inside the artist and it operates in the mind not in standards or techniques Creative writers navigate thresholds in consciousness as they develop their arts practice Craft Consciousness and Artistic Practice in Creative Writing explores what it is to be an artist as it traces radical feminist and culturally embedded traditions in craft The new term craft consciousness identifies the nexus from which writers explore making processes and practitioner knowledge Writers as with all artists create and reimagine themselves anew and it is in this perpetual state of becoming that they find ways to enlarge their sense of artistry through an exploration of forms processes and mediums beyond the written word For writers this book initiates a reexamination of the mission of creative writing through disrupting patriarchal racist colonialist ableist and capitalist associations with dominant craft Drawing from twenty five interviews with living artists outside of writing and in a host of fields from conceptual art to leatherwork and dance the book shines a light on how the processes associated with craft are embodied Craft is an internalized matrix it need not be commodified for the marketplace or codified in the standards necessitated by institutions of higher education By redesigning writing workshops and MFA PhD programs through craft consciousness new potentials and collaborations emerge and it becomes more conceivable to imagine dynamic inclusive relationships between writers scientists and other artists **Designing and Facilitating Workshops with Intentionality**

The SAGE Encyclopedia of African Cultural Heritage in North America Mwalimu J. Shujaa,Kenya J. Shujaa,2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participate in the creation of African cultural history Entries focus on illuminating Africanisms cultural retentions traceable to an African origin and cultural continuities ongoing practices and processes through which African culture continues to be created and formed Thus the focus is more culturally specific and less concerned with the broader transatlantic demographic political and geographic issues that are the focus of similar recent reference works We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity

Literary Depictions of the Scribal Profession in the Story of Ahiqar and Jeremiah 36 James D. Moore,2021-12-06 This is the first study to compare the allusions to scribal culture found in the Aramaic Story of Ahiqar and the Hebrew Tale of Jeremiah and Baruch s Scroll in Jeremiah 36 It is shown that disguised in the royal propagandistic message of Ahiqar is a sophisticated Aramaic critique on the social practices of Akkadian scribal culture Jeremiah 36 however uses loci of scribal activity as well as allusions to scribal interactions and the techniques of the scribal craft to construct a subversive tale When studied from a comparative perspective it is argued that the Story of Ahiqar which has long been associated with the well known court tale genre is an example of a subgenre which is here called the scribal conflict narrative and Jeremiah 36 is found to be a second example of or a response to it This observation is arrived at by means of rigorous manuscript examination combined with narrative analysis which identified among other things the

development of autobiographical and biographical styles of the same ancient narrative This study not only provides new perspectives on scribal culture Ahiqar studies and Jeremiah studies but it may have far reaching implications for other ancient sources
