Burt,2011-10-01 Additional Editors Are M Hiriyanna P T Raju **Perspectives on Vedānta** Rama Rao Pappu,2023-07-31 *Metaphysics, Theology, and Self* Harold H. Oliver,2006 Professor Oliver s essays propose a system of relational philosophy and theology extending his monograph *A Relational Metaphysic* along new lines Themes developed include the following on the issue of truth in scientific and religious discourse as seen from the claim of their complementarity the problem of Western substantialism as answered by a proposed non and antisubstantialist theory of selfhood as an alternative to the Western ego certain hermeneutical themes and several themes introducing new facets of relational thought **Translation as Citation** Haun Saussy,2017-11-17 This volume examines translation from many different angles it explores how translations change the languages in which they occur how works introduced from other languages become part of the consciousness of native speakers and what strategies translators must use to secure acceptance for foreign works Haun Saussy argues that translation doesn t amount to the composition in one language of statements equivalent to statements previously made in another language Rather translation works with elements of the language and culture in which it arrives often reconfiguring them irreversibly it creates with a fine disregard for precedent loan words calques forced metaphors forged pasts imaginary relationships and dialogues of the dead Creativity in this form of writing usually considered merely reproductive is the subject of this book The volume takes the history of translation in China from around 150 CE to the modern period as its source of case studies When the first proponents of Buddhism arrived in China creativity was forced upon them a vocabulary adequate to their purpose had yet to be invented A Chinese Buddhist textual corpus took shape over centuries despite the near absence of bilingual speakers One basis of this translating activity was the rewriting of existing Chinese philosophical texts and especially the most exorbitant of all these the collection of dialogues fables and paradoxes known as the Zhuangzi The Zhuangzi also furnished a linguistic basis for Chinese Christianity when the Jesuit missionary Matteo Ricci arrived in the later part of the Ming dynasty and allowed his friends and associates to frame his teachings in the language of early Daoism It would function as well when Xu Zhimo translated from *The Flowers of Evil* in the 1920s The chance but overdetermined encounter of Zhuangzi and Baudelaire yielded a strange music that retroactively echoes through two millennia of Chinese translation outlining a new understanding of the translator s craft that cuts across the dividing lines of current theories and critiques of translation **On Their Own Terms** Benjamin A. Elman,2009-07-01 Since the mid 19th century imperial reformers Republicans Guomindang party cadres and Communists have all prioritized science and technology Elman offers an account of the evolution of native Chinese science over four centuries under the influence of missionaries In the end he argues the Chinese produced modern science on their own terms Journeys East Harry Oldmeadow,2004-04-28 *Journeys East* tells the story of the twentieth century s encounters between

East and West by exploring the lives of many of the most fascinating scientists intellectuals artists and spiritual seekers of our time *Brahman and Dao* Ithamar Theodor,Zhihua Yao,2013-11-07 The present geopolitical rise of India and China evokes much interest in the comparative study of these two ancient Asian cultures There are various studies comparing Western and Indian philosophies and religions and there are similar works comparing Chinese and Western philosophy and religion However so far there is no systemic comparative study of Chinese and Indian philosophies and religions Therefore there is a need to fill this gap As such Brahman and Dao Comparative Studies of Indian and Chinese Philosophy and Religion is a pioneering volume in that it highlights possible bridges between these two great cultures and complex systems of thought with seventeen chapters on various Indo Chinese comparative topics The book focuses on four themes metaphysics and soteriology ethics body health and spirituality and language and culture **Philosophy East & West** ,1978
