and image weaving in oral histories from artists and critics reflecting on their work in the city and setting new movements and key works in historical context The final chapter comprised of interviews and conversations with contemporary artists brings the story up to the present offering a look at the vibrant art being created in the city now and addressing ongoing debates about what it means to identify as or resist identifying as a Chicago artist today The result is an unprecedentedly inclusive and rich tapestry one that reveals Chicago art in all its variety and vigor and one that will surprise and enlighten even the most dedicated fan of the city's artistic heritage Part of the Terra Foundation for American Art's year long Art Design Chicago initiative which will bring major arts events to venues throughout Chicago in 2018 Art in Chicago is a landmark publication a book that will be the standard account of Chicago art for decades to come No art fan regardless of their city will want to miss it

[The Indiana Dunes Revealed](#) Frank V. Dudley, 2006 A native Midwesterner's timeless portrayals of a fragile sanctuary The Indiana Dunes Revealed offers the first comprehensive examination of a widely collected much loved and ecologically significant artist Described by art historian William Gerds as one of the finest painters working in the Midwest in the first decades of the twentieth century Frank V Dudley 1868 1957 was a native of Wisconsin who studied at the Art Institute of Chicago before going on to establish a long exhibition record both there and across the country He also dedicated over forty years of his professional life as a landscape painter to the promotion and preservation the Indiana Dunes Today thanks in part to Dudley's efforts this unique geographical region enjoys state and federal protection and provides ecologists from around the world with a living laboratory unlike anything else The Indiana Dunes Revealed serves as the accompanying catalogue for the exhibition of

Dudley's work showing from August 15 to November 30 2006 at the Brauer Museum of Art at Valparaiso University. Featuring 150 color and 70 black and white images it celebrates Dudley's unique artistic legacy documents the exhibition and demonstrates the painter's importance to environmentalists and naturalists especially during the many years of national debate over the designation of parts of the dunes as a national park. In some areas Dudley's painting may be the only record of a lost dunescape and as the struggle between development and preservation continues his enduring art reminds us of the need for a sustainable environment for the Great Lakes.
