Book Jacket **Professional Morality and Guilty Bystanding** Barry L. Padgett, 2008-12-18 Work as center of life has such an important role in our lives it bears a standard by which we measure our success It is a major component of self actualization and well being Professional life offers the hope of rewarding work not just financially but work that is fulfilling However professions are also riddled with complexities and ethical conflicts that obstruct the goal of meaningful work Our jobs are fraught with moral ambiguities and dilemmas these become sources of frustration and alienation What is needed is a transformation a renewal of our professional lives and the institutional contexts in which we operate to humanize the alienating aspects of work and professions

Thomas Merton 1915-1968 though a cloistered monk wrote extensively on spiritual and social issues He has been called a spiritual master for contemporary times He possessed an uncanny sense of self awareness and moral imagination His life and writings have inspired countless persons on life's spiritual journey Yet while people have looked to Merton for guidance on spiritual issues the implications of his thought for several other areas of life are open to exploration This book focuses on the significance of his reflections in *Conjectures of a Guilty Bystander* which offer one the confidence to embark on a journey that seeks to transcend the complexities of professional life and courage to transform the negative features of workplaces and organizations through reasoned moral action moral imagination and leadership

If Only We Could See Gary Commins, 2015-10-12 This analytical polemical and personal book creates a lively interaction between mysticism and activism Looking beyond superficial links between spirituality and justice it creates an in depth engagement of mysticism as an inner revolution and activism as a mirroring socioeconomic transfiguration Based on the twin premises of the mystical tradition and Social Gospel liberation theology that those who experience God in prayer or engage in social action ought to be our primary theologians it examines what these two traditions say about theology to each other and to us The broad synthesis that results from this fascinating dialogue brings new insights into mysticism activism theology and ethics and casts a unique light on how we pray and live *If Only We Could See* brings together a wealth of spiritual material from the early Desert medieval mystics and modern spiritual writers alongside an equally rich resource of

abolitionists anti apartheid activists civil rights leaders nonviolent change agents and peacemakers The results yield valuable insights for a theology that challenges every personal and political status quo **Thomas Merton and the Inclusive**

Imagination Ross Labrie,2001 Thomas Merton 1915 1968 was a Roman Catholic priest a Trappist monk a social activist and a poet Author of the celebrated autobiography *The Seven Storey Mountain* Merton has been described as the most important American religious writer of the past hundred years One of the notable characteristics of Merton s writing both in poetry and in prose was his seamless intermingling of religious and Romantic elements an intermingling that because of his gifts as a writer and because of his enormous influence has had the effect of making widespread a distinctive form of religious thought and expression In *Thomas Merton and the Inclusive Imagination* Ross Labrie reveals the breadth of Merton s intellectual reach by taking an original and systematic look at Merton s thought which is generally regarded as eclectic and unsystematic

Hopeful Realism in Urban Ministry Barry K. Morris,2016-05-20 What pray tell does a faithful urban ministry require if not a triadic relationship of prayer justice and hope Could such a theologically conjunctive relationship of prayer justice and hope fortify urban ministry and challenge students and practitioners to ponder and practice beyond the box Frequently justice is collapsed to charity hope into wishful thinking or temporarily arrested despair and prayer a grasp at quick fix interventions An urban ministry s steadfast public and prophetic witness longs for the depth and width of this triad Via three countries decades of endeavors one chapter brainstorms urban ministry practices while another s literature survey signals crucial convictions Amid many seminal theologians are summoned to ground urban ministry intimations and implications Niebuhr on justice Moltmann on hope and Merton on contemplative prayer Evident is passion that fuels compassion in the service of justice hope that engages despair and prayer that draws from the contemplative center of it all thankful resources for long haul ministry The triad presses to illumine a concrete ministry s engagement of relentless forced option issues yet with significant networks resourcing Contrast awareness animates endurance The summary exegetes the original grace based serenity prayer Hence hope vitally balances realism s temptation to cynicism Realism saves hope from irrelevancy

Thomas Merton and the Noonday Demon Donald Grayston,2015-05-19 How did Thomas Merton become Thomas Merton Starting out from any one of his earlier major life moments wealthy orphan boy big man on campus fervent Roman Catholic convert new and obedient monk we find ourselves asking how by his life s end he had grown from who he was then into a transcultural and transreligious spiritual teacher read by millions This book takes another such starting point his attempt in the mid 1950s to move from his abbey of Gethsemani in Kentucky a place that had become in his view noisy beyond bearing to an Italian monastery Camaldoli which he idealized as a place of monastic peace The ultimate irony Camaldoli at that time bucolic and peaceful outwardly was inwardly riven by a pre Vatican II culture war whereas Gethsemani which he tried so hard to leave became when he was given his hermitage there in 1965 his place to recover Eden In walking with Merton on this journey and reading the letters he wrote and received at the time we find ourselves asking as he did with so much

energy and honesty the deep questions that we may well need to answer in our own lives *Between Science and Religion*
Phillip M. Thompson, 2009-01-01 This book explores the Catholic Church's engagement with science and technology in the twentieth century by focusing on the important role of four prominent Catholic intellectuals representing the diverse intellectual currents of their generation The book unpacks both the challenges and rewards of pursuing such efforts between the Modernist crisis and the Second Vatican Council This study of these intellectuals suggests how the Church moved from conflict to dialogue in its relationship with science and technology **Thomas Merton** James Thomas Baker, 2021-12-14

Thomas Merton Social Critic organizes and critically analyzes the social thought of the Cistercian monk who has become an internationally known symbol of the spiritual element in man The author evaluated all of Merton's writings published and unpublished then discussed his interpretations with Merton personally The result is a perceptive relation of Merton's social thought to its genesis in his own life experiences and contemplation a faithful rendering of Merton's thought on the problems of our time Merton the author makes clear called for a spiritual social and religious union It was a poetic and sometimes unimplemented solution to alienation and division a valid and authentic if at times limited response to the contemporary chaos This study will be greeted by a strong reaction from Mertonians everywhere Thomas Merton and the Monastic Vision Lawrence Cunningham, 1999

Cunningham theology U of Notre Dame explores Merton's monastic life and his subsequent growth into a modern day spiritual master Starting from Merton's entrance into the Abbey of Gethsemani in 1941 he highlights the development of Merton's monastic life against the cultural background of the American experience and the vast upheavals in the Roman Catholic Church thus showing how his writings and continuing influence can only be understood against the background of his contemplative experience as a Trappist monk Father Timothy Kelley the current abbot of the Abbey of Gethsemani and a former novice under Merton provides a foreword Annotation copyrighted by Book News Inc Portland OR Illusions of Freedom Jeffrey M Shaw, 2014-12-25 Contemporary technology has the potential to hinder humanity's attainment of freedom in the opinion of Thomas Merton and Jacques Ellul Both thinkers offer unique perspectives on the impact that they believe technology has had on society in the twentieth century and they both offer unconventional definitions of the concept of freedom Shaw compares their views on technology and its impact on freedom and in doing so allows those who may not be familiar with either of these thinkers to investigate some of their other writing more thoroughly

Divine Discontent John Moses, 2014-06-19 Thomas Merton continues to speak with a prophetic voice The 2015 centenary of his birth provides an opportunity to reconsider both the international reputation and the relevance in today's world of a man who still intrigues perplexes and challenges as a Trappist monk as a writer as a contemplative as a social critic and in the context of world faiths as an ecumenist Merton's extensive writings many of which were not available until the late 1980s and 1990s provide the basis of an examination of the various aspects of his story permitting Merton to speak for himself whenever possible but enabling also an analysis of his abiding fascination and the discontents human and divine that

dominated so much of his life In the light of all that he has to say we are encouraged to look again at our preconceived ideas about the natural world the prevailing culture abuses of power questions of war and peace institutions and the freedom of the individual contemplation and action and the search for God **The Republic of Cthulhu** Eric Wilson,2016 If parapolitics a branch of radical criminology that studies the interactions between public entities and clandestine agencies is to develop as an academic discipline then it must develop a coherent theory of aesthetics in order to successfully perform its primary function to render perceptible extra judicial phenomena that have hitherto resisted formal classification Wilson offers the work of H P Lovecraft 1890 1937 as an example of the relevance of subversive literature in this case cosmic horror and the weird tale to the parapolitical criminologist Cosmic horror is a form of writing that relies heavily upon the epistemological assumption of a radical and irreconcilable disjunction between appearance and reality perception and truth In many ways the well constructed weird tale strongly resembles the hard boiled detective story or the noir thriller in that the resolution of the narrative hinges upon a dramatically shattering confrontation with an unspeakable reality Apart from its obvious utilization of conspiracy theory the primary attraction of the Lovecraftian text lies with its remarkably sophisticated utilization of two central tropes of classical aesthetic theory the sublime and the grotesque Not only does Lovecraft s oeuvre represent a remarkable use of both of these motifs but the raw literary power of the Lovecraftian weird tale serves as an outstanding exemplar for the parapolitical scholar to emulate in formulating an alternative mode of discourse or poetics

Loving and Hating the World James Lawson,2021-12-29 What is it that makes discipleship authentic Discipleship involves learning how to be in the world but not of the world The first Christians were ambivalent about the world God so loved the world that he gave his only begotten son but friendship with the world is enmity with God So discipleship involves learning how to live with this ambivalence and an ancient tension between loving and hating the world This book offers a deeper understanding of what discipleship means by tracing the history of this ambivalence from the New Testament to the present It presents a revisionary account of this history as a continuing and nonnegotiable tension between loving and hating the world rather than a simple transition from medieval world denial to modern world affirmation It argues that this tension helped produce our own secular age and it considers modern Jewish and Christian philosophical and theological responses to this history that suggest ways that Christians can negotiate this tension to be more authentic disciples today *Philosophies and Practices of Emancipatory Nursing* Paula N. Kagan,Marlaine C. Smith,Peggy L. Chinn,2014-07-17 Awarded First Place in the 2015 AJN Book of the Year Award in two categories History and Public Policy and Professional Issues This anthology presents the philosophical and practice perspectives of nurse scholars whose works center on promoting nursing research practice and education within frameworks of social justice and critical theories Social justice nursing is defined by the editors as nursing practice that is emancipatory and rests on the principle of praxis which is practice aimed at attaining social justice goals and outcomes that improve health experiences and conditions of individuals their communities and society There is a

lack in the nursing discipline of resources that contain praxis approaches and there is a need for new concepts models and theories that could encompass scholarship and practice aimed at purposive reformation of nursing other health professions and health care systems Chapters bridge critical theoretical frameworks and nursing science in ways that are understandable and useful for practicing nurses and other health professionals in clinical settings in academia and in research In this book nurses ideas and knowledge development efforts are not limited to problems and solutions emerging from the dominant discourse or traditions The authors offer innovative ways to work towards establishing alternative forms of knowledge capable of capturing both the roots and complexity of contemporary problems as distributed across a diversity of people and communities It fills a significant gap in the literature and makes an exceptional contribution as a collection of new writings from some of the foremost nursing scholars whose works are informed by critical frameworks

Thinking through Thomas Merton Robert Inchausti, 2014-02-01 Considers the legacy of Thomas Merton and his relevance for contemporary times With the publication of The Seven Storey Mountain in 1948 Thomas Merton became a bestselling author writing about spiritual contemplation in a modern context Although Merton 1915 1968 lived as a Trappist monk he advocated a spiritual life that was not a retreat from the world but an alternative to it particularly to the deadening materialism and spiritual vacuity of the postwar West Over the next twenty years Merton wrote for a wide audience bringing the wisdom of Christianity Buddhism and Sufism into dialogue with the period s contemporary thought In Thinking through Thomas Merton Robert Inchausti introduces readers to Merton and evaluates his continuing relevance for our time Inchausti shows how Merton broke the high modernist trance so that we might become the change we wish to see in the world by refiguring the lost virtues of silence contemplation and community in a world enamored by the will to power virtuoso performance radical skepticism and materialist metaphysics Merton s defense of contemplative culture is considered in light of the postmodern thought of recent years and emerges as a compelling alternative Inchausti explores Merton s understanding of Western Christian monasticism and provides new insights into his critique of modernity Curt Cadorette author of Catholicism in Social and Historical Contexts An Introduction
