Dreams Really Do Come True

Gail Turner Stevenson, 2017-01-23 This is an autobiography about a little girl who was separated from her family as she struggles with a lifetime of events that unfold Along the way she discovers God and how he answers her prayers at a very young age as she tries to keep reaching out to find her family But there s always an obstacle in the way She has to be courageous and strong as God directs her through challenges and sometimes loneliness but because of her love and devotion toward God he answers her prayer exactly what she asks for She gives her testimonies and scriptures to light up the path for all readers so that they can witness all the gifts miracles and radiant love that God gives to anyone who receives him in their heart That little girl is me the author Join me in my journey as we travel through life s narrow path and be uplifted in knowing that God is always there He carried me through the roughest storms and now I see a rainbow of miracles that took place in my life and still continue today Dreams really do come true Gail Turner Stevenson

Alien Oceans Kevin

Hand, 2021-09-21 Inside the epic quest to find life on the water rich moons at the outer reaches of the solar system Where is the best place to find life beyond Earth We often look to Mars as the most promising site in our solar system but recent scientific missions have revealed that some of the most habitable real estate may actually lie farther away Beneath the frozen

crusts of several of the small ice covered moons of Jupiter and Saturn lurk vast oceans that may have existed for as long as Earth and together may contain more than fifty times its total volume of liquid water Could there be organisms living in their depths Alien Oceans reveals the science behind the thrilling quest to find out Kevin Peter Hand is one of today s leading NASA scientists and his pioneering research has taken him on expeditions around the world In this captivating account of scientific discovery he brings together insights from planetary science biology and the adventures of scientists like himself to explain how we know that oceans exist within moons of the outer solar system like Europa Titan and Enceladus He shows how the exploration of Earth s oceans is informing our understanding of the potential habitability of these icy moons and draws lessons from what we have learned about the origins of life on our own planet to consider how life could arise on these distant worlds Alien Oceans describes what lies ahead in our search for life in our solar system and beyond setting the stage for the transformative discoveries that may await us
