Radical Educational Policies And Conservative Secretaries Of State:

Radical Educational Policies and Conservative Secretaries of State Peter Ribbins, Brian Sherratt, 1997 The authors present a series of portraits of seven very different people Mark Carlisle Keith Joseph Kenneth Baker Kenneth Clarke John MacGregor John Patten and Gillian Shephard revealing the ways in which they have sought to define and deliver educational change against a backdrop of conflicting messages from within their own party and in the face of determined opposition from much of the educational establishment These illuminating entertaining and provocative conversations suggest that what was once regarded as radical in the Conservative agenda for education is now increasingly taken for granted by allies and opponents alike Including a thorough analysis of the seven interviews this book will provide a mine of information for all those interested in contemporary politics the future of education and the workings of government A Political Sociology of Education Policy Helen M. Gunter, 2024-05-21 This book aims to restore the role of political analysis in education policy by presenting a new political sociology for framing conducting and presenting research In doing so it will be the first in the field to connect political thinking from Arendt with sociological thinking from Bourdieu **John Major: An Unsuccessful Prime Minister?** Kevin Hickson, Ben Williams, 2017-05-23 This year marks the twentieth anniversary of one of the most momentous general elections this country has ever seen John Major's defeat in 1997 ended a record eighteen years of Tory government prompting accusations of failure and ignominy A controversial leader Major oversaw numerous crises in international and domestic policy Between 1990 and 1997 he presided over Britain's participations in the Gulf War the start of the Northern Ireland peace process the Maastricht Treaty negotiations and famously Black Wednesday and Britain's exit from the ERM Towards the end Major's government was split over Europe and ridden with allegations of sleaze Widely criticised by the media and politicians from all parties Major went on to be crushed by Tony Blair and New Labour in the 1997 general election *An Unsuccessful Prime Minister* is the first wide ranging appraisal of John Major's government in nearly two decades This book reconsiders the role of John Major as Prime Minister and the policy achievements of his government Major's government faced many more constraints and left behind a more enduring legacy than his critics allowed at the time or since Comparative Inquiry and Educational Policy Making David Phillips, 2007-11-22 Building on an increasingly sophisticated body of research on policy borrowing in education this collection explores ways in which the foreign example in education has been and is being used by policy makers in a variety of settings its principal aim being to assess the usefulness of foreign experience in home contexts **Education, Reform and the State** John Furlong, Robert Phillips, 2002-11 This book supplies the definitive contemporary history of education policy in the late twentieth century Some of the leading educationalists reflect on the major legislative and structural changes in the field over the last 25 years *Eugenics, Race and Intelligence in Education* Clyde Chitty, 2009-07-07 A fascinating study into how eugenics and concepts of intelligence have influenced education systems in both the UK and US The Conservative Party and the Destruction of Selective Education in Post-War

Britain Piers Legh, 2023-01-26 The book tells the untold story of the Conservative Party's involvement in terms of stance and policy in the destruction of selective state education from 1945 up to the present day. Close consideration is paid to their attitudes and prejudices towards education both in power and in opposition. Legh examines the Party's responses to the pressure for comprehensive schooling and egalitarianism from the Labour Party and the British left. In doing so, Legh defies current historiography to demonstrate that the Party were not passive actors in the advancement of comprehensive schooling. The lively narrative is moved along by the author's critical examination of the Education Ministers throughout this period: Florence Horsbrugh and David Eccles serving under Churchill and Eden, and also Quintin Hogg and Geoffrey Lloyd under Macmillan, as well as Edward Boyle and Margaret Thatcher under Edward Heath. Legh's detailed research utilises a range of government documents, personal papers, parliamentary debates, and newspapers to provide this crucial re-assessment of the Conservative Party and selective education, and in doing so, questions over simplistic generalisations about wholesale support for selective education policy. It reveals instead questioning, compromises, and disagreements within the Party and its political and ideological allies. The result is a stimulating revival of existing scholarship which will be of interest to scholars of British education and politics.

Leading Beautifully Fenwick W. English, Lisa Catherine Ehrich, 2016-01-08 Leading Beautifully provides a new dimension to understanding effective leadership. Drawing from lessons in the arts and the humanities, English and Ehrich explore how educational decision-making in schools can be informed by identity, personal competence, and an understanding of the field's intellectual foundations. Based on in-depth interviews of artists and educational leaders, this book provides insight into the inner world of successful leaders who have developed competencies and understandings that extend beyond the standard leadership tool box. This exciting new book explores the theory and practice of leadership, connoisseurship as a human-centered endeavor, and as an antidote to mechanistic, business-oriented practices. The authors' well-grounded reconsideration of educational leadership will enliven and enhance any educational leader's practice.

About Our Schools Mick Waters, Tim Brighouse, 2022-01-05 Foreword by Danny Dorling Through revealing and forthright interviews with 14 secretaries of state from Kenneth Baker to Michael Gove and Gavin Williamson, together with many other leading figures in education, Tim Brighouse and Mick Waters provide fascinating insights into the various evolutions and revolutions that have taken place in English state education since 1976. In so doing, they highlight key areas for improvement and assess where we should go from here to enable teachers and schools to improve the learning and broaden the horizons of each and every one of their pupils, whatever their talents, challenges, advantages, or problems. Tim and Mick have both spent a lifetime in state-provided education: first as pupils, then as teachers, and finally in various leadership and policy-making positions, both in and out of schools. *About Our Schools* is born out of their shared love for education and their appreciation of how schooling can be a transformative element in the lives of children and young people. All royalties from sales of this book will be donated to Barnardo's and the Compassionate Education Foundation.

Understanding the

School Curriculum Alex Moore, 2014-08-13 At a time of rapid social change and numerous policy initiatives there is a need to question the nature and function of school curricula and the purposes of formal public education Comparing curriculum developments around the globe Understanding the School Curriculum draws on a range of educational philosophical and sociological theories to examine the question What is a curriculum for In considering different answers to this fundamental question it explores a range of topical issues and debates including tensions and dynamics within curriculum policy The implications of uncertainty and rapid social change for curriculum development the positive and negative influence of free market ideologies on public education the impact of globalization and digital technologies arguments for and against common core curricula and state control It examines the possibility of a school curriculum that is not shaped and monitored by dominant interests but that has as its founding principles the promotion of responsibility responsiveness a love of learning and a sense of wonder and respect for the natural and social world Understanding the School Curriculum is for all students following undergraduate and Masters courses in curriculum public policy and education related subjects It is also for all training and practising teachers who wish to combine a deeper understanding of major curriculum issues with a critical understanding of the ways in which ideologies impact on formal state education and to consider ways of producing school curricula that are appropriate to the times we live in
