**Statistical Modelling for Social Researchers** Roger Tarling,2008-09-16 This book introduces social researchers to all aspects of statistical modelling in an easily accessible but informative way A website will accompany the book which will provide additional information and exercises It is the first text to introduce the social researcher to the principles of statistical modelling and to the full range of methods available This book describes in words rather than mathematical notation the aims and principles of statistical modelling but helpfully remains fully comprehensive      **Mathematics for Young Children** Marion H. Bird,2022-11-21 For many years increasing stress has been placed on the importance of giving

the under sevens a good start in mathematics Originally published in 1991 Mathematics for Young Children shows how children as young as four and five and of all abilities can be encouraged to carry out their own mathematical explorations whilst covering the content of a prescribed curriculum A substantial part of the book is taken up with actual case studies of children working with Marion Bird in a reception classroom fully illustrated with examples of the children s work These case studies are then analysed to show how a prescribed syllabus can be effectively covered through an investigational approach a point which is of paramount importance to teachers concerned with the introduction of the National Curriculum The role of the teacher too is examined carefully in order to identify those parts of a teacher s repertoire which seems to be particularly fruitful in encouraging young children s active mathematical thinking Throughout readers are encouraged to apply and amend ideas to suit their own particular circumstances
