Scenes Of Wonder:

Scenes of Wonder and Curiosity in California ... James Mason Hutchings, 1862 **Scenes of Wonder in many lands: being descriptions of remarkable rapids, cascades, waterfalls, natural bridges, etc.** [By J. W.] J. W., 1868

The Making of Yosemite Jen A. Huntley, 2014-01-31 Leader of the first tourist expedition into Yosemite in 1855 James Mason Hutchings became a tireless promoter of the valley and of himself Seeking to create an alternative to California's Gold Rush social chaos Hutchings whetted the public enthusiasm for this unspoiled land by mass producing a lithograph of Yosemite Falls while his Hutchings California Magazine beat the drum for tourism But because of his later legal imbroglios over the park Hutchings was effectively written out of its history and today he is largely viewed as an opportunist who made a career out of exploiting Yosemite Now Jen Huntley removes the tarnish from Hutchings's image She portrays him instead as a connector who brought artists to Yosemite and Yosemite to Americans and uses his career as a lens through which to view the contests and debates surrounding the creation of Yosemite and by extension America's emerging ethic of land conservation Blending environmental and cultural history she tracks Hutchings's professional trajectory amidst significant changes in nineteenth century America from technological advances in printing to the growth of tourism from the birth of modern environmental movements to battles over public lands Huntley uses Hutchings's legal battles with the government over ownership of land in the Yosemite Valley to analyze larger battles over public land management and national identity She also explores the role of urban San Francisco in designating Yosemite a public park shows how the Civil War transformed Yosemite from a regional icon to a national symbol of post war redemption and takes a closer look at Hutchings's relationship with John Muir Making Yosemite sheds light on the role of power class dynamics and the late century ideal of individualism in the shaping of modern America's sacred landscapes Hutchings emerges here as a visionary communicator who cleverly tapped into midcentury Americans attitudes toward spectacular scenery to create a sense of place based identity in the American Far West Huntley's revisionist approach rediscovers Hutchings as a key player in the histories of American media tourism and environmentalism and suggests new terrain for scholars to consider in writing the histories of our national parks conservation and land policy *A Most Amazing Scene of Wonders* James Delbourgo, 2006-10-15 The first book to situate early American experimental science in the context of a transatlantic public sphere *A Most Amazing Scene of Wonders* offers a view of the origins of American science and the cultural meaning of the American Enlightenment BOOK JACKET **Scenes of Wonder and Curiosity in California** James Mason Hutchings, 1860 *Drawing the Past, Volume 1* Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Lawrence Abrams Dorian L. Alexander Max Bledstein Peter Cullen Bryan Stephen Connor Matthew J. Costello Martin Flanagan Michael Fuchs Michael Goodrum Bridget Keown Kaleb Knobloch Christina M. Knopf Martin Lund Jordan Newton Stefan Rabitsch Maryanne Rhett and Philip Smith History has always been a matter of arranging evidence into a narrative but the public debate over the meanings we attach

to a given history can seem particularly acute in our current age Like all artistic mediums comics possess the power to mold history into shapes that serve its prospective audience and creator both It makes sense then that history no stranger to the creation of hagiographies particularly in the service of nationalism and other political ideologies is so easily summoned to the panelled page Comics like statues museums and other vehicles for historical narrative make both monsters and heroes of men while fueling combative beliefs in personal versions of United States history Drawing the Past Volume 1 Comics and the Historical Imagination in the United States the first book in a two volume series provides a map of current approaches to comics and their engagement with historical representation The first section of the book on history and form explores the existence shape and influence of comics as a medium The second section concerns the question of trauma understood both as individual traumas that can shape the relationship between the narrator and object and historical traumas that invite a reassessment of existing social economic and cultural assumptions The final section on mythic histories delves into ways in which comics add to the mythology of the US Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world Tending the Wild Kat Anderson,2005 This is a highly significant one might argue revolutionary book It and the author s previous research has the potential to completely change the way western land managers relate to the land and the resources they are trying to regulate Even more it has the power to influence the way that all of us approach Nature and will reinforce the importance of Native Americans and the sophistication of their knowledge Nancy J Turner University of Victoria Tending the Wild is an enormously rich and highly readable text on the remarkably diverse land management techniques practiced by California Indians over millennia This book serves as an invaluable resource as we strive to conserve California s enormous cultural and biotic heritage in the new century A triumph Michael H Horn California State University Fullerton Tending the Wild supports the little know fact that Indian groups in California historically practiced a kind of environmental bonsai through their centuries long management activities Kat Anderson s work is timely and will make an important contribution toward a better understanding of the historic ecologies of North America Greg Cajete University of New Mexico Theatre of Chance Gerald Vizenor,2025-02-04 Theatre of Chance is the final novel in the series that started with Blue Ravens and continued with Native Tributes Satie on the Seine and Waiting for Wovoka A group of native puppeteers from the White Earth Reservation in Minnesota resume their adventures traveling from White Earth to an existential colony the urban reservation in Minneapolis Basile the native elder has become an editorial writer and the stowaways continue their creative puppet parleys in the context of the historical moment including the election of Richard Nixon as president Dummy Trout and the other stowaways secure a houseboat and with the loyal mongrels return to French Portage Narrows in Lake of the Woods the birthplace of Dummy There for the first time in more than seventy years she whispers a few words ending the shamanic silence of her marvelous encounters on the White Earth Reservation and in the native existential colony of Minneapolis **English Eccentrics and Eccentricities**
