in New Mexico and the Navajo Arts

and Crafts Guild Other federal efforts included the publication of Native natural dye recipes the publication of portfolios of weaving designs to guide artisans and the education of consumers through the exhibition of weavings aiding them in their purchases and cultivating an upscale market McLerran details how government officials sought to use these programs to bring the Din into the national economy instead these federal tactics were ineffective because they marginalized Navajo women and ignored the important role weaving plays in the resilience and endurance of wider Din culture Historical Dictionary of Morocco Aomar Boum, Thomas K. Park, 2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al aqsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on al maghrib al aqsa than is the case for most modern nation states This third edition of Historical Dictionary of Morocco contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco **Jean Genet** David Bradby, Claire Finburgh, 2012-03-15 This book is the only introductory text to Genet in English offering an overview of this key figure in defining and understanding twentieth century theatre The authors provide a comprehensive account of Genet s key plays and productions his early life and his writing for and beyond the theatre
