

A classical portrait of Robert Boyle, a 17th-century natural philosopher, chemist, physicist, and inventor. He is depicted from the chest up, wearing a dark garment with a white cravat and a reddish-brown cloak. He has long, curly brown hair and is looking slightly to the left. He is holding a large, open book with both hands. The book's pages are filled with text and a diagram of a mechanical device, possibly a pump or a vacuum apparatus. The background is dark and indistinct.
