Rock Hudson A Bio Bibliography:

Rock Hudson Brenda Scott Royce, 1995-02-28 Rock Hudson rose to stardom as the virile hero of adventure films and he then gained a flurry of female fans by starring in melodramas like *Magnificent Obsession*. He earned an Oscar nomination for his role in *Giant*, starred in successful romantic comedies and had a productive television and stage career. This book provides full information about his many performances and charts his life and career up to his death from AIDS. Rock Hudson was a movie giant, one of the biggest stars Hollywood ever produced. He gained early fame as the romantic hero of adventure films and melodramas such as *Magnificent Obsession* (1954). He then tackled serious drama in *Giant* (1956) for which he earned an Academy Award nomination. With the success of *Pillow Talk* (1959) he entered a new genre for which he would become best known: the sex comedy. He also had a successful stage and television career. This book charts Rock Hudson's rise as a celebrity until his death from AIDS. A biography opens the volume, followed by chapters which chronicle his work in film, television, radio, and the stage. Each chapter contains descriptions of Hudson's individual performances, with entries providing cast and credit information, plot summaries, excerpts from reviews, and critical commentary. The volume also includes a listing of Hudson's awards and an annotated bibliography of additional sources of information. Howard Hawks Todd

McCarthy, 2007-12-01 The first major biography of one of Old Hollywood's greatest directors. Sometime partner of the eccentric Howard Hughes, drinking buddy of William Faulkner and Ernest Hemingway, an inveterate gambler and a notorious liar, Howard Hawks was the most modern of the great masters and one of the first directors to declare his independence from the major studios. He played Svengali to Lauren Bacall, Montgomery Clift, and others, but Hawks's greatest creation may have been himself. As *The Atlantic Monthly* noted, Todd McCarthy has gone further than anyone else in sorting out the truths and lies of the life, the skills, and the insight and the self-deceptions of the work. A fluent biography of the great director, a frequently rotten guy, but one whose artistic independence and standards of film morality never failed. *The New York Times Book Review*: Hawks's life, until now rather an enigma, has been put into focus and made one with his art. In Todd McCarthy's wise and funny *Howard Hawks*, *The Wall Street Journal* Excellent. A respectful, exhaustive, and appropriately smartass look at Hollywood's most versatile director. *Newsweek* AIDS Narratives Steven F. Kruger, 2013-10-28 This is the first book-length

study of the rich fiction that has emerged from the AIDS crisis. Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality, such as the construction of AIDS as a disease of gay men, part of a battle over masculinity, and thus largely excluding women with AIDS from public attention, the book considers how such discourses have shaped narrative understandings of AIDS. On the one hand, AIDS is seen as an invariably fatal weakening of an individual's bodily defenses, a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness. On the other hand, AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness. The fiction of AIDS depends upon these two narratives, with one major subgenre of AIDS novel presenting narratives of personal illness.

decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it

Giant Don Graham, 2018-04-10 A larger than life narrative of the making of the classic film marking the rise of America as a superpower the ascent of Hollywood celebrity and the flowering of Texas culture as mythology Featuring James Dean Rock Hudson and Elizabeth Taylor *Giant* is an epic film of fame and materialism based around the discovery of oil at Spindletop and the establishment of the King Ranch of south Texas Isolating his star cast in the wilds of West Texas director George Stevens brought together a volatile mix of egos insecurities sexual proclivities and talent Stevens knew he was overwhelmed with Hudson's promiscuity

Taylor's high diva dom and Dean's egotistical eccentricity. Yet he coaxed performances out of them that made cinematic history, winning Stevens the Academy Award for Best Director and garnering nine other nominations, including a nomination for Best Actor for James Dean who died before the film was finished. In this compelling and impeccably researched narrative history of the making of the film, Don Graham chronicles the stories of Stevens, whose trauma in World War II intensified his ambition to make films that would tell the story of America; Edna Ferber, a considerable literary celebrity who meets her match in the imposing Robert Kleberg, proprietor of the vast King Ranch; and Glenn McCarthy, an American oil tycoon and Errol Flynn lookalike with a taste for Hollywood. Drawing on archival sources, Graham's *Giant* is a comprehensive depiction of the film's production, showing readers how reality became fiction and fiction became cinema.

Korean War Filmography
Robert J. Lentz, 2016-05-01 The Korean experience changed the way Americans viewed war. The lack of a clear-cut victory inspired filmmakers to try to make sense of fighting another country's civil war and risking American lives for an unpopular cause. This filmography details more than 90 English language films. Each entry includes complete cast and credit listings, a plot synopsis, evaluation, review snippets, and notice of video availability. This book places each film in its historical context, assesses the essential truthfulness of each film, and evaluates its entertainment value and discusses how and why Korean War films differ from other Hollywood war genres. Four appendices list the films by chronology, production company, and studio; level of historical accuracy; and subject and theme. Additional appendices list films with incidental references to the Korean War, documentaries on the Korean War, and South Korean films about the war. Photographs, a bibliography, and an index are included.

Bowker's Best Reference Books: Author index. Title index, 2005 Contains approximately 20,000 mostly English language sources for academic libraries of all sizes.

Guide to American Cinema, 1930-1965 Thomas R. Whissen, 1998 These thorough bibliographic entries serve as a guide for those who wish to do further research into the first 35 years of talking pictures. A brief history of this era of films, the studio system, and the society of which they were a by-product adds context to the entries and accents their significance. The author has chosen 1965 as the cutoff date because it marked the end of the studio system and the beginning of the independent filmmaking era. This guide highlights the people and the art of the glamorous days of filmmaking in which actors and actresses set the standards by which all actors have been measured since. The abundance of data collected in this guide reflects the exhaustive wealth of films and personalities associated with the golden age of moviemaking. Based on certain criteria such as the amount and availability of bibliographical material, notoriety, critical acclaim, and the number and quality of awards, the author has carefully selected the works and people included in this reference. Current and comprehensive, this reference tool includes bibliographical information that provides both positive and negative criticism and appendices including an extensive general bibliography, lists of film festivals around the world, schools offering advanced degrees in film, and film museums and archives in the United
