**Yesterday's Bestsellers** Brian M. Stableford, 1998-01-01 A study of the popular fiction of the past *Prodigals and Pilgrims* Jay Fliegelman, 1982 The author traces a constellation of intimately related ideas about the nature of parental authority and filial rights of moral obligation of Scripture of the growth of the mind and the nature of historical progress from their most important English and continental expressions in a variety of literary and theological texts to their transmission reception and application in Revolutionary America and in the early national period of American culture *Current Literature*, 1916 *Must Read: Rediscovering American Bestsellers* Sarah Churchwell, Thomas Ruys Smith, 2012-08-02 What is it about certain books that makes them bestsellers Why do some of these books remain popular for centuries and others fade gently into obscurity And why is it that when scholars do turn their attention to bestsellers they seem only to be interested in the same handful of blockbusters when so many books that were once immensely popular remain under examined Addressing those and other equally pressing questions about popular literature *Must Read* is the first scholarly collection to offer both a survey of the evolution of American bestsellers as well as critical readings of some of the key texts that have shaped the American imagination since the nation's founding Focusing on a mix of enduring and forgotten bestsellers the essays in this collection consider 18th and 19th century works like *Charlotte Temple* or *Ben Hur* that were once considered epochal but are now virtually ignored 20th century favorites such as *The Sheik* and *Peyton Place* and 21st century blockbusters including the novels of Nicholas Sparks *The Kite Runner* and *The Da Vinci Code* *The Cambridge Companion to Jonathan Swift* Christopher Fox, 2003-09-11 *The Cambridge Companion to Jonathan Swift* is a specially commissioned collection of essays Arranged thematically across a range of topics this 2003 volume will deepen and extend the enjoyment and understanding of Jonathan Swift for students and scholars The thirteen essays explore crucial dimensions of Swift's life and works As well as ensuring a broad coverage of Swift's writing including early and later works as well as the better known and the lesser known the *Companion* also offers a way into current critical and theoretical issues surrounding the author Special emphasis is placed on Swift's vexed relationship with the land of his birth Ireland and on his place as a political writer in a highly politicised age The *Companion* offers a lucid introduction to these and other issues and raises questions about Swift and his world The volume features a detailed chronology and a guide to further reading

**Make-Believe** David Dickinson, 2020-01-30 I will tell you a story that will make you believe in God No story can guarantee being able to do this Yet novelists can tell stories that make us think about what we believe about God and why Despite repeated predictions of the death of the novel thousands of works of fiction are published and read in Britain each year Although Western society is less religiously observant than it was many 21st century novelists persist in pursuing theological religious and spiritual themes *Make Believe* seeks to explain why With chapters offering analyses of novels from several genres so called literary fiction historical fiction science fiction fantasy and dystopia David Dickinson discusses a

German History, 1770-1866 James J. Sheehan,1989 Now available in paperback this is a uniquely authoritative study of Germany from the mid eighteenth century to the formation of the Bismarckian Reich James J Sheehan gives an extensive account of social and cultural as well as political developments and shows that the creation of a Prussian led nation state should not be seen as natural or inevitable He shows how German history in this period was shaped by three separable yet closely linked developments the rise of sovereign territorial states the expansion of economic activity and social mobility and the emergence of a literary culture

*Colonial and Global Interfacings* Gary Backhaus,2009-03-26 How space is owned through practices of domination that emerged through colonialism and have been sustained through capitalist social relations in a post colonial context How Imperial power created

in Foucault's words a boomerang effect whereby the techniques developed to control and subjugate colonial subjects worked with such efficiency that they were imported back into Western societies to create new orders of control. How while new social movements such as the Zapatistas have remapped the rural and developed new ways to challenge and transform politics Western societies have sought to reconstruct the world order through economic processes and military strategy. How the self image of the West is shaped by its relationship with the Rest but also how the rest has found new ways of constructing identity that are now transforming the West as people images commodities and meanings flow through the global economy. The cases considered cover every continent contrast the West with the East as well as the global North with the global South and prompt us to take history seriously in the construction of the present. Addressing the current buzzwords that have spread from geography across the social sciences and the humanities this book will appeal to researchers and practitioners fascinated by the connections between cultural representation power spatiality and how the ways we have been thinking about the world are open to question.

**Ordinary Lives in the Early Caribbean** Kristen Block, 2012 Kristen Block examines the entangled histories of Spain and England in the Caribbean during the long seventeenth century focusing on colonialism's two main goals the search for profit and the call to Christian dominance. Using the stories of ordinary people Block illustrates how engaging with the powerful rhetoric and rituals of Christianity was central to survival. Isobel Criolla was a runaway slave in Cartagena who successfully lobbied the Spanish governor not to return her to an abusive mistress. Nicolas Burundel was a French Calvinist who served as henchman to the Spanish governor of Jamaica before his arrest by the Inquisition for heresy. Henry Whistler was an English sailor sent to the Caribbean under Oliver Cromwell's plan for holy war against Catholic Spain. Yaff and Nell were slaves who served a Quaker plantation owner Lewis Morris in Barbados. Seen from their on the ground perspective the development of modern capitalism race and Christianity emerges as a story of negotiation contingency humanity and the quest for community. Ordinary Lives in the Early Caribbean works in both a comparative and an integrative Atlantic world frame drawing on archival sources from Spain England Barbados Colombia and the United States. It pushes the boundaries of how historians read silences in the archive asking difficult questions about how self censorship anxiety and shame have shaped the historical record. The book also encourages readers to expand their concept of religious history beyond a focus on theology ideals and pious exemplars to examine the communal efforts of pirates smugglers slaves and adventurers who together shaped the Caribbean's emerging moral economy.
