Jones, 2011-11-01 Business scandals are always with us from the South Sea Bubble to Enron and Parmalat As accounting forms a central element of any business success or failure the role of accounting is crucial in understanding business scandals This book aims to explore the role of accounting particularly creative accounting and fraud in business scandals The book is divided into three parts In Part A the background and context of creative accounting and fraud is explored Part B looks at a series of international accounting scandals and Part C draws some themes and implications from the country studies **The Social Production of Crisis** Constance A. Nathanson, Henri Bergeron, 2023 In *The Social Production of Crisis* Constance A Nathanson and Henri Bergeron focus on the profoundly troubling story of how blood banks and blood products manufacturers and distributors as well as the authorities charged with regulating them in France and the US knowingly allowed blood contaminated with HIV to be distributed to hemophiliacs and others needing transfusions in the early to mid 1980s Based on detailed lively and exciting comparative analysis the book explains why this drama became a political crisis in France and not in the United States The authors use this comparison to advance more general ideas of how political crises are socially produced and to raise questions about disease policy and politics in the two countries **Criminal Justice Annual, 1990** David L. Bender, Bruno Leone, 1990 Annual supplement focusing on topics that continue to generate debate **Future Survey Annual 1991** Michael Marien, 1991-01-01 History of Higher Education Annual: 1999: Southern Higher Education in the 20th Century Roger Geiger, 1999-01-01 *The Proceedings of the 19th Annual History of Medicine Days Conference 2010* Beth Cusitar, Aleksandra Loewenau, 2014-07-18 This volume is the second in a peer reviewed series of Proceedings Volumes from the Calgary History of Medicine Days conferences produced by Cambridge Scholars Publishing The History of Medicine Days is a two day national conference held annually at the University of Calgary Canada where undergraduate and early graduate students from across Canada the US the UK and Europe give paper and poster presentations on a wide variety of topics from the history of medicine and health care The selected 2010 conference papers assembled in this volume particularly comprise the history of Applications of Science to Medicine Nursing Public Health Illness and Disease Stigma and Gender Neurology and Psychiatry and Eugenics The 2010 keynote address was delivered by Distinguished Professor of the History of Nursing and Public Health Dr Geertje Boschma from the University of British Columbia Vancouver and is reprinted in the current volume This volume also includes the abstracts of all 2010 conference presentations and is well illustrated with diagrams and images pertaining to the history of medicine **Addressing Corporate Scandals and Transgressions Through Governance and Social Responsibility** Lopes, Carlos Flório, Ferreira, Augusta, Ferreira, Carlos, Inácio, Helena, Santos,

Carlos,2023-09-28 Despite the evolution of corporate governance in the last 30 years corporate scandals have not stopped appearing in the media and academic documents Therefore this book presents a multidisciplinary study of corporate governance as its mechanisms to reduce conflicts of interest and risk management must act as preventers of ethical and financial problems The number of corporate scandals began to grow in the 1960s and peaked in the 1990s From the first decade of the 2000s onwards a remarkable evolution has taken place in the regulation market However new scandals continued to take place including the Subprime Crisis of 2008 New concepts such as corporate social responsibility CRS independence gender diversity and shell companies were incorporated Until 2008 the scandals were mainly financial Now cases of corruption environmental accidents unsafe working conditions child labor and the political influence of power are increasing which this book intends to address It is critical to explore methodologies that allow collaboration among companies regulatory entities and those that guide their behavior and to ensure that they are consistent with the values of ethics legality disclosure social responsibility and accountability Addressing Corporate Scandals and Transgressions Through Governance and Social Responsibility examines the tools of management and control that can be used as enforcement mechanisms of corporate governance and social responsibility and provides critical research on how to improve discuss and develop theories around fraud corruption ethics corporate governance and corporate social responsibility Covering topics such as corporate scandal human rights and business fraud this publication is ideal for corporate governance and social responsibility professionals such as accountants auditors tax officers counsellors directors and managers as well as researchers investors and regulatory bodies and authorities **The Annual of Psychoanalysis, V. 22** Jerome A.

Winer,2013-05-13 Volume 22 of The Annual of Psychoanalysis begins with the provocative reflections of Jane Flax and Robert Michels on the current status and future prospects of psychoanalysis a century after Freud Flax believes that analysis will not survive in the postmodern West if analysts cling to the medical model and the notion of analysis as a clinical science Michels believes analysis will be revived in the next century by reorganizing its training institutes within universities A section on Psychoanalysis and the Visual Arts includes John Gedo's probing examination of the inner world of Paul Gauguin and William Meissner's reflections on Vincent van Gogh as artist Johann Michael Rotmann's examination of the transference meanings of third party payment within Germany's health insurance system is a timely consideration of issues that are increasingly salient for American analysts and therapists A rich harvest of theoretical and clinical papers rounds out this volume of The Annual In A Time of Questioning Leon Wurmser responds to the inner and outer challenges before analysis in a closely reasoned defense of the applicability of classical analytic technique to severely disturbed patients Michael Hoit examines the noninterpretive interactive aspects of the analytic relationship arguing that the analyst's noninterpretive activities are intrinsic to treatment and must be incorporated into the theory of therapeutic action In Fables as Psychoanalytic Metaphors Elaine Caruth describes some psychoanalytic metaphors contained within the lessons of the Aesopian fables proposing that

the fables address interpersonal and group conflicts that often involve moral issues Wilma Bucci offers her multiple code theory as a new model of emotion and mind based on current theory and research in cognitive science that can account for clinical concepts and provide coherent framework for empirical research And Ralph Roughton uses the case history of Laura to underscore the central role of repetition and interaction in the analytic process Volume 22 will not disappoint readers of this distinguished continuing series Like its predecessors it is a thoroughly assembled collection responsive to the conceptual clinical and institutional challenges now before the field
