Problems Of The Middle East:

Problems of the Modern Middle East in Historical Perspective Albert Hourani, 1992 *Problems of the Middle East* Angus Hamilton, 1909 *Problems of the Middle East* Angus Hamilton, 1909 Middle East Resources, Problems and Prospects Middle East Institute (Washington, D.C.), 1954 Middle East Oil Benjamin Shwadrان, 1977-01-01 Shaped by the emotional climate of the ongoing Arab Israeli conflict the controversies between the oil producing and oil consuming nations are of major international concern Shwadrان outlines the progressive rise in the power of the oil producing countries and the decline in the control exercised by the concessionary foreign countries that has culminated in the almost total nationalization of the foreign oil companies Because of the highly charged atmosphere surrounding the issues and their grave importance on world politics the problems are at once highly difficult to encompass and enormously important to understand Through a myriad of facts and figures the author sees the underlying patterns with precision Often narrowly viewed as having only two sides that of oil producers and consumers the situation is reflected in this book in all its facets Seen in this totality of conflicting needs desires abilities and objectives the Middle East oil crisis takes on the contradictory and explosive nature which has affected us all Middle East Oil born of the author's years of scholarship and exposure in the field describes the problems of the past but more important it gives insight into how the problem will manifest itself in the future and provides a direction for efforts toward a final resolution Contents Introduction From the Six Day War to the End of 1970 From the Teheran 1971 Agreement to the October 1973 War The Producers Develop the Oil Industry The Transporters Nationalization and Participation The Arab Oil Embargo The Efforts of the Consuming Countries Surpluses and Recycling Solutions Bibliography Conflicts and Challenges in the Middle East Ho-Don Yan, Oscar Bajo-Rubio, Diana S. Kwan, Fu-Lai Tony Yu, 2024-08-22 This book examines religious political and economic conflicts in the Middle East Written by experts and scholars from various fields it provides a better understanding of the interwoven impact among religious political and economic conflicts in the Middle East The contributions cover the most important and controversial issues in world affairs including confrontations between Christianity and Islam and between Sunnis and Shiites the disputes between Israel and Palestine the Russian Ukrainian War ISIS competition for oil resources the Muslim Brotherhood refugee entrepreneurs human trafficking and women's empowerment etc The book is an important reference work on the Middle East It appeals to scholars and students of Middle East studies international relations peace and conflicts studies and related fields as well as practitioners and policymakers **Issues in EU and US Foreign Policy** Münevver Cebeci, 2011-01-06 Issues in E U and U S Foreign Policy edited by M nevver Cebeci aims at analyzing the perceptions interests and policies of the EU and the US on various international issues It portrays their convergences and divergences and reflects on their interplay The book has a geographical focus rather than a thematic one however some themes such as weapons of mass destruction dual use technology transfer energy security and democratization are unavoidable within their respective geographical contexts For

example the authors inquire into the case of Iran with a special focus on nuclear proliferation they investigate Russia with a significant emphasis on energy security Iraq is examined with a discussion on the withdrawal of occupation troops and finally the authors address the case of China with a debate on dual use technology transfer Issues in European Union and U S Foreign Policy is composed of two parts The first involves an inventive theoretical framework for understanding EU and US foreign policy The analysis extends beyond traditional approaches that seek to explain US and EU foreign policy through various dichotomies such as soft power versus hard power without overlooking the significance of such dichotomies This section further discusses how European and American scholars approach transatlantic relations in different ways The second section covers an intensive comparative analysis of EU and US foreign policy on specific issue areas Some chapters also deal with the impact of their policy divergences and convergences on transatlantic relations and NATO Nevertheless the book aims to go beyond the parochial debates of burden sharing or division of labor in transatlantic relations It focuses on and actually proposes a broader framework of cooperation and coordination for the EU and the US

Problems of the Middle east John Angus Lushington Moore Hamilton,1909 *Problems of the Near East* Edward Mead Earle,Florence Billings,1924

Security In The Middle East Mark Bruzonsky,Shaun Murphy,Samuel F. Wells,2020-01-16 This book examines the deep seated problems in the Middle East and their impact on the United States and its allies Exploring the disruptive effects of the double edged sword of nationalism and modernization the contributors discuss the full range of Western security interests in the region Case studies of key countries emphasize the prospect for peaceful political economic and cultural change The authors analyze the ramifications of the Arab Israeli conflict and the threats posed by Soviet penetration Arguing that confusion and contradiction mark U S policy in the Middle East the book concludes that U S strategists should focus not on curing the region s internal problems but on coping with them without sacrificing long term goals for quick fixes
