Nunca Mas

**Juan E. Méndez, Human Rights Watch
(Organization)**

Nunca Mas:

The Healing of Nations Mark R. Amstutz, 2005 How does one forgive an international political transgression as deep as genocide or apartheid Forgiveness is often conceived of as an element of personal morality and even at that it is difficult This book argues that it is also an essential part of political ethics especially when dealing with collective wrongdoing by political regimes In the past a retributive justice demanding prosecution and punishment of all past offenses has kept the international community away from moving on to the next step in regime change Here Mark R Amstutz takes a restorative justice approach calling for nations to account for crimes through truth commissions public apology and repentance reparations and ultimately forgiveness and the lifting of deserved penalties The distinctive feature of forgiveness is the balance it strikes between backward looking accountability and forward looking reconciliation The Healing of Nations combines a theory of the role of forgiveness in public life with four key case studies that test this ethic Argentina Chile Northern Ireland and South Africa Amstutz uses the hard cases to illustrate the promise and limits of forgiving without forgetting Truth and Partial Justice in Argentina Juan E. Méndez, Human Rights Watch (Organization), 1991 Contents

Transitional Justice Neil J. Kritz, 1995 3 Purge and Screening **The Memory of the Argentina Disappearances** Emilio Crenzel, 2012-01-30 This book is an examination of the history of the Nunca Mas report issued by Argentina's National Commission on the Disappearance of Persons established to investigate the disappearances perpetrated by state in the 1970s Given the canonical nature of Nunca Mas it sheds light on Argentina's social memory of its violent past **Uruguay** Leslie Jermyn, Winnie Wong, 2010 The highly regarded Cultures of the World series celebrates the diversity of other cultures in this fully updated and expanded edition Fear at the Edge Juan E. Corradi, Patricia Weiss Fagen, Manuel Antonio Garretón Merino, 1992-12 A genuinely interdisciplinary work the best attempt I have ever seen at a truly unified intellectuals approach to an important issue Timothy Wickham Crowley Georgetown University Very seldom does a collected volume achieve the academic quality and internal coherence that one sees in this case It is a major contribution to comparative research on post authoritarian situations Carlos Waisman University of California San Diego Shattered Voices Teresa Godwin Phelps, 2010-11-24 Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence Acknowledging

revenge as a real and deep human need Shattered Voices explores the benefits and problems inherent when a fragile country seeks to heal its victims without risking its own future In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a new government is both unrealistic and unwise When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful Shattered Voices contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy By looking concretely at the work and responsibilities of truth commissions Shattered Voices offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed

Dissensual Subjects Andrew C. Rajca, 2018-02-15 In *Dissensual Subjects* Andrew C Rajca combines cultural studies and critical theory to explore how the aftereffects of dictatorship have been used to formulate dominant notions of human rights in the present In so doing he critiques the exclusionary nature of these processes and highlights who and what count and do not count as subjects of human rights as a result Through an engaging exploration of the concept of never again *nunca m s nunca mais* and close analysis of photography exhibits audiovisual installations and other art forms in spaces of cultural memory the book explores how aesthetic interventions can suggest alternative ways of framing human rights subjectivity beyond the rhetoric of liberal humanitarianism The book visits sites of memory two of which functioned as detention and torture centers during dictatorships to highlight the tensions between the testimonial tenor of permanent exhibits and the aesthetic interventions of temporary installations there Rajca thus introduces perspectives that both undo common understandings of authoritarian violence and its effects as well as reconfigure who or what are made visible as subjects of memory and human rights in postdictatorship countries *Dissensual Subjects* offers much to those concerned with numerous interlocking fields memory human rights political subjectivity aesthetics cultural studies visual culture Southern Cone studies postdictatorship studies and sites of memory

Mixed Signals Kathryn A. Sikkink, 2018-09-05 Nowhere did two understandings of U S identity human rights and anticommunism come more in conflict with each other than they did in Latin America To refocus U S policy on human rights and democracy required a rethinking of U S policy as a whole It required policy makers to choose between policies designed to defeat communism at any cost and those that remain within the bounds of the rule of law from the Introduction Kathryn Sikkink believes that the adoption of human rights policy represents a positive change in the relationship between the United States and Latin America In *Mixed Signals* she traces a

gradual but remarkable shift in U S foreign policy over the last generation By the 1970s an unthinking anticommunist stance had tarnished the reputation of the U S government throughout Latin America associating Washington with tyrannical and often brutally murderous regimes Sikkink recounts the reemergence of human rights as a substantive concern showing how external pressures from activist groups and the institution of a human rights bureau inside the State Department have combined to remake Washington s agenda and its image in Latin America The current war against terrorism Sikkink warns could repeat the mistakes of the past unless we insist that the struggle against terrorism be conducted with respect for human rights and the rule of law
