

STYLES OF PRESIDENTIAL LEADERSHIP

Ch. 9.3

Presidential Leadership

George R. Goethals

Presidential Leadership:

Presidential Leadership George C. Edwards III, Kenneth R. Mayer, Stephen J. Wayne, 2024-01-24 This classic text on the American presidency analyzes the institution and the presidents who hold the office through the key lens of leadership. Edwards, Mayer, and Wayne explain the leadership dilemma presidents face and their institutional, political, and personal capacities to meet it. Two models of presidential leadership help us understand the institution: one in which a strong president dominates the political environment as a director of change, and another in which the president performs a more limited role as facilitator of change. Each model provides an insightful perspective to better understand leadership in the modern presidency and to evaluate the performance of individual presidents. With no simple formula for presidential success and no partisan perspective driving the analysis, the authors help us understand that presidents and citizens alike must understand the nature of presidential leadership in a pluralistic system in which separate institutions share powers. This fully revised thirteenth edition is fully updated through the Biden administration with recent policy developments, the 2022 midterm elections, changes to the media environment, and the latest data.

Presidential Leadership Nick Ragone, 2011-09-27 A contributor to U.S. News & World Report's Web site examines 15 major decisions of the presidency and the stories behind them. He brings the presidency and its big decisions to life with his unique storytelling and highlights the lessons to be learned.

Dilemmas of Presidential Leadership Richard Ellis, Aaron B. Wildavsky, 1989-01-01 Dilemmas of Presidential Leadership challenges the widely accepted distinction between traditional and modern presidencies, a dichotomy by which political science has justified excluding from its domain of inquiry all presidents preceding Franklin Roosevelt. Rather than divide history into two mutually exclusive eras, Richard Ellis and Aaron Wildavsky divide the world into three sorts of people: egalitarians, individualists, and hierarchs. All presidents, the authors contend, must manage the competition between these rival political cultures. It is this commonality which lays the basis for comparing presidents across time. To summarize and simplify, the book addresses two general categories of presidencies. The first is the president with a blend of egalitarian and individualist cultural propensities. Spawned by the American revolution, this anti-authoritarian cultural alliance dominated American politics until it was torn asunder by what Charles Beard has called the second American revolution, the Civil War. The Jeffersonian and Jacksonian presidents labored with varying degrees of success to square the exercise of authority with their own and their followers' anti-authoritarian principles. They also were faced with intraparty conflicts that periodically flared up between egalitarian and individualist followers. The president with hierarchical cultural propensities faced different problems. While the precise contours of the dilemma varied, all struggled in one way or another to reconcile their own and their party's preferences with the anti-hierarchical ethos that inhered in the society and the polity. Hierarchical presidents like Washington and Adams were hamstrung by this dilemma, as were Whig leaders like Henry Clay and Daniel Webster who aspired to the presidency but never achieved it. Abraham Lincoln's greatness resided in part in his ability to resolve the

hierarchy's dilemma. He operated in wartime when he could invoke the commander in chief clause and he created a new cultural combination in which hierarchy was subordinated to individualism. This suggests the author was a key to his greatness. The unique dimension of this volume is its use of cultural theory to explain presidential behavior. It also differs from other books in that it deals with pre-modern presidents who are too often treated as only of antiquarian interest in mainstream political science literature on the presidency. The analysis lays the groundwork for a new basis for comparison of early presidents with modern presidents. Presidential Leadership George C. Edwards, Kenneth R. Mayer, Stephen J. Wayne, 2020-01-03. With a focus on presidential leadership, Edwards, Mayer, and Wayne address the capacity of chief executives to fulfill their tasks, exercise their powers, and utilize their organizational structures to affect the output of government. Richly illustrated with timely, fascinating examples, this text examines all aspects of the presidency.

Presidential Leadership Brent Taylor, Mindi Bach, 2020-07-07. From across history and across the aisle, the examples of twenty-one American presidents demonstrate how to inspire and unite. In this leadership guide, Harry Truman once commented, "In periods where there is no leadership, society stands still." In *Presidential Leadership*, Dr. Brent Taylor sets out a series of timeless leadership lessons drawn from presidential history. Pairing two presidents per chapter, Taylor explores the leadership skills they shared and how we can apply them to our own lives. At a time when political tribalism is on the rise, *Presidential Leadership* demonstrates that we can learn important lessons even from those with whom we disagree. From Lincoln and Nixon to JFK and Obama to Trump and Jackson, each chapter tells a story of courage under immense pressure and a determination to lead America through the trials of history. **Presidential Leadership** Pendleton

Herring, 2017-07-05. The nature of the presidency is an issue that has been debated since the drafting of the United States Constitution. The Federalists felt a strong executive was the backbone and prime mover of a strong government. On the other side, the Anti-Federalists felt the presidency represented monarchical tendencies and could potentially subvert republican government. How does executive leadership fit in with a limited government with enumerated powers? Does the Constitution require a containment of executive power even during times of crisis, or do times of crisis warrant an abandonment of a strict legalistic reading of the document? **Presidential Leadership in Public Opinion** Jeffrey E. Cohen, 2015-04-06. Although presidents may have a difficult time actually leading the public, and Congress voters still desire strong leadership from their commander in chief, in *Presidential Leadership in Public Opinion*, Jeffrey E. Cohen argues that the perception of presidential leadership in American politics is affected not so much by what presidents accomplish but by whether voters think their president is a good leader. When assessing whether a president is a good leader, voters ask two questions: "Does the president represent me and the nation?" and "Is the president strong?" Cohen shows that presidential interactions with Congress affect voter perceptions of presidential representation and strength. These perceptions have important implications for public attitudes about American politics. They affect presidential approval ratings, the performance of candidates in presidential

elections attitudes toward Congress and trust in government Perceptions of presidential leadership qualities have implications not only for the presidency but also for the larger political system **Presidential Leadership** Dr Brent Taylor,Mindi Bach,2020-10-06 In a divided nation Presidential Leadership unites insightful leadership qualities by pairings US Presidents and applying their common leadership skills to the modern home business community and nation

Presidential Leadership in Public Opinion Jeffrey E. Cohen,2015-04-06 This book looks at the factors that affect voters perceptions of the president presidential approval ratings attitudes about Congress and voter trust toward government

The Values of Presidential Leadership J. Wren,2007-11-12 Contributors address aspects of presidential leadership in essays on how presidential values are determined or constructed how they are condoned and criticized how they are packaged and conveyed and how they are interpreted and acted upon Includes scholars from communication history law philosophy political science and psychology *The Presidential Leadership Dilemma* Julia R. Azari,Lara M. Brown,Zim G. Nwokora,2013-04-01 Examines how the president balances the competing demands of leading his political party and leading the nation *Presidential Leadership in Political Time* Stephen Skowronek,2020-01-30 In this expanded third edition renowned scholar Stephen Skowronek addresses Donald J Trump s presidency Skowronek s insights have fundamentally altered our understanding of the American presidency His political time thesis has been particularly influential revealing how presidents reckon with the work of their predecessors situate their power within recent political events and assert their authority in the service of change A classic widely used in courses on the presidency Skowronek s book has greatly expanded our understanding of and debates over the politics of leadership It clarifies the typical political problems that presidents confront in political time as well as the likely effects of their working through them and considers contemporary innovations in our political system that bear on the leadership patterns from the more distant past Drawing out parallels in the politics of leadership between Andrew Jackson and Franklin Roosevelt and between James Polk and John Kennedy it develops a new and revealing perspective on the presidential leadership of Clinton Bush Obama and now Trump In this third edition Skowronek carefully examines the impact of recent developments in government and politics on traditional leadership postures and their enactment given the current divided state of the American polity the impact of the twenty four hour news cycle of a more disciplined and homogeneous Republican party of conservative advocacy of the unitary theory of the executive and of progressive disillusionment with the presidency as an institution A provocative review of presidential history Skowronek s book brims with fresh insights and opens a window on the institution of the executive office and the workings of the American political system as a whole Intellectually satisfying for scholars it also provides an accessible volume for students and general readers interested in the American presidency *Perspectives on Presidential Leadership* Michael Patrick Cullinane,Clare Frances Elliott,2014-02-18 In 2011 Barack Obama invited ten distinguished biographers to the White House to ask them one question which past American president should I emulate This was not the first time Obama asked scholars

this but the answer he received would differ as presidential legacies waxed and waned In 2008 Obama chose Lincoln in 2009 Reagan and in 2010 Theodore Roosevelt Perspectives on Presidential Leadership is an examination of presidential legacy and in particular an analysis of the first ever UK ranking of American presidents which took place in 2011 In thirteen chapters thirteen individual presidential administrations are assessed Some presidents have been considered a success others a failure both types are featured in these thirteen case studies in a measured attempt to understand how the perception of presidential leadership evolves shifts and contorts across three centuries of American politics The case studies also derive from the expertise of the collected British Irish and Canadian authors all of whom are leading scholars in their fields and many of which took part in the 2011 survey At a time when understanding presidential legacy is in high demand this book offers a unique international perspective Through extended commentary and inter disciplinary study of the UK perspective it provides groundbreaking research

Presidential Leadership and National Security Richard S. Conley, 2017-10-31 This book assesses the foreign policy legacy of the Obama administration through the lens of national security and leadership Timely accessible chapters authored by leading scholars of presidential and international politics cover White House Cabinet relations Congress and War Powers challenges including the Iran nuclear deal ISIS and the closing of Guantanamo Bay drone strikes the New Cold War with Russia and the ways in which the Obama foreign policy legacy shaped the 2016 presidential election In particular the book explores the philosophical basis of counter terrorism strategy in the Obama administration and traces how precepts differed from the administration of George W Bush More generally the book contributes to an understanding of the distinctive interplay between the formal constitutional powers of the president and the use of informal executive powers in the quest for peace and security Finally the book surveys the challenges that Donald J Trump faces in the transition to the new presidential administration

Presidential Leadership at the Crossroads Michael J. Korzi, 2022-01-18 In Presidential Leadership at the Crossroads William Howard Taft and the Modern Presidency Michael J Korzi examines Taft s presidency against the backdrop of early twentieth century politics placing particular emphasis on Taft s theory of presidential leadership Though Taft s legacy is often overshadowed by those of Theodore Roosevelt and Woodrow Wilson his predecessor and successor respectively Taft s model of presidential leadership was complex and nuanced forged in a time of changing expectations at the crossroads between traditional and modern views of what the role of a president should be This focus on Taft s leadership adds new dimension to our understandings of the Progressive era and presidential leadership in general Ultimately Taft s leadership represented a middle ground position one that faced serious challenges from both conservative as well as radical forces particularly the latter While embodying some features of the modern presidency Taft s model also represented a partial challenge to and critique of modern presidential leadership Korzi reveals that Taft was considerably more modern in his leadership aspirations than previously thought and that his shift to traditionalism or conservatism only emerged with the threat of a third Roosevelt term on the horizon Presidential

Leadership at the Crossroads makes an important contribution to our understanding of presidents and their leadership Taft's model is particularly relevant today given the prominence of the modern presidency and its values and expectations Taft's moderate middle way position provides a foundation for critiquing the excesses of the modern presidency while offering a vision for strong if disciplined presidential leadership

Presidential Leadership and the Trump Presidency Charles M. Lamb, Jacob R. Neihsel, 2019-07-04

This title brings together seven presidential politics scholars to address the Trump presidency and the current functioning of American democracy based on recent provocative research These studies focus on several important topics including presidential leadership theory and the Trump presidency examining its misdeeds analyzing its record in the lower federal courts probing its use of the pardon power debating whether it requires an entirely new United States constitution to prevent future authoritarian threats and assessing Trump's contribution to presidential power research Taken together these chapters represent a snapshot view of the early Trump presidency and its implications for US politics moving forward

Presidential Leadership and African Americans George R. Goethals, 2015-03-24

Presidential Leadership and African Americans examines the leadership styles of eight American presidents and shows how the decisions made by each affected the lives and opportunities of the nation's black citizens Beginning with George Washington and concluding with the landmark election of Barack Obama Goethals traces the evolving attitudes and morality that influenced the actions of each president on matters of race and shows how their personal backgrounds as well as their individual historical economic and cultural contexts combined to shape their values judgments and decisions and ultimately their leadership regarding African Americans

Presidential Leadership in an Age of Change Michael Genovese, 2017-09-08

The American public hungers for a heroic leader From John F Kennedy to George W Bush every American president has left office either under a cloud or as a failed leader Michael A Genovese argues that presidents are set up for failure it is not specific presidents but the presidency itself that is the problem The presidency was designed to prevent tyranny through a system of separation of powers that inhibits presidents from exercising sufficient power to meet the demands and expectations that developed over time Each new president dreams of success only to be crushed by the paralytic weight of vetoes and roadblocks As they fail to meet expectations Americans turn on them making their already precarious position much worse Given the perilous nature of the office Genovese examines the skills required to achieve success and the roles of power and persuasion He also examines how globalization and the rapid pace of change contribute to the decline of presidential power This accessible synthesis of scholarship is geared toward an audience that is hungry to unravel the dilemmas of presidential leadership Students of the presidency will find it insightful general readers will find it illuminating

Presidential Leadership James L. Fisher, James V. Koch, 1996-05-07 The strong provocative arguments offered throughout the book are based on both empirical studies and the authors' personal experiences as university presidents Also examined are the effects of such factors as charisma public presence race and gender upon presidential performance

Presidential

Leadership in the Americas since Independence Guy Burton, Ted Goertzel, 2016-10-05 What is presidential leadership and why have some presidents been considered great or rather transformational while others are not What are the drivers which distinguish these presidents from the rest Presidential Leadership in the Americas since Independence answers these questions through a systematic study of leadership across the Americas over 200 years from independence to the present day Having surveyed who the most cited presidents are in the Americas Guy Burton and Ted Goertzel examine the experience of presidents from across the western hemisphere the US Argentina Brazil Chile Colombia Mexico Peru and Venezuela They study the relationship between these men and women s actions within the constraints they faced during four political periods independence national consolidation during the nineteenth century state building from the late nineteenth to mid twentieth centuries and neoliberalism since the 1970s 80s The most transformational presidents are found to be those who are not only able to innovate and build new political consensus at a time of crisis but also consolidate them so that the reforms becoming lasting and extending beyond an individual president s own political even biological lifetime
