Radio Free Europe:

Broadcasting Freedom Arch Puddington, 2021-05-11 Among America's most unusual and successful weapons during the Cold War were Radio Free Europe and Radio Liberty. RFE/RL had its origins in a post-war America brimming with confidence and secure in its power. Unlike the Voice of America which conveyed a distinctly American perspective on global events, RFE/RL served as surrogate home radio services and a vital alternative to the controlled party-dominated domestic press in Eastern Europe. Over twenty stations featured programming tailored to individual countries. They reached millions of listeners ranging from industrial workers to dissident leaders such as Lech Walesa and Vaclav Havel. *Broadcasting Freedom* draws on rare archival material and offers a penetrating insider history of the radios that helped change the face of Europe. Arch Puddington reveals new information about the connections between RFE/RL and the CIA which provided covert funding for the stations during the critical start-up years in the early 1950s. He relates in detail the efforts of Soviet and Eastern Bloc officials to thwart the stations; their tactics ranged from jamming attempts, assassinations of radio journalists, the infiltration of spies onto the radios' staffs and the bombing of the radios' headquarters. Puddington addresses the controversies that engulfed the stations throughout the Cold War, most notably RFE broadcasts during the Hungarian Revolution that were described as inflammatory and irresponsible. He shows how RFE prevented the Communist authorities from establishing a monopoly on the dissemination of information in Poland and describes the crucial roles played by the stations as the Berlin Wall came down and the Soviet Union broke apart. *Broadcasting Freedom* is also a portrait of the Cold War in America. Puddington offers insights into the strategic thinking of the RFE/RL leadership and those in the highest circles of American government including CIA directors, secretaries of state and even presidents. [Radio Free Europe and Radio Liberty](#) A. Ross Johnson, 2010 An examination of the workings of Radio Free Europe and Radio Liberty during the period in which the two broadcast organizations were covertly supported by the CIA. **Radio Free Europe** Robert T. Holt, 1958-01-01 Radio Free Europe was first published in 1958. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. What is Radio Free Europe? Where does it broadcast? Who runs it? What are its purposes? Although thousands of Americans are familiar with Radio Free Europe, many have contributed to its support through the Crusade for Freedom campaigns; few know enough about its background to answer these and similar questions. In this book, a political scientist with first-hand knowledge gives a detailed account of the organization and development of this unique propaganda enterprise. Radio Free Europe was established as a private broadcasting project in 1949 by the Free Europe Committee headed by Joseph C. Grew as part of the Committee's program of broad long-range assistance to democratic exiles from totalitarian countries. The operational headquarters are located at Munich and the broadcasts are directed to the people of five satellite countries: Czechoslovakia, Hungary, Rumania, Bulgaria, and Poland. Professor Holt tells how Radio Free Europe was established, outlines its basic policies,

and objectives describes its organization personnel programming and services discusses transmission problems and examines the effectiveness of the propaganda He describes in detail the role of RFE in connection with the uprisings in Poland and Hungary and analyzes the charges that RFE stimulated the Hungarian revolt **Radio Free Europe Research**, 1988-12 *Annual Report on Radio Free Europe/Radio Liberty, Inc* United States. Board for International Broadcasting, 1988 **The Image Empire** Erik Barnouw, 1970-11-15 During the iQSo s in a frontier atmosphere of enterprise and sharp struggle an American television system took shape But even as it did so its pioneers pushed beyond American borders and became programmers to scores of other nations In its first decade United States television was already a world phenomenon Since American radio had for some time had international ramifications American images and sounds were radiating from transmitter towers throughout the globe They were called entertainment or news or education but were always more They were a reflection of a growing United States involvement in the lives of other nations an involvement of imperial scope The role of broadcasters in this American expansion and in the era that produced it is the subject matter of *The Image Empire* the last of three volumes comprising this study *The International Law of Propaganda* Bhagevatula Satyanarayana Murty, 1989 **Kiplinger's Personal Finance**, 1953-03 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics [Radio Free Europe and Radio Liberty](#) United States. Radio Wars Linda Risso, 2017-10-02 During the Cold War radio broadcasting played an important role in the ideological confrontation between East and West As archival documents gathered in this volume reveal radio broadcasting was among the most pressing concerns of contemporary information agencies These broadcasts could penetrate the Iron Curtain and directly address the enemy Radio was equally important in keeping sustained levels of support among the home public and the public of friendly nations In the early Cold War in particular listeners in the West had to be persuaded of the need for higher defence spending levels and a policy of containment Later even if other media and in particular television had become more important radio continued to be used widely The chapters gathered here investigate both the institutional history of the radio broadcasting corporations in the East and in the West and their relationship with other propaganda agencies of the time They examine the off air politics of radio broadcasting from the choice of theme to the selection of speakers singers and music pieces The key issue tackled by contributors is the problem of measuring the impact of and qualifying the success of information policies and propaganda programmes produced during the Cultural Cold War This book was originally published as a special issue of *Cold War History*
