Growing Gaps Paul Attewell, Katherine S. Newman, 2010-11-05 The last half century has seen a dramatic expansion in access to primary secondary and higher education in many nations around the world Educational expansion is desirable for a country s economy beneficial for educated individuals themselves and is also a strategy for greater social harmony But has greater access to education reduced or exacerbated social inequality Who are the winners and the losers in the scramble for educational advantage In Growing Gaps Paul Attewell and Katherine S Newman bring together an impressive group of scholars to closely examine the relationship between inequality and education The relationship is not straightforward and sometimes paradoxical Across both post industrial societies and the high growth economies of the developing world education has become the central path for upward mobility even as it maintains and exacerbates existing inequalities In many countries there has been a staggering growth of private education as demand for opportunity has outpaced supply but the families who must fund this human capital accumulation are burdened with more and more debt Privatizing education leads to intensified inequality as students from families with resources enjoy the benefits of these new institutions while

poorer students face intense competition for entry to under resourced public universities and schools The ever increasing supply of qualified young workers face class or race based inequalities when they attempt to translate their credentials into suitable jobs Covering almost every continent Growing Gaps provides an overarching and essential examination of the worldwide race for educational advantage and will serve as a lasting achievement towards understanding the root causes of inequality

Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
