Scattered Returns Poems:

Scattered Returns L. E. Sissman, 1969 The Poems of Thomas Davis Thomas Davis, 1857 *Wild Geese Returning* Michèle Metail, 2017-03-15 The genre of poems that may be read both forward and backward producing different creations was known as the flight of wild geese These poems were often sent so that a distant lover like the migrating birds would return Its greatest practitioner and the focus of this critical anthology is Su Hui a woman who in the 4th Century embroidered a silk for her distant husband using a grid of 840 characters that created perhaps 12 000 ways to read this poem With examples from the 3rd to the 19th centuries Michele Metail describes reversible poems as a singular adventure at the edge of meaning of language and of writing **The poems of Thom. Davis** Thom Davis, 1846 Returning to A Dorien Ross, 2015-08-17 With one suitcase and a map drawn on a bar napkin as her only guide sixteen year old Loren travels to Moron del la Frontera in Andalusia to learn to play flamenco guitar from the Gypsies Here she joins an extended family of flamenco artists and foreign aficionados whose adventures over a twenty year period are interwoven with Loren s own odyssey Her life with the Gypsies is haunted by the mysterious circumstances of her brother Aaron s death Although they shared the same New York Jewish upbringing he went to California during the expansive optimism of the sixties while she went back in time to explore a rich music and culture Their relationship is a dark love story that casts disquieting shadows over their years apart As Loren struggles to master an instrument traditionally off limits to women she finds her own path inspired by the earthy wisdom of her Gypsy companions This stunning first novel is the story of a journey from America to Andalusia where a community of Gypsies has inhabited a musical and poetic tradition so intensely and for so long that the nature of reality is transformed for all those they encounter In this landscape even the buildings are capable of passion The Nation fascinating insights into Gypsy culture Los Angeles Times Dorien Ross studied flamenco guitar with Andalusian Gypsies Her work has appeared in Best American Essays and in Tikkun Poems William Shakespeare, 2014-09-25 In 1593 Shakespeare awoke and found himself famous Lines from his comic erotic tragic poem Venus and Adonis were on everyone s lips The appearance in 1594 of the darkly reflective and richly descriptive Rape of Lucrece confirmed his fame as Sweet Master Shakespeare Elizabethan England s most brilliant non dramatic poet Shorter poems in this volume testify further to Shakespeare s versatility and to his poetic fame Some like the much debated Phoenix and Turtle pose problems of meaning others raise questions about authorship and authenticity Detailed annotation and a full Introduction seek to resolve such difficulties while also locating Shakespeare s poems in their literary context which includes his own career as a playwright

Miscellaneous poems (songs and sonnets) Elegies. Epithalamions, or marriage songs. Satires. Epigrams. The progress of the soul. Notes John Donne, 1895 **Archaeopoetics** Mandy Bloomfield, 2016-05-10 Explores poetry as historical investigation examining works by five contemporary poets whose creations represent new materially emphatic methods of engaging with the past and producing new kinds of historical knowledge Archaeopoetics explores archaeological

poetry ground breaking and experimental writing by innovative poets whose work opens up broad new avenues by which contemporary readers may approach the past illuminating the dense web of interconnections often lost in traditional historiography Critic Mandy Bloomfield traces the emergence of a significant historicist orientation in recent poetry exemplified by the work of five writers American poet Susan Howe Korean American artist Theresa Hak Kyung Cha British poet Maggie O Sullivan and diasporic African Caribbean writers Kamau Brathwaite and M NourbeSe Philip Bloomfield sets the work of these five authors within a vigorous tradition including earlier work by Ezra Pound and Walter Benjamin and then shows how these five poets create poems that engender new encounters with pivotal episodes in history such as the English regicide or Korea's traumatized twentieth century Exploring our shared but imperfectly understood history as well as omissions and blind spots in historiography Bloomfield outlines the tension between the irretrievability of effaced historical evidence and the hope that poetry may reconstitute such unrecoverable histories She posits that this tension is fertile engendering a form of aesthetically enacted epistemological enquiry Fascinating and seminal Archaeopoetics pays special attention to the sensuous materiality of texts and most especially to the visual manifestations of poetry The poems in this volume employ the visual imagery of the word itself or incorporate imagery into the poetry to propose persuasive alternatives to narrative or discursive frameworks of historical knowledge

Literature as Translation/Translation as Literature Christopher Conti,James Gourley,2014-03-17 Broadly conceived literature consists of aesthetic and cultural processes that can be thought of as forms of translation By the same token translation requires the sort of creative or interpretive understanding usually associated with literature Literature as Translation Translation as Literature explores a number of themes centred on this shared identity of literature and translation as creative acts of interpretation and understanding The metaphor or motif of translation is the touchstone of this volume which looks at how an expanded idea of translation sheds light not just on features of literary composition and reception but also on modes of intercultural communication at a time when the pressures of globalization threaten local cultures with extinction The theory of ethical translation that has emerged in this context which fosters the practice of preserving the foreignness of the text at the risk of its misunderstanding bears relevance beyond current debates about world literature to the framing of contemporary social issues by dominant discourses like medicine as one contributor s study of the growing autism rights movement reveals The systematizing imperatives of translation that forcibly assimilate the foreign to the familiar like the systematizing imperatives of globalization are resisted in acts of creative understanding in which the particular or different finds sanctuary The overlooked role that the foreign word plays in the discourses that constitute subjectivity and national culture comes to light across the variegated concerns of this volume Contributions range from case studies of the emancipatory role translation has played in various historical and cultural contexts to the study of specific literary works that understand their own aesthetic processes and the interpretive and communicative processes of meaning more generally as forms of translation Several contributors including the English translators of Roberto Bola o and Hans Blumenberg were prompted in their reflections on the creative and interpretive process of translation by their own accomplished work as translators All are animated by the conviction that translation whether regarded as the creative act of understanding of one culture by another as the agent of political and social transformation as the source of new truths in foreign linguistic environments and not just the bearer of established ones or as the limit of conceptuality outlined in the silhouette of the untranslatable is a creative cultural force of the first importance
