recover the reality of the wars that are inflicted on us and denied to us We experience not the ideal war of philosophers but wars of class race sex and gender wars of civilization and the environment wars of subjectivity that are raging within populations and that constitute the secret motor of liberal governmentality By naming the enemy refugees migrants Muslims the new fascisms establish their hegemony on the processes of political subjectivation by reducing them to racist sexist and xenophobic slogans fanning the flames of war among the poor and maintaining the total war philosophy of neoliberalism Because war and fascism are the repressed elements of post 68 thought Alliez and Lazzarato not only read the history of capital through war but also read war itself through the strange revolution of 68 which made possible the passage from war in the singular to a plurality of wars and from wars to the construction of new war machines against contemporary financialization It is a question of pushing 68 thought beyond its own limits and redirecting it towards a new pragmatics of struggle linked to the continuous war of capital It is especially important for us to prepare ourselves for the battles we will have to fight if we do not want to be always defeated

Dr Paul Griffiths ,Dr. Mitt Nowshade Kabir ,2019-10-31 *When Robots Rule Us All* Brendan Main,2025-01-20 Have you ever felt like your phone was out to get you Turns out you were on to something After humanity loses the Robot Wars a couple of nostalgic survivors tell tales of the everyday struggles with technology where it all began It seems like only yesterday that we were driving with a murderous GPS shopping with a self aware self checkout and having a magical learning experience on the internet with absolutely no downsides whatsoever Remember the good ol days before the Giant Robot Ants in this low tech laugh a minute vignette comedy *Rule of the Robots* Martin Ford,2021-09-14 The New

York Times bestselling author of *Rise of the Robots* shows what happens as AI takes over our lives If you have a smartphone you have AI in your pocket AI is impossible to avoid online And it has already changed everything from how doctors diagnose disease to how you interact with friends or read the news But in *Rule of the Robots* Martin Ford argues that the true revolution is yet to come In this sequel to his prescient New York Times bestseller *Rise of the Robots* Ford presents us with a striking vision of the very near future He argues that AI is a uniquely powerful technology that is altering every dimension of human life often for the better For example advanced science is being done by machines solving devilish problems in molecular biology that humans could not and AI can help us fight climate change or the next pandemic It also has a capacity for profound harm Deep fakes AI generated audio or video of events that never happened are poised to cause havoc throughout society AI empowers authoritarian regimes like China with unprecedented mechanisms for social control And AI can be deeply biased learning bigoted attitudes from us and perpetuating them In short this is not a technology to simply embrace or let others worry about The machines are coming and they won't stop and each of us needs to know what that means if we are to thrive in the twenty first century And *Rule of the Robots* is the essential guide to all of it both AI and the future of our economy our politics our lives
