Radical Media The Political Experience Of Alternative Communication:

Radical Media John Downing, 1984 *Contesting Media Power* Nick Couldry, James Curran, 2003 *Contesting Media Power* is the most ambitious international collection to date on the worldwide growth of alternative media that are challenging the power concentration in large media corporations Media scholars and political scientists develop a broad comparative framework for analyzing alternative media in Australia Chile China Indonesia Malaysia Russia Sweden South Africa the United Kingdom and the United States Topics include independent media centers gay online networks and alternative web discussion forums feminist film political journalism and social networks indigenous communication and church sponsored media This important book will help shape debates on the media's role in current global struggles such as the anti globalization movement **(R)evolutionizing Political Communication through Social Media** Deželan, Tomaž, Vobič, Igor, 2016-02-09 Online platforms have widened the availability for citizen engagement and opportunities for politicians to interact with their constituents The increasing use of these technologies has transformed methods of governmental communication in online and offline environments *R evolutionizing Political Communication through Social Media* offers crucial perspectives on the utilization of online social networks in political discourse and how these alterations have affected previous modes of correspondence Highlighting key issues through theoretical foundations and pertinent case studies this book is a pivotal reference source for researchers professionals upper level students and consultants interested in the influence of emerging technologies in the political arena **Encyclopedia of Social Movement Media** John D. H. Downing, John Derek Hall Downing, 2011 The entries are designed to be relatively brief with clear accessible and current information **Beyond Mainstream Media** Stephen Cushion, 2023-09-26 Offering one of the most comprehensive assessments of alternative media to date *Beyond Mainstream Media* examines the rise of alternative media over the last decade analysing their changing content and editorial strategies and exploring why many people go beyond the mainstream media for news and information Considering the differences in agenda between alternative and mainstream media coverage Cushion sheds light on why right wing alternative media have become a more prominent part of national media systems than left wing sites in the Western World In doing so he argues that alternative left wing media should place less emphasis on attacking professional journalism and focus more on converging into the world of mainstream news to promote their politics This book draws on over 3 500 articles and 17 000 social media posts produced by alternative media extensive interviews with editors and contributors and a survey of over 2 700 media users It develops a comparative international perspective by explaining how findings and concepts can be applied to understanding much broader issues such as public distrust in the mainstream media or the influence different media and political systems have on the production of alternative media Providing both an introduction to and a critical analysis of the state of alternative media today this book is written in clear jargon free language and is recommended reading for advanced students undertaking courses in Alternative Media and

Political Journalism *Social Movements and Their Technologies* Stefania Milan, 2013-11-06 Now in paperback for the first time *Social Movements and their Technologies* explores the interplay between social movements and their liberated technologies It analyzes the rise of low power radio stations and radical internet projects emancipatory communication practices as a political subject focusing on the sociological and cultural processes at play It provides an overview of the relationship between social movements and technology and investigates what is behind the communication infrastructure that made possible the main protest events of the past fifteen years In doing so Stefania Milan illustrates how contemporary social movements organize in order to create autonomous alternatives to communication systems and networks and how they contribute to change the way people communicate in daily life as well as try to change communication policy from the grassroots She situates these efforts in a historical context in order to show the origins of contemporary communication activism and its linkages to media reform campaigns and policy advocacy *China's Media, Media's China* Chin-Chuan Lee, 2019-04-08 This book explores the rapidly evolving conditions of political communication in China It examines how ideology and professional roles affect both scholarly and journalistic understanding of China The book offers insights into Chinese journalism and Sino American relations **Journalism Beyond Orwell** Richard Keeble, 2020-01-31 *Journalism Beyond Orwell* adapts and updates pioneering work by Richard Lance Keeble to explore George Orwell's legacy as a journalist in original critical and often controversial ways Though best known as the author of *Animal Farm* and *Nineteen Eighty Four* Orwell was throughout his career a journalist The essays in this collection explore Orwell's important legacy as a practising activist journalist critical of the dominant media as a polemicist essayist and novelist constantly concerned with issues relating to war and peace as a literary journalist determined to make political writing an art and as a writer who warned of the growing powers of the secret state Through this highly individualistic essay collection that connects Orwellian themes to modern journalism Richard Lance Keeble explores key topics including Orwell the proto blogger How Orwell put his political economy critique of the corporate press into practice Information warfare in an age of hyper militarism The manufacture of the myth of heroic warfare in the reporting of the Afghan conflict The debates over the theory and practice of peace journalism The ethical challenges for journalists reporting on conflict The crucial role of the alternative media The pleasures and pitfalls of the celebrity profile This collection will be of particular interest to students and researchers in journalism studies English literature media intelligence studies and international relations *Taking the Square* Maria Rovisco,, Jonathan Corpus Ong, 2016-06-10 From the Arab uprisings to the indignados movement and the global Occupy sit ins recent protests and civil unrest have sparked new debates about political organisation media representation and the nature of contemporary citizenship But is there anything new about these occupations of public space How are these protests legitimised or undermined by the intense mediation of streets and squares And how are these different from expressions of dissent in other contexts including those of ethnic minorities in the New Orleans mardi gras and survivors of natural disaster

in the Philippines This book challenges the notion of a disappearance of public space by reconsidering the significance of physical space and embodiment in the conduct and consequences of protest events Looking at a range of assemblies sustained and fleeting spectacular and ordinary this volume illuminates how square and street politics and their mediation become vehicles for new ideas of community citizenship and public life *Journey into Social Activism* Joshua D.

Atkinson,2017-02-01 Academic study of social activism and social movements has become increasingly prevalent over the years this is due in large part to the fact that activists have captured public imagination and gained substantial influence in political discourse For instance Occupy Wall Street activists Tea Party activists and activists affiliated with the Arab Spring have transformed political debates and have become the focus of mainstream news media coverage about a variety of different political topics Journey into Social Activism explicates the philosophical foundations of the study of activism and illustrates four different research sites in which activism can be observed and studied organizations networks events and alternative media The book will introduce students and scholars to important qualitative approaches to the study of social activism within these four research sites which is based entirely on successful research projects that have been conducted and published in recent years Ultimately this book will prove integral to any students and scholars who wish to use qualitative methods for their research endeavors concerning social activism in contemporary society
