

The Role of the G8 in International Peace and Security

Risto E. J. Penttilä

Role Of The G8 In International Peace And Security

Adam D.M. Svendsen

Role Of The G8 In International Peace And Security:

The Role of the G8 in International Peace and Security Risto Penttilä, 2013 This Adelphi Paper is the first concise yet comprehensive analysis of the role of the G8 in international peace and security. It argues that the G7+8 has a long and impressive history in the field of international security. The G7+8 has for example spearheaded the introduction of low politics and soft security to the top table of great power diplomacy and integrated Japan and later Russia into the realm of Western security discussions. In questions of war and peace the G8 does not command the legitimacy of the UN Security Council but for the international community is a more acceptable vehicle than unilateral action. As such the G8 can be seen as a not worthy second best option after the UN Security Council. This Paper further argues that China should be admitted into the G8 first as an observer and later as a member. There is also a strong argument for the European Union to have one seat at the G8 even if such a change does not seem realistic today. The G8 bears great resemblance to the 19th century Concert of Europe. Whether it will assume a similar role in the 21st century depends in the final analysis on whether the United States welcomes such a role for the G8.

The Role of the G8 in International Peace and Security Risto E. J. Penttilä, 2003 This is the first concise yet comprehensive analysis of the role of the G8 in international peace and security, arguing that the G8 is well placed to play an increasingly important role. The book features a section on the policy of each G8 nation and chapters on China and the EU, meaning that it will interest foreign policy experts in all ten areas. *China, Japan and Regional Leadership in East Asia* Christopher M. Dent, 2010-01-01 *China, Japan and Regional Leadership in East Asia* is a compilation which provides a necessary and welcome update to the Asian regionalism debates of the last decade, bringing together notable experts in Asian area studies and comparative foreign policy to provide many new insights, essential reading both for practitioners of Asian studies and those concerned with the role of comparative regionalism in modern international relations. Marc Lanteigne *East Asia: An International Quarterly* this book is strongly recommended reading for everyone interested in Japan, China relations, leadership and East Asia. It proves that looking at complex issues from a variety of angles does bring a much deeper understanding. I thoroughly enjoyed it. Marie S. Derberg *Journal of Japanese Studies* This book addresses one of the most intriguing but also under researched issues of the future of the Asian strategic landscape: who will lead the region and replace US leadership? Japan and China and what kind of leadership do we have to expect? The authors come to the conclusion that it is a matrix or combination of leadership options rather than a single leadership type, depending on issue domains, governance structure and geospatial scales. The conclusions by Christopher Dent admirably draw the theoretical and empirical issues together. Reinhard Drifte *Pacific Affairs* This book considers themes, evidence and ideas relating to the prospects for regional leadership in East Asia, with particular reference to China and Japan assuming regional leader/actor roles. Key issues discussed by the list of distinguished contributors include the extent to which there is an East Asian region to lead, China-Japan relations, different aspects of Japan and China's positions in the East Asia region, how the seemingly

inexorable rise of China is being addressed within the region how China and Japan have explored paths of regional leadership through certain regional and multilateral organisations and frameworks the position of certain intermediary powers i e the United States and Korea with regards to regional leadership diplomacy in East Asia Invaluably the concluding chapter brings together the main findings of the book and presents new analytical approaches for studying the nature of and prospects for leadership in East Asia China Japan and Regional Leadership in East Asia will be essential reading for upper level undergraduate and postgraduate students and researchers of international relations regional studies international political economy and economics as well as Asian and development studies **Global Security Watch—China** Richard

Weitz,2013-07-10 This book presents a comprehensive overview of China s main foreign and defense policies providing students policy makers and general readers with an up to date assessment of this most important country Global Security Watch China presents a comprehensive overview of the main foreign and defense policies of the People s Republic of China emphasizing the political military developments in the modern era since the 1989 Tiananmen Square incident It provides a historical overview in the first chapter followed by information on the domestic factors that affect Chinese national security such as economics society and politics China s external objectives its global energy strategy and its defense policies and security objectives Drawing upon a wide variety of domestic and foreign primary sources the work details China s policies and its relationships with the United States Europe the Middle East Latin America Asia and Eurasia It includes biographical sketches of select individuals of importance to modern Chinese history such as Mao Zedong and Deng Xiaoping Appropriate for audiences ranging from university students to policy makers to general readers this book is an excellent resource for academic libraries and suitable as a textbook for courses on contemporary Chinese politics and international relations

The Group of 7/8 Hugo Dobson,2006-12-18 Hugo Dobson examines the G8 and its position in global governance in terms of its relationship to the more formal and truly institutionalized mechanisms of global governance the United Nations World Bank and World Trade Organization Divided into six informative chapters this volume provides an innovative contribution to the dynamics of global governance and is especially relevant to promoting this area of investigation in the future **International Organizations and the Implementation of the Responsibility to Protect** Daniel Silander,Don

Wallace,2015-04-17 This book seeks to understand the obligation of the international community to implement the principles of the Responsibility to Protect R2P With a focus on the humanitarian crisis in Syria the volume examines what formal responsibility and actual capability international institutions have to protect and prevent civilians from systematic mass atrocities and presents an analysis of several prominent international organizations IOs Each chapter focuses on a specific organization and explores their formal responsibilities and how these pertain to the obligations of the R2P Existing capabilities and actual abilities to address the challenges of R2P are analysed by looking at these issues before during and after the occurrence of the humanitarian crisis in Syria With the UN not fully engaged in the Syrian conflict the systematic

human rights abuses have engendered greater attention on other organizations This volume argues that if the UN Security Council's inactions result in an abdication of responsibilities under the UN Charter there should not only be a discussion of how the UN must alter its approach but also an examination of whether there are alternative R2P paths for other MNOs to take in the name of international peace and human security This book will be of much interest to students of R2P

humanitarian intervention international organisations Middle Eastern politics and security studies *War and Governance* Richard Weitz, 2011-10-05 An insightful and expert assessment examines how best to end and avert wars How do we avoid war To arrive at an answer master analyst Richard Weitz explores the ways nations international organizations and individuals have sought to bring order to an inherently disorderly phenomenon potential and actual violent conflict among organized political entities Specifically *War and Governance International Security in a Changing World Order* analyzes a number of critical issues such as whether regional security institutions have distinct advantages and liabilities in promoting international security as compared with universal organizations like the United Nations Other important questions are addressed as well How will international organizations such as the UN EU and NATO change the nature of war in the 21st century and be changed by it What role might less formal institutions and nongovernmental organizations play in peacemaking Will the nation state remain the most important international security actor The book ends with a gap analysis that identifies incongruities between international needs and capabilities and suggests ways to overcome them

International Handbook on Informal Governance Thomas Christiansen, Christine Neuhold, 2012-01-01 This volume provides a welcome overview of the diverse ways in which informal practices and norms shape policy in national states the European Union and international relations The wide range of cases that feature in the volume point to the normative and substantive importance of informality This volume is a valuable contribution to a fascinating and under researched topic Gary Marks University of North Carolina Chapel Hill US and VU Amsterdam The Netherlands Acknowledging that governance relies not only on formal rules and institutions but to a significant degree also on informal practices and arrangements this unique Handbook examines and analyses a wide variety of theoretical conceptual and normative perspectives on informal governance The insights arising from this focus on informal governance are discussed from various disciplinary perspectives within different policy domains and in a number of regional and global contexts This Handbook is an important contribution that will put informal governance firmly on the map of academic scholarship with its review of the range of the different uses and effects of informal arrangements across the globe Bringing together multidisciplinary contributions on informal governance arrangements this Handbook will appeal to postgraduate students in political science and scholars within the field of political science and global governance **Coalitions of the Willing and International Law** Alejandro

Rodiles, 2018-08-30 An analysis of the role of the interplay between formality and informality in shaping the current state of international law *Accountability for Effectiveness in Global Governance* John Kirton, Marina Larionova, 2017-11-22 The

global community confronts a comprehensive and interconnected array of compelling economic development and security challenges which require effective global governance At the centre of world governance stand the new plurilateral summit institutions the G8 and G20 and UN summits on subjects such as sustainable development and climate change Many observers and participants regard the performance of these summits as inadequate and doubt their ability to cope with increasingly complex and numerous global challenges This book critically examines how effectively central global institutions comply with their commitments and how their effectiveness can be improved through accountability measures designed to raise compliance and deliver better results Expert contributors assess compliance and accountability at the key global institutions to provide an important resource for policymakers and scholars in political science governance and accountability For additional information and data relating to the book please visit <http://www.g7g20.utoronto.ca/accountability>

Intelligence Cooperation and the War on Terror Adam D.M. Svendsen, 2009-10-16 This book provides an in depth analysis of UK US intelligence cooperation in the post 9 11 world Seeking to connect an analysis of intelligence liaison with the wider realm of Anglo American Relations the book draws on a wide range of interviews and consultations with key actors in both countries The book is centred around two critical and empirical case studies focusing on the interactions on the key issues of counterterrorism and weapons of mass destruction WMD counter proliferation These case studies provide substantive insights into a range of interactions such as 9 11 the 7 7 London bombings the A Q Khan nuclear network the prelude to the 2003 Iraq War extraordinary rendition and special forces deployments Drawing on over 60 interviews conducted in the UK and US with prominent decision makers and practitioners these issues are examined in the contemporary historical context with the main focus being on the years 2000 05 This book will be of much interest to students of intelligence studies foreign policy security studies and International Relations in general Adam Svendsen has a Phd in International History from the University of Warwick He has been a Visiting Scholar at the Center for Peace and Security Studies Georgetown University and has contributed to the International Security Programme at Chatham House and to the work of IISS London

Global Governance and Japan Glenn D. Hook, Hugo Dobson, 2007-08-07 Leading specialists from Europe and Japan examine the institutional mechanisms of governance at the global level and provide concrete evidence of the role Japan plays in these institutions An excellent introduction to the concept of global governance the volume analyzes how global governance actually works through the global institutional mechanisms of governance It provides an up to date and contemporary analysis of the six most important global institutions namely the Group of 7 8 the Organisation for Economic Cooperation and Development the World Bank the International Monetary Fund the World Trade Organization the United Nations Written clearly and concisely the book provides a thorough and accessible discussion on Japan s role within these institutions and uses supporting case studies to ask whether Japan is reactively or proactively involved in trying to shape these institutions in order to promote its own interests As such it will be a valuable resource for undergraduates and scholars with an interest in

global governance Japanese politics and political economy Social Closure and International Society Tristen Naylor, 2018-12-07 Laying the foundations of a theory of international social closure this book examines how actors compete for a seat at the table in the management of international society and how that competition stratifies the international domain In a broad historical survey from the Family of Civilised Nations through the Great Powers club to the G7 and G20 today Naylor investigates the politics of membership in the exclusive clubs that manage international society and ensure its survival providing us with a new way to think about how status competition has changed over time and what this means for international politics today With its sociologically grounded theory this book advances English School scholarship and transforms the study of contemporary summitry providing a ground breaking approach rooted in archival research elite interviews and ethnographic participant observation This book is of interest to international relations scholars interested in the expansion and globalisation of international society the history of international summits and transformations in international order as well as to those examining concepts including stratification hierarchy and networked governance With its emphasis on non state actors in global governance scholars and practitioners alike working on for civil society will also find this research of great value *Conflict, Security and Development* Paul Jackson, Danielle Beswick, 2018-06-14 This textbook draws on academic theory field research and policy developments to provide an overview of the connections between security and development before during and after conflict This third edition is revised and updated to take account of changes that have occurred in both policy and academic arenas which are relevant to students and practitioners in this area In addition there is a new chapter on memory and memorialisation after conflict In an interdependent world it is often argued that the challenges of underdevelopment and insecurity have global implications This textbook charts an accessible course through these complex debates providing a comprehensive introduction for those encountering these issues for the first time The main aims of the revised edition are to set out how thinking on conflict security and development has changed over time and continues to evolve to explore the consequences of these changes particularly for the theory and practice of development and security promotion to introduce a range of case studies from across the globe in order to explore the implications of a combined approach to security and development The authors are experienced in both the theory and the practice of this field and illustrate the links between conflict security and development with practical examples drawing on key case studies from the past twenty years Each chapter is informed by student pedagogy and the book will be essential reading for all students of development studies war and conflict studies and human security and is recommended for students of international security and international relations in general Global Energy Governance in a Multipolar World Dries Lesage, Thijs Van de Graaf, 2016-04-22 Multipolar governance permits a number of important states to have significantly more economic and political clout than others but among them there is hardly any hierarchy The new energy challenge with its intricate socio economic ecological and international political considerations is a multi dimensional multi

level and multi actor issue that requires a minimum of central political steering because neither the invisible hand of the market nor unilateral or bilateral power politics are capable to bring about sustainable solutions Global Energy Governance in a Multipolar World investigates the relationship between the emergence of a multipolar world order and the enormous challenges of global energy governance that the world is facing in the 21st century It reflects on fundamental questions such as how the main consuming countries can avoid conflict over scarce resources how they will cooperate to bring about open energy markets energy conservation and efficiency and how they can promote renewable energy sources *Conflict, Security and Development* Danielle Beswick, Paul Jackson, 2013-06-17 This textbook draws on academic theory field research and policy developments to provide an overview of the connections between security and development before during and after conflict

The role of the FCO in UK government Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2011-05-12 The Foreign Affairs Committee believes the Foreign and Commonwealth Office FCO will not be back at the centre of Government and able to lead UK foreign policy in line with the Foreign Secretary's ambitions unless it can provide deep foreign policy expertise and judgement to underpin and implement Government decision making The FCO must have the resources and skills required to fulfil this role especially specialist geographical expertise and knowledge of foreign languages The FCO has a vital role to play for the Government namely the timely provision of world class foreign policy information analysis judgement and execution Finances people and buildings must be well managed but managerial requirements must not divert time and focus disproportionately from the FCO's core foreign policy functions Given the resource constraints facing the FCO however there is doubt whether the department can achieve the Government's ambitions for enhanced commercial work while maintaining its core foreign policy functions at the required standard The committee regards the FCO's network of overseas posts as integral to the department's ability to discharge its functions and recommends that the FCO should seek to maintain a global UK presence The committee also called confusing the fact that under the current Government the FCO has three sets of priorities the Foreign Secretary's the Cabinet Office's Business Plan for the department and the 2010 Strategic Defence and Security Review *Justice, Home Affairs and Security. European and international institutional and policy development* G. Vermeulen, W. De Bondt, 2017-02-15 This book offers an insight into the historical institutional and topical development of the EU policy in the areas of justice home affairs and security well embedded in a broader international context The main part of the book dedicated to the EU is therefore preceded by a part on relevant cooperation on the Benelux and Schengen levels and followed by a part on cooperation in the areas concerned on Council of Europe NATO OSCE G8 OECD and UN levels Without a proper understanding of those cooperation levels the development and functioning of the EU would be hard to fully grasp Before addressing the actual policy dimension all parts start with a historical introduction and a sketch of institutional structures and functioning For students and professionals in criminology law and political science and every one interested in European and international criminal policy making this

book will prove relevant or insightful *Arms Control in the 21st Century* Oliver Meier, Christopher Daase, 2013-05-02 This volume evaluates the impact of coercive arms control efforts to curb the spread of weapons of mass destruction in the twenty first century A new paradigm in arms control is gradually replacing the idea that mutually agreed restrictions on armaments can improve international security Thus Hedley Bull s classic definition of arms control as the cooperation between antagonistic pairs of states in military affairs needs to be amended by a new notion of coercive arms control as the set of non cooperative and non reciprocal measures to restrict the weapons or military capabilities of certain states This volume addresses the topic of how this ongoing paradigmatic shift will affect the effectiveness of arms control as a conflict management instrument While some argue that new instruments can complement and strengthen traditional multilateral and inclusive arms control regimes others maintain that conflicts and contradictions between coercive and cooperative arms control regimes will severely limit their effectiveness This volume provides a forum for academics and practitioners from around the globe to discuss these developments in depth and to assess the specific strengths and weaknesses of these new instruments of arms control This book will be of much interest to students of arms control global governance foreign policy and IR Security Studies in general The United Nations and Collective Security Gary Wilson, 2014-02-03 The role of the United Nations in collective security has been evolving since its inception in 1945 This book explores collective security as practiced within the legal framework provided by the United Nations Charter with a particular focus upon activity undertaken under the auspices of the UN Security Council the body conferred by the Charter with the primary responsibility for the maintenance of international peace and security Although the book is primarily grounded in international law where appropriate it also draws upon relevant political insights in order to present a clear picture of the UN collective security system in operation and the factors which impact upon the way in which it functions Offering a comprehensive analysis it considers the full range of measures which can be utilised by the UN in the performance of its collective security remit including military enforcement action peacekeeping non military sanctions and diplomacy The book considers each of these measures in detail assessing the legal framework applicable to the form of action the main legal controversies which arise in respect of their appropriate utilisation and the UN s use of this collective security tool in practice The book draws conclusions about the main strengths and shortcomings of the various means through which the UN can attempt to prevent minimise or end conflict
