Reflections On Sociology And Philippine Society:

Reflections on Sociology and Philippine Society Randolph David, 2001 This is a new collection of essays by a prize winning author scholar and TV talk show host According to David this book is addressed to the general reader but it is primarily intended for students of sociology and the other human sciences who demand of every branch of knowledge that it speak clearly of practical realities The Poverty of Television Jonathan Corpus Ong, 2015-05-15 Based on an extensive ethnographic study of television and audiences in class divided Philippines this is the first book to take a bottom up approach in considering how people respond to images and narratives of suffering and poverty on television Arguing for an anthropological ethics of media this book challenges existing work in media studies and sociology that focuses solely on textual analysis and philosophical approaches to the question of representing vulnerable others Current questions in media ethics such as whether to portray sufferers as humane and empowered individuals or show them at their worst have so far used textual and visual analyses to convey the researcher's own moral position on the matter In contrast this book inspired by the anthropology of moralities accounts for the different interpretations and moral positions of audiences who are positioned in various degrees of social and moral proximity to those they see and hear on television Winner of the 2016 Philippine Social Science Council Excellence in Research Award *Philippine Quarterly of Culture and Society*, 2003

Being Catholic in the Contemporary Philippines Jayeel Serrano Cornelio, 2016-06-23 This book based on extensive original research examines the nature of Catholicism in the contemporary Philippines It shows how Catholicism is apparently flourishing with good attendance at Sunday Masses impressive religious processions and flourishing charismatic groups and with interventions by the Catholic hierarchy in national and local politics However focusing in particular on the beliefs and practices of young people the book shows that young people are often adopting a different more individualised approach to Catholicism which is frequently out of step with the official position It considers the features of this a more personal and experiential relationship with God a new approach to morality in which right living is seen as more important than right believing and a critical view of what is seen as the Catholic hierarchy's misguidedness The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the Philippines but that nevertheless young people's new approach involves a solid enduring commitment and a strong view of their own Catholic religious identity Asian Alterity: With Special Reference To Architecture And Urbanism Through The Lens Of Cultural Studies William Siew Wai Lim, 2007-12-04 Asian Alterity is an interdisciplinary theoretical analysis that vigorously contests the homogeneity of the mainstream Eurocentric values Part I argues for the need for an alternate perspective to be introduced so as to understand the diversity of Asia's cultural differences at their varied development stages and to meet the complex challenges of the explosive urban expansion and disruptive changes in traditional cultures and lifestyles Part II of the book consists of nine case studies of Asian major urban cities by well established academic writers

and urban theorists Each author presents diverse aspects of urban dynamism The case studies will collectively demonstrate a broad framework to understand the essentiality of the interdisciplinary mode of Cultural Studies as an important lens towards meeting the challenges in Asian Architecture and Urbanism Highlights of the book *Populism in the Civil Sphere* Jeffrey C. Alexander, Peter Kivisto, Giuseppe Sciortino, 2020-12-07 Even as the specter of populism haunts contemporary societies scholars have not been able to agree about what it is Except for one thing a deviation from democracy the source it seems of the precarious position in which so many societies find themselves today This volume aims to break the Gordian knot of populism by bringing a new social theory to bear and in so doing so suggesting that normative judgments about this misunderstood phenomenon need to be reconsidered as well Populism is not a democratic deviation but a naturally occurring dimension of civil sphere dynamics fatal to democracy only at the extremes Because populism is highly polarizing it has the effect of inducing anxiety that civil solidarity is breaking apart Left populists feel as if civil solidarity is an illusion that democratic discourse is a fig leaf for private interests and that the social and cultural differentiation that vouchsafes the independence of the civil sphere merely reflects the hegemony of narrow professional interests or those of a ruling class Right populists share the same distrust even repulsion for the civil sphere What seems civil to the center and left like affirmative action or open immigration they call out as particularistic honored civil icons such as Holocaust memorials they trash How can the sense of a vital civil center survive such censure from populism on the left and the right Populism in the Civil Sphere provides compelling answers to these fundamental questions Its contributions are both sophisticated theoretical interventions and deeply researched empirical studies and it will be of great interest to anyone concerned about the most important political developments of our time **Migration and New Media** Mirca Madianou, Daniel Miller, 2013-03-01 How do parents and children care for each other when they are separated because of migration The way in which transnational families maintain long distance relationships has been revolutionised by the emergence of new media such as email instant messaging social networking sites webcam and texting A migrant mother can now call and text her left behind children several times a day peruse social networking sites and leave the webcam for 12 hours achieving a sense of co presence Drawing on a long term ethnographic study of prolonged separation between migrant mothers and their children who remain in the Philippines this book develops groundbreaking theory for understanding both new media and the nature of mediated relationships It brings together the perspectives of both the mothers and children and shows how the very nature of family relationships is changing New media understood as an emerging environment of polymedia have become integral to the way family relationships are enacted and experienced The theory of polymedia extends beyond the poignant case study and is developed as a major contribution for understanding the interconnections between digital media and interpersonal relationships **Incomplete Urbanism** William Siew Wai Lim, 2012 Foreword by Leon van Schaik Incomplete Urbanism is a dynamic hybrid interactive concept which destabilizes the current architectural and urban theories and practices Its main

characteristics are indeterminacy inconsistency and changeability which are particularly challenging in the context of the New World Order and the fast emerging global digital network It is a concept that can be effectively applied to any sizeable section of existing cities without the need for major readjustments and can be implemented at different rates in response to specific local conditions As for the word critical I use it deliberately in order to convey the essential need to think creatively and positively in a controversial contesting and social orientated manner about what we do as it will constructively influence the way we do things that impact our values and social environment
