Bridges David McFetrich,2022-06-02 Bridges are one of the most important artefacts constructed by man the structures
having had an incalculable effect on the development of trade and civilisation throughout the world Their construction has
led to continuing advances in civil engineering technology leading to bigger spans and the use of new materials Their failures
too whether from an inadequate understanding of engineering principles or as a result of natural catastrophes or warfare
have often caused immense hardship as a result of lost lives or broken communications In this book a sister publication to his
earlier *An Encyclopaedia of British Bridges* Pen Sword 2019 David McFetrich gives brief descriptions of some 1200 bridges
from more than 170 countries around the world They represent a wide range of different types of structure such as beam
cantilever stayed and suspension bridges Although some of the pictures are of extremely well known structures many are not
so widely recognisable and a separate section of the book includes more than seventy lists of bridges with distinctly unusual
characteristics in their design usage and history Children's Books in Print ,1993 *Literary Market Place* ,2000 Literary
