Reforming The Forest Service:

Reforming the Forest Service Randal O'Toole, 1988 Reforming the Forest Service contributes a completely new view to the current debate on the management of our national forests Randal O Toole argues that poor management is an institutional problem he shows that economic inefficiencies and environmental degradation are the inevitable result of the well intentioned but poorly designed laws that govern the Forest Service In this book he proposes sweeping reforms in the structure of the agency and new budgetary incentives as the best way to improve management This book is a must reading for environmentalists academics forest policy analysts Forest Service officials and members of Congress **The Forest**

Service Gerald W. Williams, 2006-11-30 Established in 1905 The Forest Service is steeped in history conflict strong personalities including Theodore Roosevelt and Gifford Pinchot and the challenges of managing 193 million acres of national forests and grasslands This unique federal agency is one that combines forest management with wildlife fish recreation mining grazing and hundreds of other uses It operates in the midst of controversy and change The original intent was to protect the public forests protect the water supplies and when appropriate provide timber Much has changed over the last 100 years including many new laws but the fact that these lands are still fought over today shows the foresight of politicians foresters scientists and communities This work brings to light the many and varied activities of the agency that many people know little about in a world that is constantly changing Written by a former Forest Service national historian topics discussed in the work include wilderness and the Wilderness Act of 1964 recreation battles and interagency rivalry with the National Park Service timber management including clearcutting ecosystem management roadless area and controversies over RARE and RARE II studies fish and wildlife management including endangered species before and after the Endangered Species Act of 1973 and mining and the General Mining Act of 1872 It also discusses the future challenges forest fires water protection and restoration recreation involving the public and fish and wildlife **Reforming Federal Land Management**

Allan K. Fitzsimmons, 2012-03-15 For over a century American have created laws processes objectives priorities and rules for federal land management that often conflict with each other We now have inconsistent laws unclear priorities procedural mazes and an antiquated bureaucratic structure The result is a loss of public benefits and undesirable impact on natural resources The author argues for major changes and offers new ideas for how those changes can be accomplished *Forest Service management little has changed as a result of the fiscal year 1995 budget reforms : report to the Subcommittee on Interior and Related Agencies, Committee on Appropriations, House of Representatives ,* **The Greening Of**

Conservative America John Bliese, 2018-02-26 Is conservative environmentalism an oxymoron Is more environmental regulation good for business The Greening of Conservative America contends that the adherents to any well considered conservative political philosophy should on first principles support pro conservation pro environment policies Furthermore and pragmatically Bliese demonstrates with repeated examples how environmental protection policies actually benefit

business by stimulating greater efficiency and innovation and by spurring the creation of green products and services for new markets around the globe These ideas are applied in chapters on specific environmental issues including pollution global warming biodiversity public land management and sustainability The book concludes with criticisms of free market environmentalism and calls conservatives back to their root principles on matters of the environment Concerned citizens of any political persuasion will find much in this book to inform their views on public debates over environmental issues and policies
