1962 David Krell,2021-05 An engaging history of the 1962 baseball season and a tumultuous American year **The Situationist International in Britain** Sam Cooper,2016-08-25 This book tells for the first time the story of the Situationist International s influence and afterlives in Britain where its radical ideas have been rapturously welcomed and fiercely resisted The Situationist International presented itself as the culmination of the twentieth century avant garde tradition as the true successor of Dada and Surrealism Its grand ambition was not unfounded Though it dissolved in 1972 generations of artists and writers theorists and provocateurs punks and psychogeographers have continued its effort to confront and contest the society of the spectacle This book constructs a long cultural history beginning in the interwar period with the arrival of Surrealism to Britain moving through the countercultures of the 1950s and 1960s and finally surveying the directions in which Situationist theory and practice are being taken today It combines agile historicism with close readings of a vast range

of archival and newly excavated materials including newspaper reports underground pamphlets Psychogeographical films and experimental novels It brings to light an overlooked but ferociously productive period of British avant garde practice and demonstrates how this subterranean activity helps us to understand postwar culture late modernism and the complex internationalization of the avant garde As popular and academic interest in the Situationists grows this book offers an important contribution to the international history of the avant garde and Surrealism It will prove a valuable resource for researchers and students of English and Comparative Literature Modernism and the Avant Gardes Twentieth Century and Contemporary History Cultural Studies Art History and Political Aesthetics      **Documenting Cityscapes** Iván Villarrea

Álvarez,2015-05-12 While film studies has traditionally treated the presence of the city in film as an urban text operating inside of a cinematic one this approach has recently evolved into the study of cinema as a technology of place From this perspective Documenting Cityscapes explores the way the city has been depicted by nonfiction filmmakers since the late 1970s paying particular attention to three aesthetic tendencies documentary landscaping urban self portraits and metafilmic strategies Through the formal analysis of fifteen works from six different countries this volume investigates how the rise of subjectivity has helped to develop a kind of gaze that is closer to citizens than to the institutions and corporations responsible for recent major transformations Documenting Cityscapes therefore reveals the extent to which cinema has become an agent of urban change in which certain films not only challenge the most controversial policies of late capitalism but also are able to produce spatiality themselves      The View from the Train Patrick Keiller,2014-10-07 Robinson believed that if he looked

at it hard enough he could cause the surface of the city to reveal to him the molecular basis of historical events and in this way he hoped to see into the future In his sequence of films Patrick Keiller retraces the hidden story of the places where we live the cities and landscapes of our everyday lives Now in this brilliant collection of essays he offers a new perspective on how Britain works and sees itself He discusses the background to his work and its development from surrealism to post 2008 economic catastrophe and expands on what the films reveal Referencing writers including Benjamin and Lefebvre the essays follow his career since the late 1970s exploring themes including the surrealist perception of the city the relationship of architecture and film how cities change over time and how films represent this as well as accounts of cross country journeys involving historical figures unexpected ideas and an urgent portrait of post crash Britain      **Living in Space** Ph.
