Ann E. Densmore, Margaret L. Bauman

Scholastic Early Childhood Program Theme 3:

Using Children's Literature in Math and Science, 1997 **The Building Blocks of Preschool Success** Katherine A. Beauchat, Katrin L. Blamey, Sharon Walpole, 2010-05-11 Written expressly for preschool teachers this engaging book explains the what's why's and how to's of implementing best practices for instruction in the preschool classroom. The authors show how to target key areas of language and literacy development across the entire school day including whole group and small group activities, center time, transitions, and outdoor play. Detailed examples in every chapter illustrate what effective instruction and assessment look like in three distinct settings: a school-based prekindergarten, a Head Start center with many English language learners, and a private suburban preschool. Helpful book lists, charts, and planning tools are featured, including reproducible materials.

ENC Focus, 1997 **Your Successful Preschooler** Ann E. Densmore, Margaret L. Bauman, 2010-12-09 The latest research shows that children can be taught at very early ages the tools they need to become successful and connected to others. This new book offers parents and teachers the information they need to teach children the most effective ways to engage peers and make social interactions easier and more meaningful. *Your Successful Preschooler* shows how facilitated play can become an opportunity to improve your child's emotional connections with peers. Teaches parents and educators how to foster growth in vocabulary and language during play, key ingredients to academic success. Presents dozens of anecdotes with dialogues parents can use to teach children how to better relate to their peers. Using the methods outlined in the book, parents and teachers can support activities that lead to a lifetime of social success and likeability that are crucial for every child's emotional stability.

Pro-Blackness in Early Childhood Education Gloria Swindler Boutte, Jarvis J. Jackson, Saudah N. Collins, Janice R. Baines, Anthony Broughton, George Lee Johnson, 2024 Use this inspirational resource to engage in Pro-Black teaching with young children as an antidote to endemic anti-Black racism in schools and society. Drawing from a critical case study of K-3 teachers who use Pro-Black teaching in their daily instruction, this important book puts forth positive perspectives regarding Blackness and Black people that are not evident in most educational settings. An easy-to-understand text provides evidence-based curriculum examples, pedagogies, and resources that demonstrate how teachers can achieve Pro-Black teaching while also addressing curricular standards and other demands on their time and explains the benefit of Pro-Black teaching for all children. The authors draw from decades of practice and research by Black scholars, e.g., Asa Hilliard, Janice Hale, Amos Wilson, to position racial identities as a key part of Black children's development. They center African Diaspora literacy as a Pro-Black pedagogy to ensure that Black children are competent in their own culture as well as in global cultures. *Pro-Blackness in Early Childhood Education* celebrates the agency, resistance, everyday lives, and joy of Black people. Book Features: Demonstrates how Pro-Blackness can be used to interrupt ethnocide practices that threaten Black children's culture and spirits. Provides guidance for implementing and sustaining Pro-Black instruction with accessible examples of curriculum and instruction. Focuses on Pro-Blackness rather

than anti Blackness Includes examples of K 3 lessons from Drs Diaspora curriculum that have been used in majority Black majority White and racially mixed classrooms **Integrating Math and Science** ,1996 **Resources in Education** ,2000-10 **Teaching Dance as Art in Education** Brenda Pugh McCutchen,2006 Brenda McCutchen provides an integrated approach to dance education using four cornerstones dancing and performing creating and composing historical and cultural inquiry and analysing and critiquing She also illustrates the main developmental aspects of dance

Resources for Teaching Elementary School Science National Science Resources Center of the National Academy of Sciences and the Smithsonian Institution,1996-04-28 What activities might a teacher use to help children explore the life cycle of butterflies What does a science teacher need to conduct a leaf safari for students Where can children safely enjoy hands on experience with life in an estuary Selecting resources to teach elementary school science can be confusing and difficult but few decisions have greater impact on the effectiveness of science teaching Educators will find a wealth of information and expert guidance to meet this need in **Resources for Teaching Elementary School Science** A completely revised edition of the best selling resource guide **Science for Children** **Resources for Teachers** this new book is an annotated guide to hands on inquiry centered curriculum materials and sources of help in teaching science from kindergarten through sixth grade Companion volumes for middle and high school are planned The guide annotates about 350 curriculum packages describing the activities involved and what students learn Each annotation lists recommended grade levels accompanying materials and kits or suggested equipment and ordering information These 400 entries were reviewed by both educators and scientists to ensure that they are accurate and current and offer students the opportunity to Ask questions and find their own answers Experiment productively Develop patience persistence and confidence in their own ability to solve real problems The entries in the curriculum section are grouped by scientific area Life Science Earth Science Physical Science and Multidisciplinary and Applied Science and by type core materials supplementary materials and science activity books Additionally a section of references for teachers provides annotated listings of books about science and teaching directories and guides to science trade books and magazines that will help teachers enhance their students science education **Resources for Teaching Elementary School Science** also lists by region and state about 600 science centers museums and zoos where teachers can take students for interactive science experiences Annotations highlight almost 300 facilities that make significant efforts to help teachers Another section describes more than 100 organizations from which teachers can obtain more resources And a section on publishers and suppliers give names and addresses of sources for materials The guide will be invaluable to teachers principals administrators teacher trainers science curriculum specialists and advocates of hands on science teaching and it will be of interest to parent teacher organizations and parents Catalog of Copyright Entries.
