Fifteenth-Century Studies Edelgard E. DuBruck, Barbara I. Gusick, 2008 Articles on drama letter writing Arthurian romances translation mythology and folklore print media and Pizan Sachs Schedel Chartier and Henryson The fifteenth century defies consensus on fundamental issues most scholars agree however that this period outgrew the Middle Ages that it was a time of transition and a passage to modern times Founded in 1977 as the publication organ for the Fifteenth Century Symposia Fifteenth Century Studies offers essays on diverse aspects of the fifteenth century including liberal and fine arts historiography medicine and religion Following the standard opening article on the current state of fifteenth century drama research volume 33 offers essays investigating authors such as Christine de Pizan Hans Sachs Hartmann Schedel Alain Chartier and Robert Henryson Genres and themes treated include drama epistles of persuasion late Arthurian romances translations mythology and folklore print media and art appreciation Alternative interpretations are afforded by Franco Mormando's study of male nakedness and the Franciscans Twelve book reviews round out the volume Contributors Edelgard E DuBruck Tracy Adams Lidia Amor Roci del R o Fern ndez Leonardas Vytautas Gerulaitis Jonathan Green Christiane J Hessler Ashby Kinch Franco Mormondo Alessandra Petrina Edelgard E DuBruck is Professor Emerita of French and Humanities at Marygrove College Detroit Michigan and Barbara I Gusick is Professor Emerita of English at Troy University Dothan Alabama **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture Hebrew between Jews and Christians Daniel Stein Kokin, 2022-12-19 Though typically associated more with Judaism than Christianity the status and sacrality of Hebrew has nonetheless been engaged by both religious cultures in often strikingly similar ways The language has furthermore played an important if vexed role in relations between the two Hebrew between Jews and Christians closely examines this frequently overlooked aspect of Judaism and Christianity's common heritage and mutual competition **Sound of Music** Eun Ji Park, 2025-08-21 This book explains that the essence of music lies in intangible mental realms While vibrations generate sound and sound forms music music represents something far beyond mere phenomena a higher form of expression This book describes how vibrations are transmitted to the human ear stirring emotions and ultimately moving the soul This complex process defies full comprehension Nevertheless humanity has long sought to uncover the secrets of music and sound striving since ancient times to objectively interpret them This book begins

by exploring this endeavor as both a way of observing phenomena and attempting to understand the world posing the following questions How have we interpreted music and sound throughout history What origins have we ascribed to music and sound How have we analyzed sound phenomena with different technologies up to the present day Throughout history scholars have observed and analyzed music and sound from different perspectives initially seeking to understand sound through numerical frameworks and later employing scientific experimentation to analyze it more precisely The observations and theories discovered along the way have established a rich body of knowledge enabling us to accurately understand sound phenomena through mathematics and science This book emphasizes that the artistic domain of music and the scientifically analyzed realm of sound are bound in an inseparable symbiotic relationship It argues that those who truly wish to understand music must acquire knowledge of sound The quality of sound *La qualit du Son* as this book demonstrates plays a crucial role in shaping the emotional impact of music with listeners experiences varying significantly based on sound quality In some respects sound itself may play an even more important role than any other aspect in forming music Ultimately this book provides foundational knowledge of music and sound from diverse perspectives while explaining their connections within the historical contexts of music and science

Between Manuscript and Print Sylvia Brockstieger, Paul Schweitzer-Martin, 2023-07-24 A cross cultural comparative view on the transition from a predominant culture of handwriting to a predominant culture of print in the late medieval and early modern periods is provided here combining research on Christian and Jewish European book culture with findings on East Asian manuscript and print culture This approach highlights interactions and interdependencies instead of retracing a linear process from the manuscript book to its printed

successor While each chapter is written as a disciplinary study focused on one specific case from the respective field the volume as a whole allows for transcultural perspectives It thereby not only focusses on change but also on simultaneities of manuscript and printing practices as well as on shifts in the perception of media writing surfaces and materials Which values did writers printers and readers attribute to the handwritten and printed materials For which types of texts was handwriting preferred or perceived as suitable How and under which circumstances could handwritten and printed texts coexist even within the same document and which epistemic dynamics emerged from such textual assemblages
