Rennie, 1996-01-01 Provides a coherent and defensible interpretation of Eliade's thought which allows less familiar readers to approach Eliade with a greater clarity and precision Foreword by Mac Linscott Ricketts a leading translator of Eliade's writings Religion in Primitive Cultures Wilhelm Dupré, 2011-10-10 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline Contemporary Practice and Method in the Philosophy of Religion David Cheetham, Rolfe King, 2008-03-27 Among contemporary Anglo American philosophers and students there is a growing awareness of the need to engage more both with philosophical perspectives of other faith traditions and also the distinctive continental tradition of philosophy This important new collection aims to engage philosophers from a variety of different backgrounds and traditions religious and non religious to stimulate dialogue on philosophical method The volume aims to ask an emerging generation of philosophers who specialize in philosophy of religion to write about their personal understanding of the practice method and future focus of the subject with the ultimate goal of illustrating why this expanding subject area is important Religious Consciousness and Experience Thomas N. Munson, 2012-12-06 It is one of the ironies of our times that as the practice of religion wanes a theoretical interest in it on the part of many anthropologists psychologists sociologists and philosophers waxes Among these only philosophers bring to their task a long history of theological and religious relations Hence their renewed interest has been hailed as a break down of isolationism heralding perhaps a new era of interdisciplinary peace To celebrate this new ecumenism a Chicago seminary consistently with its purpose sponsored a colloquium to explore the future of philosophical theology If some of its participating professional philosophers initially felt a twinge of embarrassment over their presence at an ostensibly theological meeting they soon were at ease No one was called upon to define the topic or even to suggest its relationship to a philosophy of religion Conveniently everyone could roll up his sleeves and get to work on a job he personally felt needed doing Can we wonder that the lay observer appeared somewhat confused Was the purpose to analyze God talk or to find a place for God in a metaphysical scheme Or if not these something else It soon became evident that the participants in the colloquium ranged from the free
