School Administration Persistent Dilemmas In Preparation And Practice:

School Administration Stephen L. Jacobson, Edward S. Hickcox, Robert Stevenson, 1996-11-25 A discussion of many of the dilemmas and problems facing school administrators Topics include conflicting beliefs regarding the fundamental purpose of school administering racial and ethnic differences and monetary incentives to reform teacher compensation This contributed book uses the voices of academics around the world to explain these dilemmas Possible solutions are also presented

Making Sense of Problems in Primary Headship Gerald Dunning, Tony Elliott, 2019-08-15 By using evidence from interviews with primary headteachers this book highlights the most serious problems experienced by primary heads The management of school finance and premises and relationships with a range of other people involved in the life and work of the school are shown to be recurring historical issues in primary headship

The Standards-based Administrative Internship Donald G. Hackmann, Donna M. Schmitt-Oliver, Jaclynn C. Tracy, 2002 This book provides guidance to individuals who are involved in the clinical preparation of aspiring principals and superintendents The authors argue for a high quality internship or mentoring experience and for basing experiences around the Interstate School Leaders Licensure Consortium ISLLc framework Additionally it will assist mentors in understanding their vital roles in ensuring such an experience

Advocacy Leadership Gary L. Anderson, 2009-05-01 In this timely and important new book Gary Anderson provides a devastating critique of why a managerial role for educational leaders is counterproductive especially for improving opportunities for low income students and students of color and instead proposes ways of re theorizing educational leadership to emphasize its advocacy role Advocacy Leadership lays out a post reform agenda that moves beyond the neo liberal competition framework to define a new accountability a new pedagogy and a new leadership role definition Drawing on personal narrative discourse analysis and interdisciplinary scholarship Anderson delivers a compelling argument for the need to move away from current inauthentic and inequitable approaches to school reform in order to jump start a conversation about an alternative vision of education today

International Handbook of Educational Policy Nina Bascia, Alister Cumming, Amanda Datnow, Kenneth Leithwood, David Livingstone, 2008-05-14 Nina Bascia Alister Cumming Amanda Datnow Kenneth Leithwood and David Livingstone This Handbook presents contemporary and emergent trends in educational policy research in over 40 chapters written by nearly ninety leading researchers from a number of countries It is organized into five broad sections which capture many of the current dominant educational policy foci and at the same time situate current understandings historically in terms of both how they are conceptualized and in terms of past policy practice The chapters themselves are empirically grounded providing illustrations of the conceptual implications contained within them as well as allowing for comparisons across them The serendipity within chapters with respect to jurisdictional particularities and contexts allows readers to consider not only a range of approaches to policy analysis but also the ways in which policies and policy ideas play out in different times and places The sections move from a focus on prevailing policy tendencies through

increasingly critical and outsider perspectives on policy. They address in turn the contemporary strategic emphasis on large scale reform substantive emphases at several levels on leadership and governance improving teacher quality and conceptualizing learning in various domains around the notion of literacies and concluding finally with a contrasting topic workplace learning which has had less policy attention and thus allows readers to consider both the advantages and disadvantages of learning and teaching under the bright gaze of policy.

The Making of Educational Leaders Peter Gronn, 1999-05-28 Peter Gronn provides a model of the process by which leaders' characters are shaped for leadership in different educational contexts. He focuses on the attributes of the individual and the formative circumstances which have shaped their perceptions and understandings.

International Schools, Teaching and Governance Carmen Blyth, 2017-02-26 This book examines how injustice based on social positioning is performed within the context of international schools. Drawing on the lived experiences of an international school teacher it proposes and explores the notion that teachers in being constituted and positioned as subordinate within the hierarchy that is the international school leads to their being wronged on three counts: epistemically for being wrongfully mistrusted, ethically for being wrongfully excluded and ontologically for being wrongfully positioned as a lesser human being. The book addresses the dearth of research currently available on conflict in international schools and how conflict between teachers and administrators is dealt with in and by such institutions. It will be valuable reading for students and teachers of education and sociology and those interested in the workings of international schools.

Resources in Education, 1998 **School Restructuring** Clive Dimmock, Tom O'Donoghue, 2014-01-09 This is an examination of restructuring in the context of the curriculum and teaching and learning. International case studies are provided from the USA, Hong Kong, Australia and the UK.

[Evaluating and Rewarding the Quality of Teachers: International Practices](#) OECD, 2009-11-06 This book identifies good practices in the design and implementation of evaluation and teacher incentive systems from various perspectives through formulation, stakeholder negotiation, implementation, monitoring and follow up.
