but Nightmares never go away Nightmares don't die They just wait **History of English Humor with an Introduction Upon Ancient Humor** Alfred Guy Kingan L'Estrange, 1878 *Sacred Scents in Early Christianity and Islam* Mary

Thurkill, 2016-07-26 Medieval scholars and cultural historians have recently turned their attention to the question of smells and what olfactory sensations reveal about society in general and holiness in particular *Sacred Scents in Early Christianity and Islam* contributes to that conversation explaining how early Christians and Muslims linked the sweet smell of sanctity with ideals of the body and sexuality created boundaries and sacred space and imagined their emerging communal identity Most importantly scent itself transgressive and difficult to control signaled transition and transformation between categories of meaning Christian and Islamic authors distinguished their own fragrant ethical and theological ideals against the stench of oppositional heresy and moral depravity Orthodox Christians ridiculed their stinking Arian neighbors and Muslims denounced the reeking corruption of Umayyad and Abbasid decadence Through the mouths of saints and prophets patriarchal authors labeled perfumed women as existential threats to vulnerable men and consigned them to enclosed private space for their protection as well as society's At the same time theologians praised both men and women who purified and transformed their bodies into aromatic offerings to God Both Christian and Muslim pilgrims venerated sainted men and women with perfumed offerings at tombstones indeed Christians and Muslims often worshipped together honoring common heroes such as Abraham Moses and Jonah *Sacred Scents* begins by surveying aroma's quotidian functions in Roman and pre-Islamic cultural milieus within homes temples poetry kitchens and medicines Existing scholarship tends to frame scent as something available only to the wealthy or elite however perfumes spices and incense wafted through the lives of most early Christians and Muslims It ends by examining both traditions' views of Paradise identified as the archetypal Garden and source of all perfumes and sweet smells Both Christian and Islamic texts explain Adam and Eve's profound grief at losing access to these heavenly aromas and celebrate God's mercy in allowing earthly remembrances Sacred scent thus prompts humanity's grief for what was lost and the yearning for paradisiacal transformation still to come *The Ephemeral History of Perfume*

Holly Dugan, 2011-09-14 In contrast to the other senses smell has long been thought of as too elusive too fleeting for traditional historical study Holly Dugan disagrees arguing that there are rich accounts documenting how men and women produced consumed and represented perfumes and their ephemeral effects She delves deeply into the cultural archive of olfaction to explore what a sense of smell reveals about everyday life in early modern England In this book Dugan focuses on six important scents incense rose sassafras rosemary ambergris and jasmine She links these smells to the unique spaces they inhabited churches courts contact zones plague-ridden households luxury markets and pleasure gardens and the objects used to dispense them This original approach provides a rare opportunity to study how early modern men and women negotiated the environment in their everyday lives and the importance of smell to their daily actions Dugan defines perfume broadly to include spices flowers herbs animal parts trees resins and other ingredients used to produce artificial scents smokes fumes

airs balms powders and liquids In researching these Renaissance aromas Dugan uncovers the extraordinary ways now largely lost that people at the time spoke and wrote about smell objects ambered civited expired fetored halited resented and smeeked or were described as breathful embathed endulced gracious halited incensial odorant pulvil redolent and suffite A unique contribution to early modern studies The Ephemeral History of Perfume is an unparalleled study of olfaction in the Renaissance a period in which new scents and important cultural theories about smell were developed Dugan s inspired analysis of a wide range of underexplored sources makes available to scholars a remarkable wealth of information on the topic
