Brinda, Rosa Bottino**

School And Society Through Science Fiction:

School and Society Through Science Fiction Joseph D. Olander, Martin Harry Greenberg, Patricia S. Warrick, 1982
Originally published by Rand McNally in 1974 this volume investigates the applicability of science fiction to the study of social foundations of education and its problems The editors argue that science fiction is an ideal tool for analyzing the problems because it does not possess limitations on the nature of problematic inquiry its boundary of inquiry is subject only to that of the human imagination Science fiction offers the student of school and society a methodological tool by which man and his relationships actual and possible may be studied The possibility of ideas simply reinforces their probability and the link between the present and the future becomes the human imagination School and Society Through Science Fiction Joseph D. Olander, Martin Harry Greenberg, Patricia S. Warrick, 1974

Science Fiction and the Dismal Science Gary Westfahl, Gregory Benford, Howard V. Hendrix, 2019-11-27 Despite the growing importance of economics in our lives literary scholars have long been reluctant to consider economic issues as they examine key texts This volume seeks to fill one of these conspicuous gaps in the critical literature by focusing on various connections between science fiction and economics with some attention to related fields such as politics and government Its seventeen contributors include five award winning scholars five science fiction writers and a widely published economist Three topics are covered what noted science fiction writers like Robert A Heinlein Frank Herbert and Kim Stanley Robinson have had to say about our economic and political future how the competitive and ever changing publishing marketplace has affected the growth and development of science fiction from the nineteenth century to today and how the scholars who examine science fiction have themselves been influenced by the economics of academia Although the essays focus primarily on American science fiction the traditions of Russian and Chinese science fiction are also examined A comprehensive bibliography of works related to science fiction and economics will assist other readers and critics who are interested in this subject Ideas That Work in College Teaching Robert L. Badger, 2008-01-01 Fifteen authors from thirteen different disciplines discuss their varied approaches to teaching

School and Society, 1918 **Harry Harrison** Paul Tomlinson, Harry Harrison, 2002-04-01 The definitive Harry Harrison bibliography with lengthy annotations and a special bonus the Harrison story written for Harlan Ellison s unpublished Last Dangerous Visions anthology

Exploring Climate Change through Science and in Society Mike Hulme, 2013-09-11 Mike Hulme has been studying climate change for over thirty years and is today one of the most distinctive and recognisable voices speaking internationally about climate change in the academy in public and in the media The argument that he has made powerfully over the last few years is that climate change has to be understood as much as an idea situated in different cultural contexts as it is as a physical phenomenon to be studied through universal scientific practices Climate change at its core embraces both science and society both knowledge and culture Hulme s numerous academic and popular writings have explored what this perspective means for the different ways climate change is studied

narrated argued over and acted upon Exploring Climate Change through Science and in Society gathers together for the first time a collection of his most popular prominent and controversial articles essays speeches interviews and reviews dating back to the late 1980s The 50 or so short items are grouped together in seven themes Science Researching Culture Policy Communicating Controversy Futures and within each theme are arranged chronologically to reveal changing ideas evidence and perspectives about climate change Each themed section is preceded with a brief introduction drawing out the main issues examined Three substantive unpublished new essays have been specially written for the book including one reflecting on the legacy of Climategate Taken as a collection these writings reveal the changes in scientific and public understandings of climate change since the late 1980s as refracted through the mind and expression of one leading academic and public commentator The collection shows the many different ways in which it is necessary to approach the idea of climate change to interpret and make sense of the divergent and discordant voices proclaiming it in the public sphere Horror and Science Fiction Cinema and Society

Martin Harris,2024-09-02 Examining how horror and science fiction films from the 1950s to the present invent and explore fictional us versus them scenarios this book analyzes the different ways such films employ allegory and or satire to interrogate the causes and consequences of increasing polarization in American politics and society Starting with the killer ants film with an anti communist subtext Them 1954 and concluding with Jordan Peele s social horror film with revenge seeking homicidal doppelg ngers Us 2019 Martin Harris highlights social and political contexts contemporary reviews and responses and retrospective evaluations to show how American horror and science fiction films reflect and respond to contemporary conflicts marking various periods in U S history from post WWII to the present including those concerning race gender class faith political ideology national identity and other elements of American society Horror and Science Fiction Cinema and Society draws upon cinematic sociology to provide a resourceful approach to American horror and science fiction films that integrates discussion of plot construction and character development with analyses of the thematic uses of conflict guiding readers understanding of how filmmakers create otherworldly confrontations to deliver real world social and political commentary *Towards a Collaborative Society Through Creative Learning* Therese

Keane,Cathy Lewin,Torsten Brinda,Rosa Bottino,2023-09-27 This book contains the revised selected refereed papers from the IFIP World Conference on Computers in Education on Towards a Collaborative Society through Creative Learning WCCE 2022 Hiroshima Japan August 20 24 2022 A total of 61 papers 54 full papers and 7 short papers were carefully reviewed and selected from 131 submissions They were organized in topical sections as follows Digital Education and Computing in Schools Digital Education and Computing in Higher Education National Policies and Plans for Digital Competence

Exploring Science Through Science Fiction Barry B. Luukkala,2013-10-23 The material in this book forms the basis of an interdisciplinary college level course which uses science fiction film as a vehicle for exploring science concepts Unlike traditional introductory level courses the science content is arranged according to major themes in science fiction with a

deliberate progression from the highly objective and discipline specific e g Reference Frames Physics of Space Travel and Time Travel to the very multi disciplinary and thought provoking e g Human Teleportation Science and Society Over 100 references to science fiction films and television episodes are included spanning more than 100 years of cinematic history Some of these are conducive to calculations solutions included
