The Art of Nonfiction Movie Making Jeffrey Friedman, Rob Epstein, Sharon Wood, 2012-08-17 The past few years have featured such blockbusters as Super Size Me Fahrenheit 9 11 Sicko March of the Penguins and An Inconvenient Truth And as news articles proclaim a new era in the history of documentary films more and more new directors are making their first film a nonfiction one But in addition to posing all of the usual challenges inherent to more standard filmmaking documentaries also present unique problems that need to be understood from the outset Where does the idea come from How do you raise the money How much money do you need What visual style is best suited to the story What are the legal issues involved And how can a film reach that all important milestone and find a willing distributor Epstein Friedman and Wood tackle all of these important questions with examples and anecdotes from their own careers The result is an informative and entertaining guide for those just starting out and an enlightening read for anyone interested in a behind the scenes look at this newly

reinvigorated field of film **Liberty Means Freedom for All** Steven H. Propp, 2012-11 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science It s an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his settled view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand s philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved
