its performers as skilled musicians The AFM never actively organized rock n roll musicians although recruiting them would have been in the union s economic interest In Tell Tchaikovsky the News Michael James Roberts argues that the reasons that the union failed to act in its own interest lay in its culture in the opinions of its leadership and elite rank and file members Explaining the bias of union members most of whom were classical or jazz music performers against rock music and musicians Roberts addresses issues of race and class questions of what qualified someone as a skilled or professional musician and the threat that records central to rock n roll posed to AFM members who had long privileged live performances Roberts contends that by rejecting rock n rollers for two decades the once formidable American Federation of Musicians lost their clout within the music industry
