Scandinavian Misadventure The Campaign In Norway 1940:

Scandinavian Misadventure Maurice Harvey, 2010-11-30 In April 1940 an uneasy pause following the blitzkrieg in Poland in 1939 settled over Europe All the major protagonists were insufficiently prepared to engage in a major land battle on the Western Front during the winter of 1939 40 the RAF was unready to launch a strategic offensive on Germany and it was only at sea that the conflict was pursued with any conviction Goaded by Winston Churchill the Allies contemplated severing the supply route of iron ore from Sweden to Germany via Narvik but for six months the governments in London and Paris debated incessantly but did nothing The government in Oslo clinging to Norway's neutralist principles watched and waited In the early hours of 9 April 1940 Hitler emphatically answered the question of where the war was to be fought launching a sea and air attack on Norway and Denmark The Allies responded promptly but although their intervention was ill prepared and inadequately supported it was studded with fierce military actions and individual acts of valour and fortitude The author carefully sets the scene in all the countries directly involved in the conflict before describing the invasion itself and the two dramatic raids on Narvik The description of the main land battle is followed by an analysis of the lessons to be learned from this calamitous episode in the Allied war effort including showing how the naval losses the Germans suffered ensured Britain was safe from invasion and made the evacuation from Dunkirk possible British Policy and Strategy towards Norway, 1941-45 C. Mann, 2012-11-19 After the German occupation of 1940 Britain was forced to reassess its relationship with Norway a country largely on the periphery of the main theatres of the Second World War Christopher Mann examines British military policy towards Norway concentrating on the commando raids deception planning and naval operations

Anatomy of a Campaign John Kiszely, 2017-04-27 Senior military commander assesses the reasons behind the ignominious failure of the British campaign in Norway in 1940 Sea-Based Airpower—The Decisive Factor In Expeditionary Operations? Norway 1940, Falkland Islands 1982 Major Willard A. Buhl, 2015-11-06 This essay examines the British use of sea based aviation in support of two modern amphibious campaigns the British campaign in Norway in 1940 and in the Falkland Islands War in 1982 The purpose is to determine whether or not aircraft carriers sea based aviation were at the root of the success or failure of British efforts In April 1940 there were no airfields in central Norway capable of supporting modern high performance aircraft As the Norwegian campaign unfolded and the British faced a significant land based air threat from the Luftwaffe they failed to appreciate the tactical and operational potential of sea based aviation At the same time British naval aircraft were technically inferior in design and capability compared to their Luftwaffe land based counterparts in 1940 Nevertheless despite determined attacks on British naval assets at the tactical level at the operational level the German command limited their campaign goals and did not exploit their advantage in the air to the extent possible Their actions did however place great pressure on British sea based lines of communication in central Norway the operational pivot of the campaign In 1982 against the Argentines the British faced another opponent with superior land

based aviation Although the British fully appreciated the need for air superiority they employed a tactical scheme not unlike what had occurred in Norway Nevertheless the British were able to successfully contest the airspace above the Falklands and ultimately succeeded in defeating Argentine ground forces and ejecting them from the islands

A War To Be Won Williamson Murray, Allan Reed Millett, 2009-06-30 In the course of the twentieth century no war looms as profoundly transformative or as destructive as World War II Its global scope and human toll reveal the true face of modern industrialized warfare Now for the first time we have a comprehensive single volume account of how and why this global conflict evolved as it did A War To Be Won is a unique and powerful operational history of the Second World War that tells the full story of battle on land on sea and in the air Williamson Murray and Allan R Millett analyze the operations and tactics that defined the conduct of the war in both the European and Pacific Theaters Moving between the war room and the battlefield we see how strategies were crafted and revised and how the multitudes of combat troops struggled to discharge their orders The authors present incisive portraits of the military leaders on both sides of the struggle demonstrating the ambiguities they faced the opportunities they took and those they missed Throughout we see the relationship between the actual operations of the war and their political and moral implications A War To Be Won is the culmination of decades of research by two of America's premier military historians It avoids a celebratory view of the war but preserves a profound respect for the problems the Allies faced and overcame as well as a realistic assessment of the Axis accomplishments and failures It is the essential military history of World War II from the Sino Japanese War in 1937 to the surrender of Japan in 1945 for students scholars and general readers alike

Hitler's Northern War Adam R. A. Claasen, 2001 Adolf Hitler had high hopes for his conquest of Norway which held both great symbolic and great strategic value for the Fuhrer Despite early successes however his ambitious northern campaign foundered and ultimately failed Adam Claasen for the first time reveals the full story of this neglected episode and shows how it helped doom the Third Reich to defeat Hitler and Raeder the chief of the German navy were determined to take and keep Norway By doing so they hoped to preempt Allied attempts to outflank Germany protect sea lanes for German ships access precious Scandinavian minerals for war production and provide a launchpad for Luftwaffe and naval operations against Great Britain Beyond those strategic objectives Hitler also envisioned Norway as part of a pan Nordic stronghold a centerpiece of his new world order But as Claasen shows Hitler's grand expectations were never realized Gring's Luftwaffe was the vital spearhead in the invasion of Norway which marked a number of wartime firsts Among other things it involved the first large scale aerial operations over sea rather than land the first time operational objectives and logistical needs were fulfilled by air power and the first deployment of paratroopers Although it got off to a promising start the German effort particularly against British and arctic convoys was greatly hampered by flawed strategic thinking interservice rivalries between the Luftwaffe and navy the failure to develop a long range heavy bomber the diversion of planes and personnel to shore up the German war effort elsewhere and the northern theater's harsh climate and terrain

Claasen's study covers every aspect of this ill-fated campaign from the 1940 invasion until war's end and shows how it was eventually relegated to a backwater status as Germany fought to survive in an increasingly unwinnable war. His compelling account sharpens our picture of the German air force and widens our understanding of the Third Reich's way of war. The Polish Underground Army, the Western Allies, and the Failure of Strategic Unity in World War II Michael Alfred Peszke, 2015-07-11 This military history covers the attempts of General Wladyslaw Sikorski and his successor General Kazimierz Sosnkowski to integrate Polish forces into Western strategy and to have their clandestine forces declared an allied combatant. It addresses such topics as Poland's part in the Norwegian and French campaigns, the Battle of Britain, Polish intelligence services, Polish radio communications, the Polish Parachute Brigade, the German invasion of the Soviet Union, the Bomber Offensive, the Katyn graves, Polish air crews in the RAF Transport Command, the Tehran Conference, Polish Wings in the 2nd Tactical Air Force, the Bardsea Plan, the invasion of Normandy, the Pierwsza Pancera, the Warsaw Uprising, Operation Freeston, the disbanding of the Polish Home Army, and the Yalta Conference. Hitler's Arctic War Chris Mann, Christer Jörgensen, 2016-11-30 A groundbreaking study of how war was waged in the far north of Finland, Norway, and the Soviet Union. Well illustrated and organized. WWII History According to Lieutenant General Waldemar Erfurth of the German Army, the General Staff had taken no interest in the military history of the north and east of Europe, failing to imagine that someday German divisions might have to fight through the winter in northern Karelia and on the Murmansk coast. Yet the German Army's first campaign in the far north was a great success. Between April and June 1940, with less than 20,000 men, they seized Norway, a state of three million people, with minimal losses. Hitler's Arctic War is a study of the campaign waged by the Germans on the northern periphery of Europe between 1940 and 1945. As the book makes clear, the emphasis was on small unit actions, with soldiers carrying everything they needed—food, ammunition, and medical supplies—on their backs. The terrain placed limitations on the use of tanks and heavy artillery, while lack of airfields restricted the employment of aircraft. Also included is a chapter on the campaign fought by Luftwaffe aircraft and Kriegsmarine ships and submarines against the Allied convoys supplying the Soviet Union with aid. Yet the book asserts Wehrmacht resources committed to Norway and Finland were ultimately an unnecessary drain on the German war effort. Lavishly furnished with photographs, a gripping introduction to this very different war. Pegasus Archive. The authors effectively explain how soldiers dealt with the arctic conditions and the extensive hardships they endured while fighting at the top of the Continent, a good general history of the various operations in Norway, Finland, and the Soviet Union during the war. WWII History **Joint Operational Warfare** Milan N. Vego, 2009 Smallholder farmers and pastoralists fulfil an invaluable yet undervalued role in conserving biodiversity. They act as guardians of locally adapted livestock breeds that can make use of even marginal environments under tough climatic conditions and therefore are a crucial resource for food security. But in addition, by sustaining animals on natural vegetation and as part of local ecosystems, these communities also make a significant contribution to the conservation of wild

biodiversity and of cultural landscapes This publication provides a glimpse into the often intricate knowledge systems that pastoralists and smallholder farmers have developed for the management of their breeds in specific production systems and it also describes the multitude of threats and challenges these often marginalized communities have to cope with

SOE's Balls of Steel Sophie Jackson, 2013-08-05 In 1940 the Nazis hoped to cripple the British war effort by blockading Swedish cargo ships containing ball bearings steel and tools vital for making arms and equipment In desperation the newly formed SOE was asked to rescue these badly needed supplies and a daring escapade was dreamt which involved sneaking in under the Germans noses to steal the ships It was a dangerous mission and the 147 men involved knew there was a high chance they would not come home The terrifying operation to rescue cargoes of ball bearings in clunky transport ships while trying to outrun the Luftwaffe and German navy had never been attempted before It was a success that was never repeated Making use of newly released files from the National Archives Sophie Jackson tells the story of a forgotten adventure that saved Britain and her troops from certain defeat all because of brave men willing to sacrifice their lives for millions of small balls of steel
