Positive Horses Patti Dammier PhD,2019-09-25 Horse training isn t a mystical procedure In fact there isn t mystery in the methods necessary to teach any skill To learn any skill there is a logical sequence that if adhered to allows a behavior to be taught and learned Creating a Positive Horse consists of using positive methods which in turn creates a positive attitude Positive Horses explains those positive methods necessary to create horses that perform on taught learned cues both on the ground and in the saddle that are systematically rewarded but also have an extremely positive attitude to their trainer companion The system uses the method Behavior Modification This book is about Explanation of basic educational methods using systematic sequences that support training horses Creating the goals and objectives for each individual horse rather than a one size fits all approach Training using positive reinforcement how food rewards creates useable cues instead of the trainer performing meaningless behavior that the horse doesn t understand Horses learning basic cues come stand walk on

and halt which provides safety on the ground and assists in the next work in the saddle Applying basic training to other equestrian disciplines Addressing training method failure because the trainer doesn't assess the correct behavior to reward and doesn't understand the methods Horse case studies exemplifying the use of behavioral methods

Dressage in the Fourth Dimension Sherry Ackerman, 2010-09-07 Dressage is often seen as the most formal and controlled of the equine sports following an ancient standardized training progression For philosopher and dressage instructor Dr Sherry Ackerman dressage is much more It along with riding in general can be a transformational art and an avenue for reflection exploration and self knowledge through which a rider can experience liberation from the individual egoistic self This second revised edition of Dressage in the Fourth Dimension is a pioneer work in awakening dressage consciousness Drawing on such diverse sources as sacred geometry ancient Western and Eastern philosophies and esoteric spirituality Ackerman seeks to heal humanity's alienation from nature through riding She points us toward the liberation from societal conditioning and normative thinking and ultimately from our own egos Her concept of the fourth dimension requires us to leave the analytic objective mind behind and enter into the mystery of inspiration A short unique thought provoking work that has enjoyed a word of mouth reputation among horse people for years Dressage in the Fourth Dimension will challenge riders assumptions about their horses and themselves
