## **Role Of Ngos Under Authoritarian Political Systems:**

**The Role of NGOs under Authoritarian Political Systems** S. Cleary,1997-07-28 The book discusses five examples of NGO action in four countries Indonesia Philippines South Africa and Sri Lanka with authoritarian regimes It poses the question of whose interest was served by these activities the beneficiary group or the NGOs and argues that where these coincided identifiable benefits accrued to beneficiary groups This underlines the importance of ensuring that NGOs are accountable to the communities with which they seek to work

**Non-Governmental Organizations in the Global System** George Kaloudis,2021-05-04 Non state actors are not new but they have never before reached their present strength Among the plethora of non state actors are thousands if not millions of non governmental organizations NGOs which play a significant role in the global system and whose role is likely to increase in the future The proliferation of NGOs is of such scale scholars refer to it as a global associational revolution By considering NGOs throughout much of the world Kaloudis focuses on the reasons for the growth of NGOs particularly since the end of the Cold War the functions of NGOs assessment of NGOs and their place in the global system The author also shows the ambivalent and often paradoxical role of NGOs which is reflected in the works of scholars and the actual behavior of NGOs themselves

**Governance and Civil Society in Myanmar** Helen James,2005 This book by focusing on education health and environment and the institutions which formulate and deliver policy shows how the international community can make a significant difference to strengthening Myanmar s Burma s civil society

**Ethical Questions and International NGOs** Keith Horton,Chris Roche,2010-03-29 In recent decades there has been a great expansion in the number size and influence of International Non Governmental Organisations INGOs involved in international relief and development These changes have led to increased scrutiny of such organisations and this scrutiny together with increasing reflection by INGOs themselves and their staff on their own practice has helped to highlight a number of pressing ethical questions such organisations face such as should INGOs attempt to provide emergency assistance even when doing so risks helping to fuel further conflict How should INGOs manage any differences between their values and those of the people they seek to benefit How open and honest should INGOs be about their own uncertainties and failures This book consists of sustained reflections on such questions It derives from a workshop held at Melbourne University in July 2007 that brought together a group of people for the most part reflective practitioners and moral and political philosophers to discuss such questions It explores honestly some of the current challenges and dilemmas that INGOs face and also suggests some new ideas for meeting these challenges Our hope is that the kind of explicit reflection on the ethical issues INGOs face exemplified in this publication will help to promote a wider debate about these issues a debate that in turn will help INGO managers and others to make better wiser more ethically informed decisions

**Global Society in Transition:An International Politics Reader** Daniel N. Nelson,Laura Neack,2002-05-13 International Politics A Journal of

Transnational Issues and Global Problems has since 1997 published an extraordinary array of path breaking analyses about the world's political metamorphosis. Featuring scholarship that transcends boundaries of states and disciplines, International Politics editors and contributors have joined to assemble from the journal's last few volumes a far reaching portrait of new actors, identities, norms and institutions that populate a stage once confined to states, power and national interests. Further interventions to build states, make or keep the peace, impose sanctions or save currencies are examined, as are the institutional enlargements at the forefront of policy in Europe. This book offers a wealth of policy relevant scholarship about a world in making, not yet detached from Cold War or even Westphalian roots but certainly in process towards a qualitatively different global system. All published after rigorous peer review, chapters in Global Society in Transition will provide comparative politics, international relations and world affairs courses at undergraduate and graduate level with instant access to the best of new research and innovative thinking in these fields.

The Moral Demands of Affluence Garrett Cullity, 2006-09-21. Given that there is a forceful case for thinking that the affluent are morally required to devote a substantial proportion of what they have to helping the poor, Garrett Cullity examines, refines and defends an argument of this form. He then identifies its limits.

Lobbying the Autocrat Max Grömping, Jessica C. Teets, 2023-07-18. Although authoritarian countries often repress independent citizen activity, lobbying by civil society organizations is actually a widespread phenomenon. Using case studies such as China, Russia, Belarus, Cambodia, Malaysia, Montenegro, Turkey and Zimbabwe, *Lobbying the Autocrat* shows that citizen advocacy organizations carve out niches in the authoritarian policy process, even influencing policy outcomes. The cases cover a range of autocratic regime types: one party, multi party, personalist, on different continents and encompass different systems of government to explore citizen advocacy ranging from issues such as social welfare, women's rights, election reform, environmental protection and land rights. They show how civil society has developed adaptive capacities to the changing levels of political repression and built resilience through tactful contention strategies. Thus, within the bounds set by the authoritarian regimes, adaptive lobbying may still bring about localized responsiveness and representation. However, the challenging conditions of authoritarian advocacy systems identified throughout this volume present challenges for both advocates and autocrats alike. The former are pushed by an environment of constant threat and uncertainty into a precarious dance with the dictator, just the right amount of acquiescence and assertiveness, private persuasion and public pressure, and the flexibility to change quickly to suit different situations. An adaptive lobbyist survives and may even thrive in such conditions while others often face dire consequences. For the autocrat, on the other hand, the more they stifle the associational sphere in an effort to prevent mass mobilization, the less they will reap the informational benefits associated with it. This volume synthesizes the findings of the comparative cases to build a framework for understanding how civil society effectively lobbies inside authoritarian countries.

**NGOs, Policy Networks and Political Opportunities in Hybrid Regimes** Mohsen Mohemany, 2021-02-14. This book discusses the diversity and

resilience in a hybrid regime where civil society organisations are either provided with complex sets of opportunities or face severe constraints By studying the case of Iran between 1997 and 2013 it shows how the Islamic Republic regime went into two opposite directions under two presidencies and played in between supporting and suppressing advocacy NGOs After accommodating a novel theoretical framework enabling scholars to identify the contributing factors of diversity in the regime four case study chapters are designated for comparing the women s rights and environmental NGOs across local and national governments These two political and technical policy areas demonstrate the different scopes of freedoms for advocacy NGOs The contrasting narratives of the civil activists and policymakers imply paradoxes and shifts in the arrangement of opportunities for action and advocacy although the leadership and structure of the regime remained unchanged during the period of study

**Building Civil Society in Authoritarian China** John W. Tai,2014-08-28 How is modern civil society created There are few contemporary studies on this important question and when it is addressed scholars tend to emphasize the institutional environment that facilitates a modern civil society However there is a need for a new perspective on this issue Contemporary China where a modern civil society remains in a nascent stage offers a valuable site to seek new answers Through a comparative analysis of nongovernmental organizations NGOs in today s China this study shows the importance of the human factor notably the NGO leadership in the establishment of a modern civil society In particular in recognition of the social nature of NGOs this study engages in a comparative examination of Chinese NGO leaders state linkage media connections and international ties in order to better understand how each factor contributes to effective NGOs

**The State, Literacy, and Popular Education in Chile, 1964-1990** Robert Austin,2003-01-01 The popular education and adult literacy movements in Chile have historically represented competing paths toward a literate society one born and nurtured through bitter nineteenth century labor struggles the other a compensatory effort by the modern state to limit the political potential of literacy Robert Austin s book explores the contest between the state and popular education in three paradigmatic Latin American regimes that of Eduardo Frei Montalva Christian Democrat 1964 70 Salvador Allende Socialist 1970 73 and Augusto Pinochet Dictator 1973 90 Robert Austin s engaging narrative captures the relationship between the Chilean state formal and non formal literacy and popular education from the demise of liberal capitalism to the consolidation of neoliberalism This remarkable investigation of the dynamic link between the historical process literacy and pedagogy celebrates popular education s victory in securing the inclusion and subsequent empowerment of women and ethnic minorities The State Literacy and Popular Education in Chile 1964 1990 will be of great interest to political scientists cultural historians and scholars of education

**Civil Society and Political Reform in Lebanon and Libya** Carmen Geha,2016-02-12 Lebanon and Libya have undergone critical political events in recent years However demands for reform from civic institutions during these transitions have not led to concrete political decisions Civil Society and Political Reform in Lebanon and Libya reveals the deeply entrenched historical patterns and elements of continuity that have led to path

dependent outcomes in the political transitions of both countries Motivated by personal experiences as an activist in Lebanon the author draws together a wide range of data from participant observations nation wide surveys interviews and focus groups in a careful analysis of these two civil society led reform campaigns The study demonstrates how the combination of weak states and power sharing agreements marginalizes civic organisations and poses institutional constraints on the likelihood of reform Written by an active participant in the political events discussed this book offers new insight into two countries which present comparable and informative case studies As such it is a valuable resource for students scholars and policymakers interested in civil society politics and reform in the Middle East and North Africa

The Implications of Freedom Wiebe Nauta, 2004 The term NGO is so widely used nowadays that it has effectively lost its meaning Therefore in order to put back flesh on what has become a very bare skeleton this book attempts to portray a real organization that originated during the anti apartheid struggle in South Africa By meticulously studying this land sector NGO over a prolonged period of time much is revealed about its internal dynamics and the changing relationships with actors in the state civil society and the market This embedded tale re introduces a historical political and socio economic dimension in the analysis of NGOs and shows that they are not as value driven autonomous accountable and non profit as is often claimed
