Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book s premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789 1914 provides a much needed rethinking of modern masculinity in this period Art Auguste Rodin,2023-11-15 Art by Auguste Rodin translated by Katharine Waldo Douglas Fedden Published by Good Press Good Press publishes a wide range of titles that encompasses every genre From well known classics literary fiction and non fiction to forgotten or yet undiscovered gems of world literature we issue the books that need to be read Each Good Press edition has been meticulously edited and formatted to boost readability for all e readers and devices Our goal is to produce eBooks that are user friendly and accessible to

Galen A. Johnson,2010 In this elegant new study Galen Johnson retrieves the concept of the beautiful through the framework of Merleau Ponty s aesthetics Although Merleau Ponty seldom spoke directly of beauty his philosophy is essentially about the beautiful In Johnson s formulation the ontology of Flesh as element and the ontology of the Beautiful as elemental are folded together for Desire Love and Beauty are part of the fabric of the world s element Flesh itself the term at which Merleau Ponty arrived to replace Substance Matter or Life as the name of Being Merleau Ponty s Eye and Mind is at the core of the book so Johnson engages as Merleau Ponty did the writings and visual work of Paul C zanne Auguste Rodin and Paul Klee as well as Rilke s commentary on C zanne and Rodin From these widely varying aesthetics emerge the fundamental themes of the retrieval of the beautiful desire repetition difference rhythm and the sublime The third part of Johnson s book takes each of these up in turn bringing Merleau Ponty s aesthetic thinking into dialogue with classical philosophy as well as Sartre Heidegger Nietzsche and Deleuze Johnson concludes his final chapter with a direct dialogue with Kant and Merleau Ponty and also Lyotard on the subject of the beautiful and the sublime As we experience with Rodin s Balzac beauty and the sublime blend into one another when the beautiful grows powerful majestic mysterious and transcendent Museums of the Mind: German Modernity and the Dynamics of Collecting , **Obesity in Perspective** ,1973 *Since Meiji* J. Thomas Rimer,2011-10-31 Research outside Japan on the history and significance of the Japanese visual arts since the beginning of the Meiji period 1868 has been with the exception of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862 1913 whose Book of Tea is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus

bringing to light larger trends in the Japanese visual arts that have made possible the vitality range and striking achievements created during this turbulent and lively period Contributors Stephen Addiss Chiaki Ajioka John Clark Ellen Conant Mikiko Hirayama Michael Marra Jonathan Reynolds J Thomas Rimer Audrey Yoshiko Seo Eric C Shiner Lawrence Smith Shuji Tanaka Reiko Tomii Mayu Tsuruya Toshio Watanabe Gennifer Weisenfeld Bert Winther Tamaki Emiko Yamanashi

Java Software Development with Event B Néstor Cataño Collazos, 2022-05-31 The cost of fixing software design flaws after the completion of a software product is so high that it is vital to come up with ways to detect software design flaws in the early stages of software development for instance during the software requirements the analysis activity or during software design before coding starts It is not uncommon that software requirements are ambiguous or contradict each other Ambiguity is exacerbated by the fact that software requirements are typically written in a natural language which is not tied to any formal semantics A palliative to the ambiguity of software requirements is to restrict their syntax to boilerplates textual templates with placeholders However as informal requirements do not enjoy any particular semantics no essential properties about them or about the system they attempt to describe can be proven easily Formal methods are an alternative to address this problem They offer a range of mathematical techniques and mathematical tools to validate software requirements in the early stages of software development This book is a living proof of the use of formal methods to develop software The particular formalisms that we use are EVENT B and refinement calculus In short i software requirements as written as User Stories ii they are ported to formal specifications iii they are refined as desired iv they are implemented in the form of a prototype and finally v they are tested for inconsistencies If some unit test fails then informal as well as formal specifications of the software system are revisited and evolved This book presents a case study of software development of a chat system with EVENT B and a case study of formal proof of properties of a social network

Musico-Poetics in Perspective, 2021-11-08 The volume is dedicated to the memory of the late Calvin S Brown of the University of Georgia author of the first systematically conceived survey Music and Literature A Comparison of the Arts 1948 of the branch of interart studies now generally known as Melopoetics Part One consists of six original contributions by experts from Austria Belgium France and the United States Authored by a novelist and a composer scholar respectively the first two essays Jean Libis s Inspiration musicale et composition littéraire R flexions sur un roman schubertien and David M Hertz s The Composer s Musico Literary Experience Reflections on Song Writing focus not surprisingly on the creative process The third piece Francis Claudon s review of the pertinent research done between 1970 and 1990 complements the honoree s analogous report on the preceding decades reprinted in the present volume whereas the fourth Jean Louis Cupers M taphores de l'cho et de l'ombre Regards sur l'volution des études musico littéraires surveys the plethora of metaphorical applications in music and literature of two significant natural phenomena the one acoustic and the other optical Linked to each other the two remaining papers Ulrich Weisstein s The Miracle of Interconnectedness Calvin S Brown a Critical Biography and Walter

Bernhart's A Profile in Retrospect Calvin S Brown as a Musico Literary Scholar offer critical accounts of the honoree's theoretical and methodological stance as viewed in the first case from a biographical angle and in the second in the light of subsequent scholarly practice Part Two bundles eleven of Professor Brown's previously uncollected articles covering a period of nearly half a century of significant scholarly activity in the field The selection demonstrates Brown's poignant interest in transpositions of art exemplifying the musicalization of literature in the formal and structural rather than thematic domain as culminating in his trenchant critique of music in poetry as understood somewhat naively by Mallarmé and his critics and to a slightly lesser extent by his translation of Josef Weinhebers variations on Friedrich Hölderlin's ode An die Parzen Just as Professor Brown's successive anatomies of melopoetic theory and practice illustrate his steadily growing sophistication and the maturing of his mind so his Bloomington lecture The Writing and Reading of Language and Music Thoughts on Some Parallels Between two Artistic Media reflects his unique ability to assemble and organize vast materials and comprehensive data in such a way as to reveal the underlying pattern

Film Moments James Walters, Tom Brown, 2019-07-25

Film is made of moments. In its earliest form the cinema was a moment mere seconds recorded and projected into the darkness. Even as film has developed into today's complex and intricate medium, it is the brief, temporary and transitory that combines to create the whole. Our memories of films are composed of the moments we deem to be crucial touchstones for our understanding and appreciation. Moments matter. The 38 specially commissioned essays in *Film Moments* examine a wide selection of key scenes across a broad spectrum of national cinemas, historical periods and genres, featuring films by renowned auteurs including Alfred Hitchcock, Jean Renoir and Vincente Minnelli, and important contemporary directors such as Pedro Costa, Zhang Ke Jia and Quentin Tarantino, addressing films including *City Lights*, *Gone with the Wind*, *The Wizard of Oz*, *The Night of the Hunter*, *Wild Strawberries*, *8 1 2*, *Bonnie and Clyde*, *Star Wars*, *Conte d t United 93* and *Lord of the Rings: Return of the King*. *Film Moments* provides both an enlightening introduction for students to the diversity of approaches and concerns in the study of film and a dynamic and vibrant account of key film sequences for anyone interested in enhancing their understanding of cinema.
