

POST- REFORMATION REFORMED DOGMATICS

***Volume 1
Prolegomena
to Theology***

Richard A. Muller

Reformed Dogmatics Prolegomena

Herman Bavinck

Reformed Dogmatics Prolegomena:

Reformed Dogmatics : Volume 1 Herman Bavinck, 2003-10-01 In partnership with the Dutch Reformed Translation Society Baker Academic is proud to offer the first volume of Herman Bavinck's complete Reformed Dogmatics in English for the very first time. Bavinck's approach throughout is meticulous. As he discusses the standard topics of dogmatic theology, he stands on the shoulders of giants such as Augustine, John Calvin, Francis Turretin, and Charles Hodge. This masterwork will appeal to scholars and students of theology, research and theological libraries, and pastors and laity who read serious works of Reformed theology.

Post-Reformation Reformed Dogmatics Richard A. Muller, 2003-08-01 Post-Reformation Reformed Dogmatics examines how specific doctrines of the sixteenth and seventeenth centuries developed and their influence in shaping what we recognize today as the Protestant church. Richard Muller has undertaken this historical study to explain the development of the doctrine of this important period of church history and its ongoing relevance for the church. These four volumes, two of which are available for the first time, examine theological preliminaries: Scripture as the foundation of theology, God's existence, attributes, and nature, and the Trinity. Available individually or as a set, they comprise a significant contribution to scholarship and are essential reading for serious students of the Reformation.

Post-Reformation Reformed Dogmatics: Prolegomena to theology Richard Alfred Muller, 1987

Reformed Dogmatics Herman Bavinck, John Bolt, John Vriend, 2004-10 This classic work of Reformed theology is the second of four volumes now available in English.

T&T Clark Handbook of Neo-Calvinism Nathaniel Gray Sutanto, Cory Brock, 2024-01-25 Neo-Calvinism critically advances Reformed orthodoxy for the sake of modern life. Birthed in the Netherlands at the turn to the twentieth century, initiated by Abraham Kuyper (1837-1920) and Herman Bavinck (1854-1921), it argued that a life before God entailed the leavening of faith over all human existence. While the movement originated in the Netherlands, the tradition now has a global reach with practitioners and thinkers applying its insights in diverse ways and in their own contexts. This handbook is a genealogical introduction to this lively and modern branch of the Reformed tradition, with contributors that reflect its global reach. Its four sections chart the theological roots, important original figures, historical contours, and the contemporary influence of neo-Calvinism across a diversity of fields.

Reformational Theology Gordon J. Spykman, 1992 Following the Biblical story line of creation, fall, redemption, consummation, Spykman's new paradigm systematics represents a notable revision of the traditional loci method. Spykman has reordered the basic Christian dogmas in a bold attempt to overcome the rationalist scholastic influences inherent in the older method.

Barth's Theology of Interpretation Donald Wood, 2016-04-08 Through his single-minded insistence on the priority of the Bible in the life of the church, Karl Barth (1886-1968) decisively shaped the course of twentieth-century Christian theology. Drawing on both familiar texts and recently published archival material, Barth's *Theology of Interpretation* sheds new light on Barth's account of just what it is that Scripture gives and requires. In tracing the movement of Barth's earlier thinking about scriptural reading, the book also raises important

questions about the ways in which Barth can continue to influence contemporary discussions about the theological interpretation of scripture **Theology and the Future** Trevor Cairney, David Starling, 2014-07-31 Theology was once queen of the sciences the integrating centre of Christendom's conceptual universe In our own time the very idea of systematic theology is frequently called into question derided as an arcane and superstitious pseudo discipline Even within the church it is commonly disregarded in favour of unreflective piety and pragmatism At the same time the southward shift in world Christianity's centre of gravity prompts crucial questions about the future form and content of theology Within this context *Theology and the Future* offers a case for the continuing viability of theology exploring how it might adapt to changing circumstances and discussing its implications for how we are to imagine and help shape our shared human future Beginning with the question of God this book explores what might be meant by the future of God and what its implications are for Christian theology Chapters follow on the location of theology in global Christianity the church and the academy and on its sources and method The second half of the book explores a wide variety of dimensions of the human future that theology might address and illuminate The essays bring together a mix of specialist theologians and interdisciplinary thinkers to support the assertion that there can be no more critical endeavor to the future than understanding God and all things in relationship to him Karl Barth's Critically Realistic Dialectical Theology Bruce L. McCormack, 1997 McCormack is master of this voluminous material He is scrupulously at home in the intricate dramatic background of Swiss socialist politics The result is a masterly study often as compelling as its theme George Steiner *Times Literary Supplement* This meticulous and definitive study supersedes most previous interpretations Colin Gunton *Theological Book Review* it should quickly attain classic status It is an exceptionally fine and erudite piece of work The results of this painstaking attention to detail are truly ground breaking This is a major intellectual achievement an interpretative act of great courage and Barth studies will never look the same Graham Ward *Expository Times* This book is a new major intellectual biography of perhaps the most influential theologian of the twentieth century Karl Barth It offers the first full scale revision of the well known theologian Hans Urs Balthasar's seminal interpretation of Barth which was first published in 1951 Drawing on a wealth of material much of it unpublished during Barth's lifetime as well as a thorough acquaintance with the best of recent German scholarship Professor McCormack demonstrates that the fundamental decision which would control the whole of Barth's development the turn to a new critically realistic form of theological objectivism was already made during the years in which Barth was at work on his first commentary on Romans Professor McCormack further argues that the most significant subsequent decisions both material and methodological were made in Barth's *Gottingen Dogmatics* of 1924-5 and not later in the 1931 book on Anselm as has often been alleged Finally he seeks to show that von Balthasar's description of a turn from dialectic to analogy which provided the foundation for the neo orthodox reading of Barth in the English speaking world fails to take seriously enough the extent to which dialectic remained a constitutive feature of Barth's outlook in the Church *Dogmatics* This unique and

important work provides not simply a fresh interpretation of Barth's development but also a new paradigm for understanding the whole of Barth's theology

Neo-Calvinism and the French Revolution James Eglinton, George Harinck, 2014-08-28

The French Revolution was the scene of much intellectual and social upheaval. Its impact touched a wide range of subjects: the relationship of the church to the state, social relationships, science, literature, fashion, philosophy, and theology. Although the French Revolution's momentum was felt across Europe and North America, it met a particularly interesting response in the Netherlands at that time: the scene of a burgeoning neo-Calvinist movement. In that context, the likes of Groen van Prinsterer, Abraham Kuyper, and Herman Bavinck responded to the French Revolution's ideals and influence in a variety of intellectual and practical ways. This book approaches that Dutch response from a range of historical and theological perspectives and, in so doing, explores the relationship between the French Revolution and the development of neo-Calvinism. Beginning with historical portraits of Bavinck and Kuyper in relation to the Revolution, the perspectives offered also include, amongst others, the place of multilingualism in neo-Calvinism and the Revolution; neo-Calvinist and Revolutionary approaches to fashion; a dialogue between Kuyperian theology and Kieslowski's *Three Colours* trilogy; and a contemporary neo-Calvinist critique of French *laïcité*. This book forms part of a wider Project neo-Calvinism supported by the Theologische Universiteit Kampen and the VU University Amsterdam.
