Radicals And Reactionaries The Crisis Of Conservatism In Wilhelmine Germany:

Radicals and reactionaries: the crisis of conservatism in Wilhelmine, Germany Abraham Joseph Peck, 1978

Radicals and Reactionaries Abraham J. Peck, 1976 *The Pan-German League and Radical Nationalist Politics in Interwar Germany, 1918-39* Barry A. Jackisch, 2016-02-24 Through an examination of the Pan German League one of Germany's most prominent radical nationalist groups and its connections to a range of right wing organizations between 1918 and 1939 this study provides important new insights into the political fragmentation of the German Right and the Nazi seizure of power It is the first book to examine in detail the Pan German League's political activities in the Weimar and Nazi periods Unlike existing studies that focus primarily on the League's ideology and public pronouncements this book analyzes the organization's political connections with other prominent right wing groups Specifically it explores Pan German efforts to reshape the landscape of right wing politics in the wake of German defeat in World War One and details how the League's actions undermined moderate conservatives and helped to radicalize Germany's largest conservative party the German National People's Party DNVP at the local and national level The book also sheds new light on the surprisingly contentious relationship between the Pan Germans and the Nazi Party between 1920 and 1939 This study of the Pan German League fits with more recent scholarship that emphasizes the political fragmentation of the German Right as an important precondition for the ultimate triumph of Hitler and Nazism in 1933 It will attract readers with an interest not only in the Weimar Republic and Nazi Germany but also wider issues of German Central European history radical nationalism conservative and right wing party politics and the general political history of interwar Europe **The Radical Right in Germany** Lee

McGowan, 2014-09-25 The Radical Right has represented a major element in German politics and society throughout the history of the united country i.e. since the 1870s though the understandable concentration on the Third Reich 1933-45 has tended to distort the wider picture This book explores the history of the radical right through the full span of Germany's life as a nation thus putting the Third Reich in its natural context and also emphasising that the attitudes and policies of the radical right did not begin with Hitler's pursuit of power in the 1920s or end with his death in the ruins of Berlin *The German Right, 1860-1920* James N. Retallack, Professor of History and German Studies James Retallack, 2006-01-01 With unification as a nation state under Bismarck in 1871 Germany experienced the advent of mass politics The dynamic political culture that emerged challenged the adaptability of the interlocking directorate of the Right This work examines how the authoritarian imagination inspired the Right and how political pragmatism constrained it **Radicals and Reactionaries**

Abraham Peck, 1978-08-21 **German Anglophobia and the Great War, 1914-1918** Matthew Stibbe, 2006-06-22 This volume focuses on the extremity of anti English feeling in Germany in the early years of the Great War and on the attempt by writers propagandists and cartoonists to redefine Britain as the chief enemy of the people and their cultural heritage

Imperial Germany 1890 - 1918 Ian Porter, Ian D. Armour, 2014-06-06 The Wilhelmine period is a crucial period of

German history and the focus of great historical controversy greater understanding of this period is also vital to explain the rise of the Third Reich The authors focus on Germany's role as a major military and imperial power industrialization and the economy the crucial effects of the war years and the disturbing evidence that Germany's response to Hitler is to be found in the Wilhelmine era **Ideology and Interests in the German State (RLE: German Politics)** Gary Bonham, 2014-12-17

This book addresses major theoretical issues in the fields of public administration and comparative politics It discusses the role which ideology played as a unifying force for at least parts of the German state bureaucracy in Wilhelmine Germany The examination of a modernizing ideology in the German case is useful for an understanding of the political dynamics of state led modernization and industrial strategy in many contemporary societies and the author explains political behaviour and relations in Germany in general terms that are universally relevant The German Army League Marilyn Shevin

Coetzee, 1990-06-28 This book traces the development of the German Army League from its inception through the earliest days of the Weimar Republic Founded in January 1912 the League promoted the intensification of German militarism and the cultivation of German nationalism As the last and second largest of the patriotic societies to emerge after 1890 the League led the campaign for army expansion in 1912 and 1913 and against the growing influence of socialism and pacifism within Germany Attempting to harness popular and nationalist sentiment against the government's foreign and domestic policies by preying on Germans fears of defeat and socialism the League contributed to the polarization of German society and aggravated the international tensions which culminated in the Great War Coetzee combines an analysis of the League's principal personalities and policies with an exploration of the inner workings of local and regional branches arguing that rather than having served solely as a barometer of populist nationalist sentiment the League also reflected the machinations of men of education and prominence who believed that an unresponsive German government had stifled their own careers dealt ineffectually with the prospect of domestic unrest and squandered the nation's military superiority over its European rivals **Modern Germany Reconsidered** Gordon Martel, 2002-11 First Published in 2004 Routledge is an imprint of

Taylor Francis an informa company *The German-Jewish Legacy in America, 1938-1988* Abraham J. Peck, 1989 The essays in this volume were written to mark the fiftieth anniversary of Kristallnacht the fateful pogrom in early November 1938 which was a watershed in the treatment of Jews in Germany and signaled the end to more than a century of specific Jewish culture there Historian George Mosse in the opening essay characterizes this spirit as represented by Bildung a post emancipation notion that included character formation moral education the primacy of culture the acquisition of aesthetic taste and the belief in the potential of humanity Bildung became to large portions of German Jewry an important if not central expression of their Jewishness It is this legacy that this volume explores and seeks to understand Among the questions contributors examine are the meaning of this legacy in our time what has happened to it in its American context whether it has found a home in the United States or whether it remains in exile and which elements of the legacy are worth

preserving for the next generation Two groups address this range of questions The first is made up of Jews born in Germany but who reached their professional maturity in the United States The second is made up primarily of American born individuals whose Jewish parents had either fled Nazi Germany or who as German Jews survived the Holocaust The Germany Jewish Legacy in America commemorates the end of one of the greatest communities in Jewish history and explores those elements of its greatness which may still be relevant in insuring a vibrant and productive Jewish community in a free and democratic American society

The ^Aldeological Origins of Nazi Imperialism Woodruff D. Smith,1989-02-09 This study traces the evolution of imperialist ideology in Germany from Bismarck in the mid 19th century through Hitler Smith argues that it was the way in which Nazis attempted to reconcile two century old ideologies the lite pro industrial Weltpolitick and the popular based pro agrarian Lebensraum that resulted in Germany s disastrous policies during World War II This is the first book to treat Nazi imperialism as a separate ideology and set it within a sturdy theoretical framework **To the Threshold of Power, 1922/33** MacGregor Knox,2007-09-10 To the Threshold of Power is the first volume of a two part work that seeks to explain the origins and dynamics of the Fascist and National Socialist dictatorships It lays a foundation for understanding the Nazi and Fascist regimes through parallel investigations of Italian and German society institutions and national myths the supreme test of the First World War and the post 1918 struggles from which the Fascist and National Socialist movements emerged It emphasizes two principal sources of movement the nationalist mythology of the intellectuals and the institutional culture and agendas of the two armies especially the Imperial German Army and its Reichswehr successor The book s climax is the cataclysm of 1914 18 and the rise and triumph of militarily organized radical nationalist movements Mussolini s Fasci di combattimento and Hitler s National Socialist German Workers Party dedicated to the perpetuation of the war and the overthrow of the post 1918 world order **Germany's Second Reich** James

Retallack,2015-01-01 Despite recent studies of imperial Germany that emphasize the empire s modern and reformist qualities the question remains to what extent could democracy have flourished in Germany s stony soil In Germany s Second Reich James Retallack continues his career long inquiry into the era of Bismarck and Kaiser Wilhelm II with a wide ranging reassessment of the period and its connections with past traditions and future possibilities In this volume Retallack reveals the complex and contradictory nature of the Second Reich presenting Imperial Germany as it was seen by outsiders and insiders as well as by historians political scientists and sociologists ever since

Tannenberg Dennis E. Showalter,2004 The battle of Tannenberg August 27 30 1914 opened World War I with a decisive German victory over Russia indeed the Kaiser s only clear cut victory in a non attritional battle during four years of war In this first paperback edition of the classic work historian Dennis Showalter analyzes this battle s causes effects and implications for subsequent German military policy The author carefully guides the reader through what actually happened on the battlefield from its grand strategy down to the level of improvised squad actions Examining the battle in the context of contemporary diplom **Birth Control in**

Germany 1871-1933 James Woycke, 2024-10-02 First published in 1988 Birth Control in Germany deals in detail with the dissemination and acceptance of ideas of birth control from 1871 1933 and shows the variety of methods that were in use condoms pessaries diaphragms caps and most notably abortion In common with many western societies Germany experienced a notable decline in the birth rate as it entered into the 20th century Demographers differ in their explanation for such changes in the birth rate Some argue that fluctuating birth rates reflect society's efforts to match population and economy while others argue that modern low levels can only be the result of radical innovations in popular behavior The author argues that the latter can be shown to be the case in the German instance He further says that attitudes quite similar to those found in liberal circles today were widespread among ordinary men and women in Germany in contrast to for example the pro natalist ideologies dominant in France in the same period This despite the regional class and religious differentials which influence the German picture The book amounts to an important study of the sexual politics of pre Nazi Germany and study in modernization of a traditional society This is an important historical work for scholars and researchers of German history women's studies health reproductive history European history and gender studies

Germany and the Second World War Volume IX/II Jörg Echternkamp, 2014-03 Volume IX II of this series draws on a range of historical sources to explore the effect that the Second World War had on the people of Germany whether they were practically involved in the war effort or struggling to maintain a normal existence

Electoral Politics in Wilhelmine Germany Stanley Suval, 1985 The last national election in Wilhelmine Germany was held on 12 January 1912 Voting was one of the few acts in German society that cut across class lines The precincts were neither overwhelmingly working class nor middle class and from a distance it would have been impossible to tell those voters apart they all wore black clothing Almost all males over twenty five voted in the 1912 election and when the polls closed that Friday at 7 00 P M over 12 million men had cast their ballots 84 2 percent of those eligible Historians have tended to interpret the Wilhelmine German electorate as though voters were marched to the polls in Prussianized battalions Because the ballots determined neither the composition of the government nor the national policies the only viable explanation for the heavy voter turnouts was thought to be governmental force Electoral Politics in Wilhelmine Germany offers a new model of the German electorate which varies considerably from this interpretation Using techniques of electoral analysis developed for the study of elections in Britain and the United States Stanley Suval argues that the German voters cast their ballots freely and positively He demonstrates that the ballot was cast not to support the government or forward economic self interest but to express fundamental social relationships present in everyday life By voting individuals were fulfilling their citizenship roles by expressing their commitments to social groupings Suval defines these groupings using statistical analysis and qualitative evidence based on religious class and regional variables He states that voters undertook an act that they felt was important regardless of who won or lost Electoral Politics in Wilhelmine Germany also disputes the view that the German state worked to undermine the electoral system Suval

contends that the government and its bureaucracy often unwittingly increased the prestige of electoral politics by ensuring against massive fraud and by active participation in voter mobilization. The result was an integrated electoral system fueled by the commitments of the voters. Thus the Weimar Republic was not crippled at birth by its Wilhelmine inheritance. On the contrary, the Wilhelmine electorate was as prepared for its citizenship roles as were those in most contemporary democratic countries. Originally published in 1985, A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value.

The Bismarck Myth Robert Gerwarth, 2005-07-14 Few statesmen in history have inspired the imagination of generations of Germans more than the founder of the Kaiserreich, Otto von Bismarck. The archetype of charismatic leadership, the Iron Chancellor maintained his pre-eminent position in the pantheon of Germany's political iconography for much of the twentieth century. Based on a large selection of primary sources, this book provides an insightful analysis of the Bismarck myth's profound impact on Germany's political culture. In particular, it investigates the ways in which that myth was used to undermine parliamentary democracy in Germany after the Great War, paving the way for its replacement by authoritarian rule under an allegedly Bismarckian charismatic leader, Adolf Hitler. As one of the most powerful weapons of nationalist agitation against the Weimar Republic, the Bismarck myth was never contested. The nationalists' ideologically charged interpretation of Bismarck as the father of the German nation-state and model for future political decision-making clashed with rivaling and thoroughly critical democratic and communist perceptions of the Iron Chancellor. The quarrel over Bismarck's legacy demonstrates how the clash of ideologies, particularly between 1918 and 1933, resulted in a highly political fight for the correct and universal interpretation of the German past. Essential reading for anyone interested in modern German history, this book sheds new light on the Weimar Republic's struggle for survival and the reasons for its failure.

Right here, we have countless ebook **Radicals And Reactionaries The Crisis Of Conservatism In Wilhelmine Germany** and collections to check out. We additionally come up with the money for variant types and then type of the books to browse.
