Progressive Nation Jerome Pohlen, 2008-06-01 Nearly every progressive movement in American history can be traced back to a person who said, "This must change," and then set out to change it. This inspiring travel guide to over 400 markers of progressive politics in the United States celebrates those individuals, their accomplishments, and the movements and communities they inspired. Visit the battlegrounds and celebrate the victories of the civil libertarians, feminists, African Americans, gays, lesbians, environmentalists, labor organizers, and media activists who have worked to create a just, peaceful society that respects all of its citizens. With enthusiasm and humor, Jerome Pohlen guides travelers to such landmarks of change as the home of abolitionists Levi and Catharine Coffin, Grand Central Station on the Underground Railroad, Alice's Restaurant, Church, the namesake of Arlo Guthrie's song protesting the draft, the courthouse where Susan B. Anthony went on trial for attempting to vote, the site of the Haymarket Riot in Chicago where laborers protested working conditions, the former camera shop where Harvey Milk launched his campaign to become America's first openly gay elected official. Each entry features a listing of books, films, and Web sites for further information, making this an essential lefty resource. For adventurous travelers, family vacationers, and those who want a more complete picture of American history, this book will inspire them to do more than just cast a vote. *The 100 Greatest Americans of the 20th Century* Peter Dreier, 2012-06-26 A chronological collection of brief biographies on important figures for social justice in American history, including Franklin D. Roosevelt, Fannie Lou Hamer, and Bob Dylan. **The Palgrave Handbook of Educational Thinkers** Brett A.

Geier, 2024-08-21 This handbook presents a durable, comprehensive, and up-to-date resource covering the seminal thinkers in education of past and present. Each entry will capture the professional background of a legendary thinker and present their key insights, new thinking, and major legacies to the field of education. Carefully brought together to present a balance of

gender and geographical contexts as well as areas of thought and work in the broad field of education this handbook provides a unique history and overview of figures who have shaped education and educational thinking throughout the world *Deaf Subjects* Brenda Jo Brueggemann, 2009-05 In this probing exploration of what it means to be deaf Brenda Brueggemann goes beyond any simple notion of identity politics to explore the very nature of identity itself Looking at a variety of cultural texts she brings her fascination with borders and between places to expose and enrich our understanding of how deafness embodies itself in the world in the visual and in language Taking on the creation of the modern deaf subject Brueggemann ranges from the intersections of gender and deafness in the work of photographers Mary and Frances Allen at the turn of the last century to the state of the field of Deaf Studies at the beginning of our new century She explores the power and potential of American Sign Language wedged as she sees it between letter bound language and visual ways of learning and argues for a rhetorical approach and digital future for ASL literature The narration of deaf lives through writing becomes a pivot around which to imagine how digital media and documentary can be used to convey deaf life stories Finally she expands our notion of diversity within the deaf identity itself takes on the complex relationship between deaf and hearing people and offers compelling illustrations of the intertwined and sometimes knotted nature of individual and collective identities within Deaf culture
