Rage For China:

Chinese Recorder and Missionary Journal ,1894 *The Gospel in All Lands* ,1893 China's Crisis Behavior Kai He,2016-04-07 Since the end of the Cold War China has experienced several notable interstate crises the 1999 embassy bombing incident the 2001 EP 3 mid air collision with a United States aircraft and the Diaoyu Senkaku dispute with Japan China s response to each incident however has varied considerably Drawing from a wealth of primary sources and interviews this book offers a systematic analysis of China s crisis behavior in order to identify the factors which determine when Chinese leaders decide to escalate or scale down their response to crises Inspired by prospect theory a Nobel Prize winning behavioral psychology theory Kai He proposes a political survival prospect model as a means to understand the disparities in China s behavior He argues that China s response depends on a combination of three factors that shape leaders views on the prospects for their political survival status including the severity of the crisis leaders domestic authority and international pressure **The International Relations of the Chinese Empire** Hosea Ballou Morse,1918 Handbook of Protest and Resistance in China Teresa Wright,2019 Featuring contributions from top scholars and emerging stars in the field the Handbook of Protest and Resistance in China captures the complexity of protest and dissent in contemporary China while simultaneously exploring a number of unifying themes Examining how when and why individuals and groups have engaged in contentious acts and how the targets of their complaints have responded the volume sheds light on the stability of China s existing political system and its likely future trajectory **Middle Class China** David S. G. Goodman,Minglu Chen,2013-01-01 A general expectation has developed that China s middle class will generate not only social but also political change This expectation often overlooks the reality that there is no single Chinese middle class with a common identity or will to action This timely volume examines the behaviour and identity of the different elements of China s middle class entrepreneurs managers and professionals in order to understand their centrality to the wider processes of social and political change in China The expert contributors seek to identify the social space occupied by the Chinese middle class rather than identifying social backgrounds and attitudes In so doing they explore socio political issues the development of a consumer society relationships between gender and class in the workplace home ownership and the appearance of gated communities and the political interaction between the Party state and the entrepreneurial middle classes and their impact on the new institutional economics Providing a more nuanced understanding of the structure of the middle class in China and identifying dynamic elements in their behaviour this unique book will prove a fascinating and thought provoking read for academics students and researchers with an interest in Asian studies and public policy **The Chinese Recorder and Missionary Journal** ,1878 China's Evolving Approach to Peacekeeping Marc Lanteigne,Miwa Hirono,2013-09-13 China has become an enthusiastic supporter of and contributor to UN peacekeeping Is China s participation in peacekeeping likely to strengthen the current international peacekeeping regime by China s adopting of the international norms of peacekeeping

Or on the contrary is it likely to alter the peacekeeping norms in a way that aligns with its own worldview And as China's international confidence grows will it begin to consider peacekeeping a smaller and lesser part of its international security activity and thus not care so much about it This book aims to address these questions by examining how the PRC has developed its peacekeeping policy and practices in relation to its international status It does so by bringing in both historical and conceptual analyses and specific case oriented discussions of China's peacekeeping over the past twenty years The book identifies the various challenges that China has faced at political conceptual and operational levels and the ways in which the country has dealt with those challenges and considers the implication of such challenges with regards to the future of international peacekeeping This book was originally published as a special issue of International Peacekeeping China's Cultural Diplomacy Xin Liu, 2019-10-02 This book examines China's contemporary global cultural footprints through its recent development of cultural diplomacy The volume presents an alternative analytical framework to examine China's cultural diplomacy which goes beyond the Western defined concept of soft power that prevails in the current literature This new approach constructs a three dimensional framework on Orientalism cultural hegemony and nationalism to decipher the multiple contexts which China inhabits historically internationally and domestically The book presents multiple case studies of the Confucius Institute and compares the global programme located around the world with its Western counterparts and also with other Chinese government sponsored endeavours and non government initiated programmes The author aims to solve the puzzle of why China's efforts in cultural diplomacy are perceived differently around the world and helps to outline the distinctive features of China's cultural diplomacy This book will be of much interest to students of diplomacy Chinese politics foreign policy and International Relations in general **China Rising** Yong Deng, Fei-Ling Wang, 2005 Despite its increasingly secure place in the world the People's Republic of China remains dissatisfied with its global status Its growing material power has simultaneously led to both greater influence and unsettling questions about its international intentions China also has found itself in a constant struggle to balance its aspirations abroad with a daunting domestic agenda This authoritative book provides a unique exploration of the complex and dynamic motivations behind Beijing's foreign policy The authors focus on China's choices and calculations on issues such as the ruling Communist party regime's interests international status and image nationalism Taiwan human rights globalization U S hegemony international institutions and the war on terrorism Taken together the chapters offer a comprehensive diagnosis of the emerging paradigms in Chinese foreign policy illuminating especially China's struggle to engineer and manage its rise in light of the opportunities and perils inherent in the post cold war and post 9 11 world
