Magestro,2015-07-22 Over the last few decades television programs have attempted to depict some of the more troubling elements of society with a more conscientious approach Issues that networks were once reluctant to broadcast such as sexual abuse sexual assault and rape have become frequent plot points for many popular shows Narratives that portray important social issues could potentially affect the ways individual viewers understand such incidents in the real world so it is important to pay close and critical attention to the stories about rape that are broadcast to mass audiences In *Assault on the Small Screen Representations of Sexual Violence on Prime Time Television Dramas* Molly Ann Magestro examines the ways in which police and legal dramas on network and cable channels portray rape narratives In this discussion the author focuses on eight successful shows NCIS Criminal Minds CSI The Closer Rizzoli Isles Dexter Law and Order Special Victims Unit and The Good Wife Each chapter offers a close reading and analysis of how one or more of the shows represent rape narratives and rape victims in ways that more or less address feminist understandings of rape and rape culture The arguments in each chapter explore the specific narrative content of individual series rather than a single critical approach Each of the eight shows considered within the book is the focus of its own argument as the representations of rape narratives on television are as complex as issues surrounding rape can be in the real world In a time when rape narratives are frequently making headlines taking the time to examine and understand the messages broadcast by a medium as ubiquitous as television serves an important role in developing an understanding of rape culture A significant step toward this understanding *Assault on the Small Screen* will be of interest to scholars of film and television media studies gender studies criminology and sociology

Defending Battered Women on Trial Elizabeth A. Sheehy, 2013-12-15. In the landmark Lavallee decision of 1990, the Supreme Court of Canada ruled that evidence of battered woman syndrome was admissible in establishing self-defence for women accused of killing their abusive partners. This book looks at the legal response to battered women who killed their partners in the fifteen years since Lavallee. Elizabeth Sheehy uses trial transcripts and a case study approach to tell the stories of eleven women, ten of whom killed their partners. She looks at the barriers women face to just leaving, the various ways in which self-defence was argued in these cases, and which form of expert testimony was used to frame women's experience of battering. Drawing upon a rich expanse of research from many disciplines, she highlights the limitations of the law of self-defence and the costs to women undergoing a murder trial. In a final chapter, she proposes numerous reforms. In Canada, a woman is killed every six days by her male partner, and about twelve women per year kill their male partners. By illuminating the cases of eleven women, this book highlights the barriers to leaving violent men and the practical and legal dilemmas that face battered women on trial for murder.
