The Red Web Tom Bower, 1989 *MI6 and the Machinery of Spying* Philip Davies, 2004-06 Philip H J Davies is one of a growing number of British academic scholars of intelligence but the only academic to approach the subject in terms of political science rather than history He wrote his PhD at the University of Reading on the topic Organisational Development of Britain's Secret Intelligence Service 1909-1979 and has published extensively on intelligence and defence issues After completing his PhD he taught for a year and a half on the University of London external degree programme in Singapore before returning to the UK to lecture at the University of Reading for two years He was formerly Associate Professor of International and Security Studies at the University of Malaya in Malaysia where he not only conducted his research but provided a range of training and consultancy services to the Malaysian intelligence and foreign services He is now based at Brunel University UK

Scandinavia and the Great Powers 1890-1940 Patrick Salmon, 2002-04-11 At the beginning of the twentieth century Scandinavia lay on the margin of European power politics but with the polarisation of international relations in the era of the two world wars Denmark Finland Norway and Sweden became the point where the spheres of influence of three great powers Great Britain Germany and Russia intersected In this book Patrick Salmon uses his extensive research in British German and Scandinavian archives to examine the position of the Nordic countries in the great power rivalries and conflicts of the period 1890-1940 However it does not treat the Nordic countries merely as passive victims It seeks to show that despite the disparity in strength between the great powers and the small states of northern Europe the latter had means of adapting to great power pressures and even influencing the policies of their formidable neighbours

Deception Edward Lucas, 2013-01-01 From the capture of Sidney Reilly the Ace of Spies by Lenin's Bolsheviks in 1925 to the deportation from the USA of Anna Chapman the Redhead under the Bed in 2010 Kremlin and Western spymasters have battled for supremacy for nearly a century In *Deception* Edward Lucas uncovers the real story of Chapman and her colleagues in Britain and America unveiling their clandestine missions and the spy hunt that led to their downfall It reveals unknown triumphs and disasters of Western intelligence in the Cold War providing the background to the new world of industrial and political espionage To tell the story of post Soviet espionage Lucas draws on exclusive interviews with Russia's top NATO spy Herman Simm and unveils the horrific treatment of a Moscow lawyer who dared to challenge the ruling criminal syndicate there Once the threat from Moscow was international communism now it comes from the siloviki Russia's ruthless men of power

Comparative Politics and Government of the Baltic States D. Auers, 2015-03-17 This book traces the development of the political institutions electoral systems parties civil society economic and social policies and foreign affairs of the three Baltic states of Estonia Latvia and Lithuania over the last quarter century

The Darkest Sides of Politics, I Jeffrey M. Bale, 2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international

politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

The Horror of Himmler's Death Squads Norman Ridley, 2024-09-30 During the Second World War Lithuania Latvia and Estonia were occupied on three separate occasions twice by the Soviet Union and once by Nazi Germany The signing of the Ribbentrop Molotov Pact of 1939 allowed the Soviets to dominate the Baltic states without fear of German reprisals causing many in the German Baltic populations to flee to Poland Soviet rule of the Baltics was brutal with the purging of political elites and deportation of many tens of thousands in a bid to turn them into vassal states Consequently when Hitler launched Operation Barbarossa in June 1941 many Balts saw it as a liberation from Soviet cruelties The reality was however that it turned out to be the beginning of something much worse During their occupation of Poland prior to Barbarossa the Nazis had decimated the Polish political elites and the Jews there had been herded into ghettos in preparation for deportation to the east where they would serve as slave labour in the Nazi economy after the conquest of the Soviet Union Similar policies were to be adopted in the Baltics when Heinrich Himmler's murder squads the Einsatzgruppen were allowed to move into the newly occupied territories Operating behind the advancing German forces Einsatzgruppen A B C and D four special mobile killing units each made up of about a thousand men from the security police and the German intelligence service proved to be more than willing to carry out Himmler's orders He had called for the removal of every vestige of opposition to Nazi rule which primarily meant complete elimination of the inferior races who were unfit for work and the ghettoization of others in preparation for their economic exploitation On foreign soil away from scrutiny and free of all constraint the Einsatzgruppen discovered that through the mass shootings of communists Jews and gypsies it was possible to accelerate the pace of the Holocaust slaughtering men women and children in their tens of thousands The Einsatzgruppen were assisted by local volunteers who helped to identify victims as well as kill them in places whole Jewish communities were swiftly eliminated Many of the killers and victims had known one another as neighbors and colleagues This massive slaughter of civilians convinced Heydrich and Himmler that complete extermination of Jews was within their grasp and before very long in the death camps new industrial methods of killing would be devised

Secret Intelligence in the European States System, 1918-1989 Jonathan Haslam, Karina Urbach, 2013-12-18 The history of secret intelligence like secret intelligence itself is fraught with difficulties surrounding both the reliability and completeness

of the sources and the motivations behind their release which can be the product of ongoing propaganda efforts as well as competition among agencies. Indeed these difficulties lead to the Scylla and Charybdis of overestimating the importance of secret intelligence for foreign policy and statecraft and also underestimating its importance in these same areas. Problems that generally beset the actual use of secret intelligence in modern states. But in recent decades traditional perspectives have given ground and judgments have been revised in light of new evidence. This volume brings together a collection of essays avoiding the traditional pitfalls while carrying out the essential task of analyzing the recent evidence concerning the history of the European state system of the last century. The essays offer an array of insight across countries and across time. Together they highlight the critical importance of the prevailing domestic circumstances, technological, governmental, ideological, cultural, financial, in which intelligence operates. A keen interdisciplinary eye focused on these developments leaves us with a far more complete understanding of secret intelligence in Europe than we've had before. **The Routledge**

History of the Second World War Paul R. Bartrop, 2021-11-08. The Routledge History of the Second World War sums up the latest trends in the scholarship of that conflict, covering a range of major themes and issues. The book delivers a thematic analysis of the many ways in which study of the Second World War can take place, considering international, transnational, and global approaches and serves as a major jumping off point for further research into the specific fields covered by each of the expert authors. It demonstrates the global and total nature of the Second World War, giving due coverage to the conflict in all major theatres and through the lens of the key combatants and neutrals, examines issues of race, gender, ideology, and society during the war and functions as a textbook to educate students as to the trends that have taken place in how the conflict has been and can be interpreted in the modern world. Divided into twelve parts that cover central themes of the conflict, including theatres of war, leadership, societies, occupation, secrecy, and legacies, it enables those with no memory of war to approach it with a view to comprehending what it was all about and places the history of this conflict into a context that is international, transnational, and institutional. This is a comprehensive and accessible reference volume for anyone interested in the most up-to-date scholarship on this major conflict. Chapter 18 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non-Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>.
