ADRIENNE RICH

School Among The Ruins

Adrienne Rich

School Among The Ruins:

The School Among the Ruins Adrienne Rich, 2006-01-17 Trust Rich a clarion poet of conscience to get the fractured timbre of the times just right Booklist starred review In this new collection Adrienne Rich confronts dislocations and upheavals in the United States at the beginning of the twenty first century The title poem in a young schoolteacher s voice evokes the lessons that children Not of course here learn amid violence and hatred when the whole town flinches blood on the undersole thickening to glass Usonian Journals 2000 intercuts faces and conversations building to a dystopic utopic vision Throughout these fierce and musical poems Rich traces the imprint of a public crisis on individual experience personal lives bent by collective realities language itself held to account *Adrienne Rich s Later Poetry* Alec Marsh, 2024-12-12 Reorienting understandings of Adrienne Rich s later work through her interest in Marx and Marxist politics this book engages with this overlooked part of her oeuvre through considerations of issues such as race nationhood and gender From 1983 onward after she visited revolutionary Nicaragua until the end of her life Rich s political vision can best be described as Marxist Humanist Until recently very little attention has been paid to Rich s interest in Marx there is no in depth treatment of the effect of Marx s humanistic philosophy on Rich s later work or even on her unwavering but altered dedication to Women s Liberation This book fills this gap showing how Rich s discovery of Marx s humanism affected her poetry In doing so it makes a significant intervention into debates about the direction of American poetics and argues powerfully for a greater consciousness of political engagement through poetry *The Creative Crone* Sylvia Henneberg, 2010 Henneberg shows how these writers offer radically different but richly complementary strategies for breaking the silence surrounding age Rich provides an approach to aging so strongly intertwined with other political issues that its complexity may keep us from immediately identifying age as one of her chief concerns On the other hand Sarton s direct treatment of aging sensitizes us to its importance and helps us see its significance in such writings as Rich s Meanwhile Rich s efforts to politicize age create stimulating contexts for Sarton s work Henneberg explores elements of these writers individual poems that develop themes of aging including imagery and symbol the construction of a persona and the uses of rhythms to reinforce the themes She also includes analyses of their fiction and nonfiction works and draws ideas from age studies by scholars such as Margaret Morganroth Gullette Kathleen Woodward and Thomas Cole From publisher description **Adrienne Rich** Karen F. Stein, 2017-10-10 In her six decade long writing career Adrienne Rich 1929 2012 addressed with sagacity and probing honesty most of the significant issues of her lifetime A poet of finely tuned craft she won numerous prizes awards and honorary degrees and famously rejected the prestigious National Medal for the Arts in 1997 She wrote twenty five volumes of poetry and seven non fiction books as she combined the roles of poet scholar theorist and activist Rich wrote passionately and powerfully about major 20th and early 21st century concerns such as feminism racism sexism the Vietnam War Marxism militarism the growing income disparities in the U S and other social issues Her works ask important questions about how we

should act and what we should believe They imagine new ways to deal with the social and political challenges of the twentieth century Setting her work in the context of her life and American politics and culture during her lifetime this book explores Rich s poetic and personal journey from conservative dutiful follower of cultural and poetic traditions to challenging questioner and critic from passivity and powerlessness to activist theorist and acclaimed poet of the oppositional imagination

American Poetry after Modernism Albert Gelpi,2015-03-09 Albert Gelpi s American Poetry after Modernism is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half the twentieth century thus severing it from British conventions

Handbook of American Poetry Sabine Sielke,2025-01-27 This handbook offers scholars an overview of the state of research and students a sense of how American poetry from its first forms evolving in the 17th century settler colonies to its current digital modes has addressed issues and experiences central to human consciousness and to political life over five centuries of cultural practice At the same time it aims to show how poetry philosophy and theory have always been involved in productive dialogues After the Fall Richard Gray,2011-05-06 After the Fall A common refrain heard since the collapse of the World Trade Center towers on September 11 2001 is that everything has changed After the Fall presents a timely and provocative examination of the impact and implications of 9 11 and the war on terror on American culture and literature Author Richard Gray widely regarded as the leading European scholar in American literature reveals the widespread belief among novelists dramatists and poets as well as the American public at large that in the post 9 11 world they are all somehow living after the fall He carefully considers how many writers faced with what they see as the end of their world have retreated into the seductive pieties of home hearth and family and how their works are informed by the equally seductive myth of American exceptionalism As a counterbalance Gray also discusses in depth the many writings that get it right transnational and genuinely crossbred works that resist the oppositional and simplistic us and them Christian and Muslim language that has dominated mainstream commentary These imaginative works Gray believes choose instead to respond to the heterogeneous character of the United States as well as its necessary positioning in a transnational context After the Fall offers illuminating insights into the relationships of such issues as nationalism trauma culture and literature during a time of profound crisis

Discourses That Matter Maria José Canelo,2013-10-03 How can English and American Studies be instrumental to conceptualizing the deep instability we are presently facing How can they address the coordinates of this instability such as war terrorism the current economic and financial crisis and the consequent myriad forms of deprivation and fear How can they tackle the strategies of de humanization invisibility and the naturalization of inequality and injustice entailed in contemporary discourses This anthology grew out of an awareness of the need to debate the role of English and American Studies both in the present context and in relation to the so called demise of the Humanities Drawing on Judith Butler s rethinking of materiality as the effect of power in her study Bodies That Matter 1993 we locate this

collection of essays at the crossroads of discourse and power while we expect the work collected here to highlight the ability of discourses to materialize in or as truth and as such to support or decry particular constituencies Discourses therefore matter to us as products and vehicles of power relations that can be subject to the analytical and interpretative tools of English and American Studies Our idea was to challenge especially young scholars to position their research concerning the ability of their fields to be discourses that matter in the case in point to be critical practices that make an active intervention in current debates By focusing on matters such as language as witness to the world representations of gender race and ethnicity performative discourses exceptionalism and power and interculturality these essays pursue the chance to deepen enlarge and question both literary and cultural phenomena their established critical readings and the strategies deployed in representations Finally English and American Studies in the present collection demonstrate their affiliation to the Humanities by exploring the numerous possibilities offered by their discourses their ability to foster critical thought allowing us to think for and outside ourselves their capacity to test argue and question and their profound imaginative potential

Understanding Adrienne Rich Jeannette E. Riley, 2016-08-31 The journey of an important feminist writer through poetry prose and politics Among the most celebrated American poets of the past half century Adrienne Rich was the recipient of numerous awards including the Bollingen Prize the National Book Award and the Lannan Lifetime Achievement Award In *Understanding Adrienne Rich* Jeannette E Riley assesses the full scope of Rich s career from 1957 to her death in 2012 through a chronological exploration of her poetry and prose Riley details the evolution of Rich s feminist poetics as she investigated issues of identity sexuality gender the desire to reclaim women s history and what she terms the dream of a common language Throughout the book she documents Rich s gradually developing assertion that poetry can create social change and engage people in the democratic process Interweaving explications of Rich s poetry with analysis of her prose Riley offers a close look at the development of the author s voice from formalist poet to feminist visionary to citizen poet
